
Proceedings

OF THE

Government of His Highness the Maharaja of Mysore

JANUARY 1910

BANGALORE:
PRINTED AT THE GOVERNMENT PRESS
1910.

PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 11th January 1910.

READ AGAIN—

Government Proceedings No. R 2466-75—L R 41-09-5, dated the 21st September 1909, directing that within the ever-green belt on the eastern slopes of the Ghats, no land be given out for cardamom cultivation without the previous sanction of Government.

READ—

Letter No 5619, dated the 1st December 1909, from the Revenue Commissioner in Mysore, submitting for orders a copy of the Kadur Deputy Commissioner's letter No. 214, dated the 18th November 1909, suggesting that, with a view to readily and easily give effect to the above order, a list of the lands comprised in the tract referred to therein may be caused to be prepared by the Conservator of Forests.

No. R. 4759-68—L. R. 41-09-9, DATED BANGALORE, 11TH JANUARY 1910.

ORDER THEREON.—The Conservator of Forests, who was consulted, is of opinion that there is no necessity for a list of the kind proposed by the Deputy Commissioner and that it is sufficient to declare that no land lying to the west of a line drawn from Hanbal to Kotigehar, from Kotigehar to Kalasa and from Kalasa to Begar should be granted for cardamom cultivation without the previous sanction of Government. Government accept the Conservator's opinion and it will be given effect to by the Deputy Commissioners concerned.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Conservator of Forests in Mysore.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 11th January 1910.

READ—

Letter No. 4721, dated the 3rd November 1909, from the Revenue Commissioner *in* Mysore, requesting that out of the provision of Rs. 500 made in the current year's budget under "26 B. Miscellaneous, petty charges of a special nature," a sum of Rs. 80 may be allotted to the Shimoga District to enable the Deputy Commissioner to meet the cost of oiling sluice gates during the current year, as such expenditure is debitable to the above budget head in accordance with Government Order No. Fl. 1252-62, dated the 12th February 1903, and stating that in future the Deputy Commissioner may address Government direct in such matters, as the items of expenditure under "26. Miscellaneous General" are not under the control of the Revenue Commissioner.

No. R. 4776-85—L. R. 210-09-2, DATED BANGALORE, 11TH JANUARY 1910.

ORDER THEREON.—As the work of oiling and cleaning sluices is required by the order of February 1903 to be done by the Revenue Department, it is desirable that the Revenue Commissioner should have control over the expenditure connected therewith. Government therefore direct, in modification of the said order of the 12th February 1903, that, in future, the necessary provision for such charges be made under "2 B. Land Revenue (2) Charges of District Administration (iii) Supplies and services."

The expenditure during the current year will be met by re-appropriation from the Land Revenue budget. If the charges incurred on this account in all the districts cannot be met by re-appropriation, Government will be prepared to transfer to the Land Revenue budget the amount provided under "26. Miscellaneous" for this work.

C. S. BALASUNDARAM IYER,
Offg. Secretary to Government.

To—The Revenue Commissioner in Mysore.
The Comptroller, Mysore Government.
The Deputy Commissioners of Districts.

Cxd.—c. v.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 12th January 1910.

READ—

Letter No. 3829, dated the 24th September 1909, from the Revenue Commissioner in Mysore, submitting the records connected with the appeal of the raiyats of Gantagonahalli, Kunigal Taluk, contending that the raiyats of the adjacent village of Guchenahalli, who are declared by the Deputy Commissioner to be entitled to share in the Hulbanni lands of the former village on the ground that they hold lands in that village, have no right to the use of the Hulbanni lands as they are not the inhabitants of the village who alone have the right to such use, and requesting orders as to how the case should be decided.

No. R. 4807—L. R. 153-09-2, DATED BANGALORE, 12TH JANUARY 1910.

ORDER THEREON.—The attention of the Revenue Commissioner is invited to the marginally noted orders of Government, copies of which are forwarded for reference, according to which all the raiyats holding lands in a village, whether they are the inhabitants of the village or not, are entitled to the use of the Hulbanni lands disposed of under the Rules issued in Government Order No. 2360-9—55, dated the 16th July 1884. But it is desirable that the claims of the inhabitants of the village should be first considered and only the surplus grazing over and above their actual requirements disposed of to other raiyats.

I. Government Order No. 6023-31—128, dated 29th January 1885.
II. Extract of Decision of Government in an appeal case dated 4th July 1889.
III. Government Order No. 8333—P. F. 223, dated the 11th December 1892.

2. In the present case, the records show that the inhabitants of Guchanahalli have been grazing their cattle in the Hulbanni lands of Gantagonahalli, paying a proportionate share of the Hulbanni amount, for a long time past, and that now for the first time objection has been taken by the resident raiyats of the latter village. Moreover, the extent of Hulbanni and free pasture lands of this village is much in excess of the requirements of the cattle of the village.

3. Under these circumstances it seems to be only appropriate that the Hulbanni lands of Gantagonahalli should continue to be available to the raiyats of the other village also, as before.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 13th January 1910.

READ—

Correspondence ending with letter No. 2638, dated the 23rd August 1909, from the Revenue Commissioner in Mysore, regarding the grant of fresh land in exchange for Survey No. 95 (dry) measuring 13 acres and 29 guntas and assessed at Rs. 17 in the Mutkur village, Bangalore Taluk, which was the service inam land of Shanbhog Puttanna, and which was taken up by Government along with other lands for the sanitary improvement of the catchment area of the Hessarghatta tank.

No. R. 4812-4—L. R. 276-08-4, DATED BANGALORE, 13TH JANUARY 1910.

ORDER THEREON.—It is reported that the service inam land above referred to was taken up in 1906-07 and that a sum of Rs. 1,373-8-0 was awarded as compensation therefor and kept in deposit with a view to purchase some other land and assign it as service inam to the shanbhog. The shanbhog, who was given the choice of selecting a suitable land for the purpose, requests that as he cannot find one in the village, the amount kept in deposit may be paid to him and his own kandayam lands and the land belonging to his son, which are noted in the margin, treated as service inam. He also claims interest at 6 per cent on the amount kept in deposit as compensation for loss of crops during the last three years, and refund of assessment paid by him for 1906-07.

Mutkur village.

S. No.	Extent.		Assessment.		Khatedar.
	A.	g.	Rs.	a.	
49—8 (wet)	0	25	3	4	Shanbhog.
74—1 do	1	26	7	4	Puttanna.
45—3 do	1	14	7	2	Seshappa.
	3	25	17	10	

2. Both the Deputy Commissioner and the Revenue Commissioner recommend that as no suitable lands are available in the village to be granted to the shanbhog in exchange for the land taken up by Government, the kandayam lands in the khate of the shanbhog and his son may be purchased for the amount kept in deposit and assigned as service inam. As regards compensation for loss of crops (which is estimated at Rs. 223-14-0 by the Amildar), the Deputy Commissioner is of opinion that the shanbhog is not entitled to any such compensation as he himself is responsible for delay in the selection of the lands to be granted to him in exchange. The Revenue Commissioner, however, considers that the shanbhog is entitled to some concession for loss of crops and that he cannot claim more than the interest which might have accrued if the awarded amount had been invested in the Government Savings Bank, as he did not select the lands earlier.

3. Government observe that when service inam lands are acquired for public purposes, money compensation is not paid therefor but some other land is given as inam in exchange. According to this principle, the shanbhog in the present case is entitled only to the actual value of the kandayam lands belonging to him and his son, which are proposed to be assigned as inam and not to the amount that was awarded for the land taken up by Government. The estimated value of the lands is Rs. 906¼ at Rs. 250 per acre, and the said amount will be paid to him and the lands treated as service inam.

4. For loss of crops the shanbhog will, as recommended by the Revenue Commissioner, be paid interest at the Government Savings Bank current rate on the awarded amount kept in deposit from the date on which he was dispossessed of the land to the date of this Order.

5. If the assessment on the land for 1906-07 has been recovered from him, it will be refunded to him.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 13th January 1910.

READ—

1. Letter No. 207, dated the 6th July 1908, from the Revenue Commissioner in Mysore, regarding the grant of lands in exchange for certain Kodagi Inam lands in the Yaradi Golhalli village, Mulbagal Taluk, resumed to Government and absorbed in other Government lands during the Survey and Settlement of the taluk.

2. Letter No. 12913, dated the 12th June 1909, from the same officer forwarding a copy of letter No. 9008-563, dated the 14th May 1909, from the Deputy Commissioner, Kolar District, furnishing further information on the subject.

No. R. 4825-6—L. R. 40-08-4, DATED BANGALORE, 13TH JANUARY 1910.

ORDER THEREON.—Maji Nos. 111, 113 and 133 of Yaradi Golhalli village were the lands originally granted as Kodagi Inam. The Deputy Commissioner first reported that they were resumed to Government in 1874, owing to the failure of the Kodagidars to maintain the Kodagi tank in a state of repair, and were subsequently settled as hereditary Kodagi Inam on half quit-rent, in accordance with the orders of Government conveyed in the Chief Secretary's letter No. 1261-37, dated the 25th September 1888, on the understanding that they came under the category of Inams compulsorily resumed subsequent to 16th September 1874. As the lands were, however, not available for restoration to the Kodagidars owing to their absorption in Survey Nos. 42, 60 and 66 at the time of survey in 1887-88, it was recommended that Survey Nos. 42 and 60 assessed at Rs. 31 might be granted as Inam to the representatives of the original Kodagidar, the difference of Rs. 7-4-0, between the old and the new assessment being recovered from them as Kasàr Jodi.

2. But from the Amildar's report No. 354, dated the 14th November 1895, it having been found that the Kodagi Inam was resumed, not compulsorily, subsequent to the 16th September 1874, but under the orders of the Deputy Commissioner dated 15th March 1873. Owing to the absolute relinquishment of the tank by the then Kodagidars, a further report was called for as to the circumstances under which the lands were again treated as Inam by the Inam Department. It is now explained that in July 1877, a statement of Kodagi Inams resumed to Government subsequent to 16th September 1874, was sent to the Inam Department to be dealt with in accordance with the Government Order of 1888, and that the Inams in question had also been included in it with a remark that they had been resumed prior to 16th September 1874 and that as their confirmation was apparently due to a mistake, the Settlement may be now revised.

3. The Superintendent of Inam Settlements, who was consulted, is unable to explain how the mistake occurred, since the Deputy Commissioner's reference, dated 3rd June 1878, with which the statement of resumed Inams was sent, is stated to be missing, and has no objection to the resumption of the Inam.

4. Under these circumstances, the Settlement made by the Inam Department is revised and the Kodagidar's claim to the Inam lands rejected. The Inam Register will accordingly be cancelled.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Petition dated the 26th February 1909, from Mr. Ahmed Ali, Retired Assistant Commissioner, complaining that the owner of Survey No. 213 of the Ooregaum village, Bowringpet Taluk, included in the petitioner's mining block, was, without any enquiry or notice to the petitioner, fined Rs. 100 by the Deputy Commissioner on the ground that he had, without obtaining the necessary permission of the Deputy Commissioner, allowed the petitioner to build an engine shed therein; that the land was also subsequently sold for the recovery of the fine; and that, on account of these irregularities, he has been put to great loss.

2. Letter No. 314, dated the 7th July 1909, from the Deputy Commissioner, Kolar District, explaining the circumstances of the case.

3. Letter No. 185, dated the 21st July 1909, from the Secretary to Government, Geological Department, referring for the orders of Government, in connection with the above case, the question as to whether the owner of an agricultural land included in a mining lease granted by Government, should obtain the previous permission of the Deputy Commissioner under the Land Revenue Code for allowing the lessee to enter upon and use the land for mining purposes, and whether by failing to do so, he will render himself liable to a fine, and what procedure should be adopted in the case of Government unoccupied lands leased out for mining purposes.

No. R. 4836-45—L. R. 69-09-3, DATED BANGALORE, 14TH JANUARY 1910.

ORDER THEREON.—On the question raised by the Geological Secretary, regarding the necessity to obtain the previous sanction of the Deputy Commissioner before mining operations are commenced on any agricultural land comprised in any mining lease, Government observe that as the rules for the grant of exploring and prospecting licenses and mining leases do not require the previous sanction of the Deputy Commissioner in such cases, the matter may be deemed to be regulated by Section 65 of the Land Revenue Code and the previous sanction referred to dispensed with if the other conditions in the rules are duly complied with. In such cases the lessee represents Government and his agreement with the registered occupant is tantamount to an agreement between the latter and the Government contemplated in Section 65 of the Land Revenue Code.

2. With regard to the complaint of Mr. Ahmed Ali about the fine of Rs. 100 imposed on the khatedar of Survey No. 213, on which Mr. Ahmed Ali had erected an engine shed, in connection with his mine, Government are of opinion that the fine was rightly inflicted. It is not clear from the records whether or not the Revenue authorities had been informed that the land had been included in the mining lease, and it appears that the khatedar merely stated before the Amildar that he had allowed Mr. Ahmed Ali to make use of a portion of his land for an annual rent of Rs. 30 for keeping an engine, stores, etc. Mr. Ahmed Ali himself admits that he purchased the land in question and got it registered in his name long after the proceedings for the recovery of the fine for the unauthorized use of the land had been completed. According to clause 34 of the terms of the mining lease, Mr. Ahmed Ali was bound to obtain the consent of the owner of the land by an instrument in writing duly registered, but he had not obtained any such authority before undertaking operations. It is also reported that he had no superintendent or agent on the spot as required by clause 45 of the terms of the lease from whom any information about the mine could be obtained. Under these circumstances, Government consider that the Deputy Commissioner showed sufficient consideration in cancelling the sale and allowing the fine to be paid after the sale was held.

3. In view, however, of the ruling contained in para 1 of these Proceedings and having regard to the difficulties which Mr. Ahmed Ali had to encounter in starting operations and making the necessary arrangements with private proprietors, Government are pleased, by way of special concession, to direct the refund of the fine.

Land Revenue, dated 14th January 1910.

4. Government are also pleased to direct that, whenever assessed lands are included in mining leases and other licenses, due intimation should be given by the Geological Department, in all cases, to the Deputy Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 24th January 1910.

READ—

Letter No. 3309, dated the 10th September 1909, from the Revenue Commissioner in Mysore, submitting for orders the Kadur Deputy Commissioner's Letter No. 117, dated the 21st August 1909, reporting that the Amrut Mahal Department has, without reference to the Revenue Department, given out for cultivation a portion of the bed of the breached Parvatarayanakere tank in the Tarikere Taluk, and that the Amrut Mahal Department is not justified in cultivating the kaval lands, as it has a right only to the pasture on them.

No. R. 4995-5004—L. R. 146-09-2, DATED BANGALORE, 24TH JANUARY 1910.

ORDER THEREON.—The Superintendent of the Amrut Mahal Department states that it has been the practice for some years past to grow gram and fodder useful for Government cattle in some portions of kaval lands, that such temporary cultivation is permitted only in selected parts of a kaval, which require clearing of weeds and undergrowth and that the value of the produce is credited to Government as directed in Government Order No. Mily. 1347-9-77, dated the 26th September 1906.

2. The kavals have been made over to the Amrut Mahal Department for grazing the herds. But if any portions thereof could be spared for the cultivation of gram or other fodder crops for the benefit of the herds, or such cultivation is likely to improve the growth of the grass in the kavals itself, Government consider that there can be no objection to the Amrut Mahal Department getting this done directly or by means of temporary leases. The extent that may be made available will vary in each year and can only be determined after the requirements of the herds for the year are ascertained and the prospects of the season become more or less certain. It will cause great inconvenience and delay and also lead frequently to the loss of the cultivation season itself if such cultivation is required to be carried on through the Revenue Department. Government are therefore pleased to direct that the Superintendent of the Amrut Mahal Department will be allowed to use his discretion in the cultivation of these lands. He should see that the lands are not monopolised by the shervegars and other employees of the Amrut Mahal Department and that a fair rent is secured in each case. When the lands are to be let out, due publicity should be given to the fact, which should also be notified in the Taluk Cutcherry. The Amrut Mahal Superintendent is requested to add a para to his Administration Report regarding such cultivation and furnish Government with a list of lands given out with the amounts realised therefrom.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

1. Petition dated the 6th December 1907, from Nanjunda Sastri, Inamdar of Sarvamanya Hoskote village, T. Narsipur Taluk, praying for a reconsideration of the Government Order No. R. 1676—L. R. 69-07-2, dated 2nd September 1907, declining to grant his request for the retention of only his name in column 15 of the Inam Register of the said village as the other vrittidars whose names are also entered thereon have derived their title by subsequent gifts made by the petitioner's great-grandfather, the original grantee of the village.

2. Correspondence ending with letter No. 884, dated 28th June 1909, from the Deputy Commissioner, Mysore District, submitting a report on the above petition.

No. R. 5155-57—L. R. 69-07-8, DATED BANGALORE, 28TH JANUARY 1910.

ORDER THEREON.—The grounds on which the Government originally declined to give effect to the recommendation of the Inam Superintendent to grant the petitioner's prayer regarding the omission of the names of the other vrittidars from column 15 of the Inam Register, were (1) that the Inam Settlement having taken place in the year 1879-80, there was unjustifiable delay on the part of the petitioner in moving for the rectification of the mistake and (2) that as the joint registry of the main Inam had not affected in any way the rights of the several parties, there was no necessity to disturb it at this distance of time.

2 The petitioner states that he was a minor at the time of the Inam Settlement, that he became aware of the erroneous entry in connection with the introduction of survey and settlement into the village in the year 1902, that it greatly prejudices him in the management of the village and that there have been other cases in which delay has not been held to be a bar to the correction of obvious mistakes.

3. The Deputy Commissioner of the Mysore District reports that the sannad granting the village to the petitioner's ancestor and other records show that the original grant was absolute conveying full powers of alienation and did not contain any conditions regarding the creation of subsequent vrittis as now contended on behalf of the other vrittidars and the vrittis themselves were voluntary grants made by the original grantee and his descendants. He is therefore of opinion that, as the vrittidars have derived their titles by subsequent alienations of the portions of the Inam, the petitioner's request deserves favourable consideration.

4. Government observe that there can be no doubt that the entry of the names of the other vrittidars in column 15 made at the time of the Inam Settlement is opposed to the direction contained in the Chief Commissioner's Circular No. 54, dated the 13th December 1873, as they are all subsequent alienees and derive their titles from the gifts made by Nanjunda Bhatta or Anniah Sastri. It is only the names of persons upon whom the Inam village has devolved in the usual course of descent from the original Inamdar or, in the case of transferable Inams, the name of the person in whom the entire right of the Inamdar is vested, that should be entered in column 15, and Government can only recognize such persons as entitled to any privileges that may be attached to the grant of the Inam village, apart from the exercise of mere proprietory rights. In the present case the records also show that the ancestors of the petitioner did not by the alienations made by them divest themselves of all rights over the portions so alienated but reserved for their exclusive enjoyment the toddy and other minor items of revenue in the village, besides being responsible for the management of the village itself.

5. The right of each vrittidar to hold his vritti and exercise all rights of ownership in the share in the Inam village possessed by him is not affected by the entry in column 15 and it will not therefore give the petitioner any claim to interfere with the enjoyment by the other vrittidars of their vrittis or their liability to pay only their proportionate share of the jodi separately under Rule 99, clause (*c*), of the Land Revenue Rules, if their names are omitted from it. But it is necessary to have some single person responsible for the good administration of the village, the recovery of Government dues thereon and the maintenance of village accounts

Land Revenue, dated 28th January 1910.

to be rendered to Government and to exercise control over the village, and for this purpose the Government can only recognize the claim of the principal Inamdar and not others who have merely proprietory rights in portions of the Inam village.

6. For these reasons Government are pleased to modify their Order of the 2nd September 1907, referred to in the preamble of these Proceedings, and direct that the name of the petitioner alone be retained in column 15 of the Inam Register and that the names of the other vrittidars should be removed.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 94 of 1908-09.

Appellant—Nanjundiah of Kasaghatta, Dodballapur Taluk.

Subject.

Appeal against the order of the Revenue Commissioner cancelling the sale for arrears of revenue of S. No. 133 of Kasaghatta village, Dodballapur Taluk, as agreed to by the parties, and directing the suspension of the petitioner's father Eregowda, patel, from the said office for one year and the appointment of a stranger to the office during the said period.

Facts of the case.

For arrears of revenue amounting to Rs. 40-13-4 due on account of lands standing in the name of one Eregowda in Kasaghatta village for 1902-03, a notice of demand was served on him on the 4th March 1903, and S. No. 133 (dry) measuring 9 acres and 12 guntas with an assessment of Rs. 16 was forfeited and subsequently sold by public auction on 10th October 1903. In the sale it was purchased by one Muddabaira for Rs. 100. The sale was confirmed by the Sub-Divisional Assistant Commissioner on 13th February 1904. On 10th June 1904 one Hutchegowda and his brother Honnappa, the divided cousins of the khatedar Eregowda submitted a petition to the Deputy Commissioner praying for the cancellation of the sale on the ground that the land in question, though it stood in the name of Eregowda, was their ancestral property and was in their possession and enjoyment for a long time, that they had no knowledge of the sale and that it was brought about with the intention of defrauding them by Nanjundiah, the present appellant before Government. This petition was forwarded to the Sub-Divisional Assistant Commissioner for disposal. A report having been called for on the subject, the Amildar in his report dated 18th August 1904 stated that the complaints had not got their names entered in the special register to entitle them to a notice and that as the land was sold by public auction it could not be believed that they had no knowledge of it. The Assistant Commissioner Mr. B. J. Kumarasami Naik passed no orders thereon but returned the record to the Amildar. On 10th December 1904 they presented a petition to Mr. K. R. Srinivasiengar, who on 25th May 1905 declined to interfere.

Thereupon Hutchegowda and Honnappa preferred an appeal to the Deputy Commissioner and also represented that the khatedar's son Nanjundiah had in the meantime purchased the land from the auction purchaser for Rs. 300 on 25th March 1904 but that officer dismissed the appeal on the ground that there were no irregularities in the sale.

On appeal the parties were heard by the Revenue Commissioner on 12th March 1909, when the petitioner and his father deposed before that officer that they had no objection to the cancellation of the sale. Thereupon the Revenue Commissioner not only cancelled the sale but also ordered the suspension of the petitioner's father from the patel office for a year and the appointment of a stranger to do the duties thereof during the above period as a punishment for their suspicious conduct in causing the land to be sold. Hence the appeal. The case came for hearing on 18th June 1909 when the petitioner represented by his Advocate, Mr. Subbanna, was heard. It was urged (1) that the application for setting aside the sale was made long after its confirmation and was therefore barred by time and that the Revenue Commissioner was bound to dismiss the appeal though the appellant did not object to the sale being set aside, (2) that the Revenue Commissioner erred in holding that their consent for the sale being set aside proved fraud.

Land Revenue, dated 31st January 1910.

Decision.

The chief contention of the appellant is that the application made to the Assistant Commissioner to set aside the sale was out of time as it was presented some six months after the sale; and that under Section 4 of the Limitation Act the Revenue Commissioner was bound to dismiss it notwithstanding the consent of the opponents to the sale being set aside. The period of limitation for such an application is prescribed by the Land Revenue Code and not the Limitation Act. Section 4 of the latter Act cannot therefore be applied to the case so as to preclude the Revenue Commissioner from passing an order in accordance with the consent of the parties. No appeal lies against this part of the order of the Revenue Commissioner and so Government decline to interfere with it.

2. As regards the suspension of the patel from his office and the seclusion of his son from doing the duties of the said office, Government observe that these men cannot be said to have brought about the sale for arrears of revenue because as a matter of fact the arrears accrued in consequence of those who had to pay the revenue, having committed default. It has been repeatedly held by Government that if a person (not the registered occupant) who claims to have an interest in land wishes to have intimation of notices of demand issued in respect of it, he should register his name in the special register maintained for the purpose, and it is not fair to a village official to go behind this and to hold him responsible to report to the authorities all possible claims other than those of the registered occupant. The order of seclusion of both father and son from the pateli office is therefore set aside.

Memo No. R. 5294—L. R. 464-08-4, dated 31st January 1910.

Copy of the above is forwarded to the Revenue Commissioner in Mysore together with the records received with his letter No. 2833, dated 28th August 1909.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

1. Government Order No. 1406-15—L. S. 11-07-1, dated the 17th August 1907, requesting the Revenue Commissioner to submit proposals in consultation with the Superintendent of Survey for prescribing a course of training in survey to Amildars and Deputy Amildars and also to shanbhogs.

2. Letter No. 8536, dated the 10th February 1908, from the Revenue Commissioner in Mysore, submitting his proposals in the matter.

No. R. 5180-94—L. S. 11-07-3, DATED BANGALORE, 29TH JANUARY 1910.

ORDER THEREON.—On a careful consideration of all the opinions that have been received on the subject, Government are pleased to direct that all Amildars of less than seven years' standing and all Deputy Amildars should be made to undergo a course of training in survey work to enable them to carry out properly the inspection of boundary marks and stones and check the measurement and other records prepared by shekdars. As only Revision Survey operations are now being conducted in the State it is not possible to arrange to give the requisite training to such a large body of officers by attaching them to the Survey establishment as in the case of Assistant Commissioners. A special class will therefore be opened for their training at Bangalore under the direction of the Superintendent of Revenue Survey for three months from the 1st August 1910.

2. The course of training for each officer will be for one month and will consist chiefly of original measuring operations and the inspection of boundary marks and the method of replacing missing ones. The Revenue Commissioner is requested to arrange to send the Amildars and Deputy Amildars eligible for training in three batches, the Taluk Sheristadars being placed in charge of the taluks, if competent, during the absence of the Amildars for training, or special sanction of Government being obtained to make other arrangements where necessary. Government will be glad to receive from the Revenue Commissioner a programme of the arrangements which he intends making.

3. The Superintendent of Revenue Survey states that it will not be possible for him to provide instructors out of the existing establishment and proposes to employ temporarily for the purpose one surveyor on Rs. 50 per mensem, one measurer on Rs. 35, twelve flag-holders on Rs. 6 each, four chainmen on Rs. 7 each and two peons on Rs. 8 each. The cost of the establishment including contingencies at the rate of Rs. 15 per month is estimated at Rs. 216 per month. Government are pleased to sanction the entertainment of the special establishment proposed by the Superintendent of Survey for three months. As the school will be held during the season when field work is suspended on account of the monsoon the Superintendent is requested to arrange to have the work done in the school supervised by one of his Assistants by turns. The hire of a building at a rent not exceeding Rs. 30 per month to hold the school for three months is also sanctioned. The Superintendent of Survey is requested to see that the necessary provision is made in the next year's budget. The furniture required will, as proposed, be made available from the Local Service Examination Stores.

4. All persons whose names are included in the approved list of eligible candidates for appointment as Amildars and Deputy Amildars should also be permitted to undergo the course in the school, being given whatever leave they may be entitled to, to attend the school for the required period. To avoid inconvenience to work, Deputy Commissioners of districts and Heads of Departments concerned should arrange to send the officials in selected batches. As the school is not intended to be kept on for more than three months, Government are desirous that the present opportunity should be taken to train as many officials that are eligible for appointment as Amildars and Deputy Amildars as possible, and they should be informed that preference will be given in filling up vacancies to those who have undergone the course satisfactorily.

Revenue (Land Survey), dated 29th January 1910.

5. Each officer or other person admitted to the school should furnish himself with a pair of compasses, a set of scale and offset, and a drawing pen.

6. After the completion of the course, the Superintendent of Survey is requested to send a statement through the Revenue Commissioner showing the names of the Amildars, Deputy Amildars, and other officials who have, in his opinion, qualified themselves satisfactorily.

7. A deputation allowance of Rs. 30 will be paid to all Amildars and Deputy Amildars in lieu of travelling and other allowances during the course of their training.

8. In the case of shanbhogs, Government consider that it is sufficient for the present to give such of them as are desirous of undergoing survey training the necessary facilities for the purpose, and are pleased to direct Deputy Commissioners of Districts to inform shanbhogs that, if twenty candidates belonging to their class come forward for undergoing this training at their own cost, arrangements will be made to open a Mojini class under the District Surveyor at the district head-quarters, where instruction will be imparted in the nature and use of the chain and cross staff, testing rod, plotting scales, etc., the preparation of field books and village maps and the measurement of survey numbers with inspection of boundary marks. If a sufficient number of candidates offer themselves, Deputy Commissioners are authorized to open the school and incur an expenditure not exceeding Rs. 25 a month for the purpose. A special report should be submitted as to the advantage that has been taken of this concession in each district, after the expiry of a year, and the desirability of making the training compulsory on all shanbhogs.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Superintendent, Mysore Revenue Survey.
The Revenue Commissioner in Mysore.
The Comptroller, Mysore Government.
The Deputy Commissioners of Districts.
The Inspector-General of Police in Mysore.
The Inspector-General of Registration.
The Excise Commissioner in Mysore.
The Secretary to the Local Service Examination Board.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

I. Letter No. 20, dated Bangalore, 21st September 1909, from the Superintendent of Mysore Revenue Survey and Settlement, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

As desired in para 14 of Government Proceedings No. R. 4299-310—L. S. 3-06-2, dated 29th October 1906, I have the honor to submit, for the consideration of Government, six copies, accompanied by six copies of illustrative map, of my report containing proposals for the revision of the assessment of the Tumkur Taluk of the Tumkur District.

2. I have sent copies of my report both to the Revenue Commissioner and the Deputy Commissioner for their opinion and I shall, on receipt of their replies, submit the same to Government for sanction with such remarks as may be necessary.

(ENCLOSURE TO THE ABOVE.)

Report No. 12, dated Bangalore, 2nd August 1909, from D. Shama Rao, Esq., Superintendent of Mysore Revenue Survey and Settlement, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to submit proposals for the revision of the assessment of 367 (formerly 369) villages, which constituted the Tumkur Taluk at the time of the original settlement and were settled under the orders of the Chief Commissioner, conveyed in his Secretary's letter No. Gl. 1242—Rev. 28, dated the 10th June 1871. A good deal of modification was effected in the boundaries of the taluk in 1882, and, as at present constituted, it consists of 434 villages and is compact territory with regular outlines, secured by a redistribution of villages giving away those that straggled into the Gubbi and Koratagere Taluks and taking some in return to fill up gaps. The tract, however, with which the present report deals, is composed of the following:—

289 villages which form the bulk of the present Tumkur Taluk.
78 villages transferred to the Gubbi Taluk.
2 villages transferred to the Koratagere Sub-Taluk.
2 villages newly formed after the original settlement, *viz.*, Devarayadurga State Forest and the Mannemari Nagadi Kaval.

Total ... 371
Deduct ... 4 villages absorbed into the Devarayadurga State Forest.

367 villages to be brought under revision settlement.

2. *Boundaries.*—The tract is bounded on the north by the Sira Taluk and the Koratagere Sub-Taluk, on the east by Koratagere and Nelamangala Taluks, on the south by the Magadi, Kunigal and Gubbi Taluks and on the west by the Chiknayakanhalli and Sira Taluks. It is very irregular in contour and may be roughly described as representing an oblong of about 30 miles in length and 10 miles in breadth, with a square of about 100 square miles hanging on the south-east. The taluk is situated in almost the centre of the eastern portion of the district.

3. *Physical characteristics.*—There are two chains of hills in the taluk, one on the north-east and the other on the north-west, which render the surface uneven and undulating. These chains, however, differ widely in character and appearance; whereas the Devarayadurga Range in the north-east contains many picturesque hills of considerable height and is covered with fairly thick forest, the chain in the north-west is low and affords no scope for the growth of forest trees. Numerous small streams issue from the sides of the Devarayadurga Range, the more important of which are the Jayamangali, which, after a short course in the tract, flows north-east into the Uttara Pinakini, and the Shimsha, which, taking its rise in the south of Devarayadurga, flows south-west and south through the Gubbi and Kunigal Taluks and ultimately joins the Cauvery river.

4. *Soils.*—Red soil predominates. In dry land it ranges from a rich dark red of fine texture to ashy gray with faults of sand, kankar, chowl and lack of depth. Irrigated lands, which are as usual better cared for, have assumed higher qualifications both in colour and texture. There is no natural black soil in the taluk; what looks black is only soil constantly and heavily manured.

5. *Forests.*—The Devarayadurga Hills, including the Doddawadi block, are surrounded by some well-grown forest trees, but much of the area included in the State Forest is covered with low stunted scrub; they, however, contain good many sandal trees. The forest is about 18 square miles in extent. The Forest Department has been attempting plantations in various other villages in the taluk.

6. *Drainage.*—The lie of the country is easy to understand; with the exception of a belt of land inclining inwards from Koratagere in the north-west, and another from Nelamangala in the south-east, the great slopes in the taluk radiate in all directions outwards from the Devarayadurga Hills. The numerous streams thereby formed are bunded across in nearly every spot favourable to irrigation. The majority of the tanks are found in the west and the south. In the north and the east of the hills, there are not many, and none very important, owing to the steepness of the slopes, where the rush of water would be too strong for ordinary bunds to withstand, and also to the chance of tank beds being quickly silted up. Though there are many "hallas" in this quarter which will fill up tanks if constructed, it is only after the water leaves the more precipitous regions and begins to flow more placidly, that a site such as the one at Mavatur is selected for a tank bund. But Mavatur is, however, outside the tract under report.

7. *Climate and rainfall.*—The climate of the taluk is, on the whole, good. It is quite justifiably said to resemble that of Bangalore. All seasons in the year are equable and unoppressive. The town of Tumkur and the tract within a radius of a few miles from it are more temperate in the hot weather than the outlying portions. The rainfall, though subject to ee of precariousness, is on the whole fair. The Director of Meteorology, in his printed for 1907, gives statistics for the four stations included in the tract under report. The e actual rainfall for the year for the whole tract comes to 25·77 inches; but the central a less degree the eastern parts are more favoured than the rest of the country. The e in Tumkur Town for nine years was 36·64 inches and that at Urdugere in the north- or fifteen years was 33·10 inches, whilst Bellavi and Nelhal, 8 and 13 miles, respectively, north and west of Tumkur, show an attenuated fall of 27·04 and 26·12 inches, respec- , for the like period. The character of the rainfall is represented in a clear manner by parison made of the averages at these stations with those for stations in the bordering . Thus Koratagere in the north has 22·92 inches, Bukkapatna in the north-west Taluk) has 22·56, Kadaba in the south-west (Gubbi Taluk) has 25·18, Hebbur in the (old Kunigal Taluk) has 26·52, Dobbspet in the east (Nelamangala) has 29·72, and and Mavatur in the north-east (old Koratagere Taluk) have 29·18 and 25·79 inches, tively. It is evident from these figures that Tumkur Town as a centre enjoys more han any of the other stations within the taluk and that these in turn are better off than ns farther away. These conclusions are substantially borne out by a consideration of neral agricultural conditions in different parts of the taluk. The country round about ur receives a good average supply owing probably to the greater abundance of trees ally, and to the existence of the hill forests in the neighbourhood; outside this circle, ltural conditions are somewhat degraded, but by no means bad, the difference being able in the north and the west; whilst the least favourably conditioned portion is in treme west of the taluk where it projects into Sira and Chiknayakanhalli, and in a of territory along the northern boundary.

8. *Crops and cultivation.*—Both climate and soil conduce to favor ragi as the staple rop. Togari and avare are the most commonly grown of pulses, cultivated mostly in in ragi fields. Rice is the chief crop in wet lands, though there are in the taluk about cres under sugar-cane cultivation. This latter is found principally under the tanks at udike, Sasalu, (Devara Amanikere) Bugadanhalli and Maidal. I know of no reason cane cultivation should not be more popular with raiyats holding lands under the better of tanks, unless it be an unwillingness to leave the beaten track. Tank-fed gardens ice betelleaf, areca, cocoanut and plantain and other fruits, apart from vegetables, are grown in a subsidiary way. Within the past 20 years are so, some of the old ns and many "Kushki" lands, especially in the villages nearer to Kasaba Tumkur, been turned into flourishing gardens of graft mangoes, which are largely exported. The erry gardens of old are almost extinct owing to the decline of the silk industry in the ct.

The proportion of the different crops of 1906-07, worked on the figures given in the n and Crop Report, Table 3A, is as follows:—

Ragi	65·88
Rice	6·80
Gram	6·07
Other cereals	11·51
Oil-seeds	4·34
Sugar-cane	0·41
Cotton	0·21
Drugs and narcotics	0·14
Garden produce	4·00
Miscellaneous	0·64
Total ...	100·00

Land Survey, dated 29th January 1910.

9. *Communications.*—Favorable as the system of roads in and about the taluk was at ıe time of the original settlement, some very significant additions have been effected within ıe past 36 years. The most important of these is the Bangalore-Harihar Railway line, with ations at Tumkur and Hirehalli, connecting the tract with the chief trade centres of ombay on the one hand and Bangalore and Madras on the other. Bellavi, the most ıportant inside market town, has recently been linked by a road with Chelur, Hagalvadi ıd Bukkapatna on the one side, and with a point about 10 miles distant from Tumkur on e Tumkur-Sira road, which supplies a much felt want to traffic betwen Tumkur, Chik-ıyakanhalli and Sira Taluks. The southern portion of the taluk was comparatively -served with means of communication before, but two new roads have brought amelioration this tract, the one branching off south-eastward to Honnudike, from the 7th mile on the umkur-Kunigal road, and the other connecting this new road with the Tumkur-Bangalore ad at the 7th mile. The old roads and the new ones are for the sake of convenience put gether in the two following groups:—

Old roads—

1. The Tumkur-Maddagiri road.
2. The Tumkur-Sira road.
3. The Tumkur-Gubbi road.
4. The Tumkur-Kunigal road.
5. The Tumkur-Bangalore road.
6. The Tumkur-Bellavi road.
7. The Gubbi-Sira road, of which about seven miles pass through the tract under report.
8. The Dobbspet-Koratagere road, of which about twelve miles pass through the taluk

New roads—

1. The Southern Mahratta Railway line.
2. A road connecting Honnudike with the Tumkur-Kunigal road.
3. A road connecting the above with the Tumkur-Bangalore road.
4. A road connecting Bellavi with the Tumkur-Sira road.
5. A road connecting Bellavi with Chelur, Hagalavadi and Bukkapatna in the Sira Taluk.

10. *Markets.*—The most notable markets in the interior are those of Bellavi and umkur. These may be described as important links in a chain of markets in the district hiknayakanhalli, Turuvekere, Tiptur and Gubbi being among the others) at which trade is isk, and reaches out beyond the Province to Dharwar, Bellary and even Bombay on the ıe hand, and Salem, Vellore and Madras on the other. Tumkur has gained much of recent ars in trade; the Labbes and other sahukars there are very busy with purchasing and illing off surplus produce not alone of the Tumkur Taluk but of the adjacent taluks of ubbi, Tiptur, Sira, Maddagiri and Chiknayakanhalli and even of remote taluks like Hiriyur. he other inside markets at Kyatasandra, Chelur, Bidari, Gulur, Honnudike and Maddagiri rve mainly as convenient places of resort for the sale and purchase of articles of daily want the people in the neighbourhood. Of the markets outside, Bangalore attracts the raiyats r more reasons than one; it is not very far, the public offices are found there, and almost ıything with which the raiyat has to do, can be readily sold or purchased. Not a few of e raiyats cart their produce to Bangalore, when not otherwise engaged, preferring an ıting of two or three days to entrusting it to the railway, paying freight and perhaps so suffering the inconveniences of break of bulk. Areca merchants in Bellavi and Tumkur ı not send out areca by rail. They generally load it in carts to Vadigenahalli in the evanhalli Taluk, whence again it is exported in different directions.

11. *Exports and imports.*—Areca, rice, ragi and pulses are the chief exports, and the ıief imports are iron, oils, spices, sugar and cloths.

12. *Manufactures and industries.*—Some families of braziers in Urdagere, Seetgatta ıd Betseetkal make and repair brass vessels. An Industrial Institution managed by a issionary Society in Tumkur turns out excellent work in wood and iron. About 70 Native hristians find employment here. An oil-engine installed in Tumkur is well patronized for husking paddy at a charge of two rupees per hundred seers of rice. There were in 1907, 206 cotton and 62 kambli looms, 16 small iron workshops and 96 oil-mills, all indigenous. Beyond these, the taluk has no industry to show other than agriculture.

13. *Irrigational resources.—Tanks.*—The tract under report lies within the basin of three rivers, the Vedavati, the North Pennar and the Shimsha. The portion draining into the Vedavati is a small area in the north-west, and unimportant as containing one or two minor tanks. That connected with the North Pennar is comprised in about 60 square miles of the Urdagere magani. This region may be described as rugged and rocky with slopes too precipitous for the safety of tank bunds, if constructed. The only tanks of any importance are those at Thanganahalli and Chikdodwadi. Far the largest portion of the taluk lies within the drainage of the Shimsha river and all the notable tanks in the taluk are situated

in it, with numerous smaller tanks scattered amongst them. The large tanks at Devarhalli, Sasalu and Honnudike receive water from the Sivaganga Hills in Nelamangala Taluk in the east. These are in good repair and are reliable. The Holkallu and Hunsagere tanks are next in importance in this part of the taluk. Further up towards the centre are the well-known amani tanks of Maidal, Gulur, Maralur and Hoskere in one series, and those of Tumkur and Bhimasandra in another, all deriving their supply from the Devarayadurga Hills. One of the two feeders of the Maidal tank has been in bad repairs for a long time. The large atchkat under it makes heavy demands on its resources, and it would be well if it could be quickly restored or a suitable substitute found. A series in the north and the west derives its supply partly from the Koratagere Sub-Taluk and partly from the Devarayadurga Hills. The principal of these are the tanks at Kestur, Kora, Hebbak, Bugadanhalli and Mukanhallipatna, all in fairly good order, some minor disorders excepted. A second series in this part of the taluk consists among others of the two large tanks at Chelur, the two at Bidari and the one at Dodnetkunte.

14. A common fault in most of these tanks is that they are liable to silt up more rapidly than in other taluks, an evil which seems to be inevitable from the nature of the country on which the drainage passes, and for which probably no easy remedy will ever be discovered. The tank at Kasaba Tumkur, for instance, has had its bed silted so deep within the last 30 years, that a number of fields, to which the water-supply was once relatively certain, encounter much difficulty, even after an average rainy season, in getting enough for a good wet crop; and this, in spite of the fact that the kodi was a few years ago raised. I am also inclined to subscribe to the view taken by my assistant Mr. Darashah, that the Revenue authorities have not always exercised a good discretion in gradually extending the atchkats by allowing water to dry lands on "Nirsardi," the result in the case of tanks that have not improved or have actually deteriorated since the original settlement being a more and more precarious supply to all the lands concerned.

15. *Wells.*—There are 1,502 irrigation wells in the taluk. These are mostly used in supplementing irrigation from tanks. Only a minority of them are entirely revetted with stones. The greater number are revetted only on the kapile side, or have the kapile or yata resting on a frame-work of timber, no expense being incurred in stone revetting. When a spring has failed or a well has fallen in, it is abandoned without ado and another is made in a favourable position; when that is gone, yet another is dug and so on. Pot ring wells with yata lifts are in vogue in Kasaba Tumkur and some adjoining villages.

16. *Talpargis or surface springs* are found in a number of villages skirting the bottom of the hills. They yield water for about half the hot weather on an average. There are not so many on the Urdagere side, as there are on the west and the south of the hills.

17. *Streams.*—The Jayamangali, which is the largest stream in the taluk, flows north-east across Urdagere magani, and gives scope for irrigation to Bagayat lands. The irrigation, however, is not direct; wells are constructed along the banks from which the water is baled up. The bed of the stream yields water throughout the hot weather with a little scooping. These wells are among the best in the taluk. The other streams are not of much account.

18. *Population and agricultural resources.*—The population of the tract at the four Census periods was as shown below :—

1871	1881	1891	1901
94,266	57,123	73,365	85,610

The reduction by 37,143 souls under the year 1881, *i.e.*, nearly 40 per cent of the population of 1871, indicates the severity with which the great Famine played its part. It is not clear why this was the case in a taluk which is, if anything, more favorably circumstanced than many of the others that have more than recuperated themselves. Its general position, climate, rainfall, soil and facilities of occupation and trade and almost every other circumstance material to the condition of a people, combined with the solicitude with which raiyats were looked after during the famine, will I think, be readily admitted to be favorable beyond the average. Yet it seems to have suffered double the percentage of loss for the Province, and was in 1901 still far below its original strength. In dealing with the deficiency of population in the Tumkur District, which, in this respect, is on all fours with the Tumkur Taluk, the Census Commissioners of 1891 and 1901 were both struck by the anomaly, and after an attempt to form a reasonable hypothesis, practically gave it up as not capable of adequate explanation. It is useless at this distance of time to try to solve a question, which, with all facilities at their command, the Census Commissioners have not succeeded in sufficiently accounting for. Turning from the unavailing topic, however, to other points of interest in the matter of population, we find that the rate of increase of the population of 1891 over that of 1881, was rapid. It was 28·4 as compared with 18·1, the

Land Survey, dated 29th January 1910.

average for the Province, and 16·7 in 1901 over the previous Census figure as compared with 12·03 for the Province. Further, the tract being 396 square miles in extent, the density in 1901 per square mile works out to 216, which well exceeds the mean density not only of the Province as a whole (185) but even that of the eastern Division, inclusive of the cities (200). The Eastern Division for Census purposes comprises only the thickly populated maidan taluks. Whatever, then, may have been the causes of what appears to have been an extraordinary depletion at the Famine, the speed at which the taluk has been recovering lost vitality and the existing density of population must strike any one as remarkable and reassuring.

19. The following table compares the number of houses and agricultural stock as noted by the classers at original and revision survey :—

Particulars	At the time of original survey	As per resurvey	Increase	Decrease
Houses ... Tiled	2,446	3,540	1,094	...
Houses ... Mud-roofed ...	15,445	17,670	2,225	...
Houses ... Thatched ...	4,051	4,066	15	...
Total ...	21,942	25,276	3,334	...
Horned cattle	64,715	84,525	19,810	...
Ploughs	12,040	14,913	2,890	...
Carts ... Halli Bandies ...	394	7	...	387
Carts ... Chakra ...	1,188	2,639	1,451	...
Carts ... Waddar ...	...	28	28	...
Total ...	1,582	2,674	1,092	...
Wells ... Irrigation ...	...	1,502	...	...
Wells ... Other	..	1,322	...	...
Total ...	...	2,824	...	...

The Census tables do not give the number of houses villagewar, as they do in the case of population; only aggregates are given for taluks as reconstituted subsequent to original survey settlement. The same thing has to be said of live and other agricultural stock which, as noted in the agricultural statistics published by the Director of Statistics, refers to the taluk according to the present boundaries. Under these circumstances, I have to adopt the statistics collected by the classers, which, I may observe, are always found to be sufficiently reliable for purposes of comparison and inference. There is an increase in the number and improvement in the style of houses that might reasonably be expected in a tract like Tumkur. All the other heads also show that agricultural resources are greater now than what they were at the original settlement. The number of tiled houses has increased by 44·73 per cent, and mud-roofed houses by 14·40 per cent. Horned cattle show an increase of 30·61 per cent. In the number of carts, there has been an increase of 69 per cent, indicating a sufficient expansion of trade both import and export. Ploughs show an increase of 24 per cent. The increase in the agricultural stock of the tract is very satisfactory.

20. *Husbandry.*—There has been no notable or distinct change in the mode of husbandry. The agricultural implements, the methods of using them and the kinds of manure used are just the same as of old.

21. *Prices.*—Government is familiar with the facts relating to prices of produce, as set forth in successive settlement reports. Difficulties inherent in the subject render it unamenable to precise mathematical results. But evidence, decidedly sufficient to support conclusions, which, if somewhat broad in character, are good and comprehensive enough for our purposes, is available. On page 3 of the Government Gazette of the 16th August 1906

will be found a statement of prices in the Tumkur District, which the Director of Statistics has published. This is based on the fortnightly statements furnished to him by the Deputy Commissioner and refers to the annual retail prices of six of the principal articles of food for twenty years (1886-1905); and quinquennial averages are also given. To this may be appended the average for two subsequent years 1906-07 for the Tumkur Taluk, which, as furnished by the Amildar, is 6·5 seers of rice per rupee and 19 of ragi. Accounts for eight years prior to 1886 are also forthcoming from the Amildar. Eliminating from these about three years which were much disturbed on account of the Famine, the average for the remaining five years, for the two principal crops of the taluk, works out as follows:—Rice 13 seers per rupee and ragi 35·4 seers. Looking further back, information is available only for the districts of Mysore and Bangalore. Those for Bangalore (chosen on account of its propinquity to Tumkur) are, rice, 1st sort, 11·09 seers (5 years' average), ragi, 35·32 seers (3 years' average, 1872-75). These averages may be put together and exhibited as follows:—

	Rice	Ragi
1871-75	11·09	35·32
(Influence of Famine.)		
1880-85	13·00	35·4
1886-90	11·72	43·87
1891-95	8·57	27·97
1896-1900	8·08	23·69
1901-05	8·15	24·97
1906-07	6·5	19·00
Two years.		

It will be seen from the above that prices have sometimes fluctuated to a certain extent, but that there is at the same time a general tendency to mount; about this there can be no mistake. The fact is graphically illustrated in the diagrams attached to the Government Gazette already alluded to. How much exactly prices have risen, it is impracticable to find out; but upon the available data, we may safely and justly assume that the range of increase is from 30 to 40 per cent, and I believe that this estimate does not exaggerate the reality, nor is there any likelihood of the scale ever being palpably reduced in the future. The Province has been freely opened out by railway and other communications, and must therefore participate largely in the condition of things in the rest of India. The demand from outside, which has steadily grown for twenty years and more, must be reckoned as a permanent factor in over-economy.

22. *Value of land.*—An examination of 1,069 cases of sale of land, at which a total of Rs. 1,65,492 was realised, proves that the average value was 14 times the assessment; and 1,162 cases of mortgage, in which the loans amount to Rs. 2,41,716, give an average of 12 times the assessment, making due allowance for house property included in the transactions along with the lands. These figures are so far satisfactory and show that land commands a good market value.

23. *Results of revision survey.*—There were 24,499 survey numbers at original survey, which have now become 26,453, showing an increase of 1,954 or 8 per cent. The exact amount of remeasurement is, however, not fully represented by these figures, as a great number of fields have been measured for inclusion in or separation from the State Forests and Plantations, for margins of roads and tank bunds according to the standing orders of Government and for the ascertainment of different descriptions of lands comprised in "misreet" numbers. Much valuable time was lost in remeasurement on account of missing boundary marks having had to be located and set up anew.

24. *Reclassification.*—The classification was, in accordance with the Government Order of 5th November 1896, restricted to the water-supply of irrigated lands and did not concern itself with the soil, except where old kharab land was proposed to be brought under cultivation for the first time, the most important case being that of the Aktangirakatte Kaval, in which many fields of a convenient size have been laid out at the request of the raiyats and with the consent of the Revenue and Amrut Mahal authorities. The demand for fresh land for cultivation is large, but the pasture (free grazing lands) in most villages is barely sufficient for the cattle. Hence a very limited number of new fields has been made out of gomal.

Land Survey, dated 29th January 1910.

25. *Past and present areas.*—The original and the revised areas of the taluk, under the different classes of land are as follows :—

Descriptions	Former survey area as per Akarband	Resurvey area	Increase or decrease
	Acres	Acres	Acres
Arable dry crop land	147,990	144,550	— 3,440
,, rice land	14,397	14,924	+ 527
,, garden land	4,864	4,714	— 150
Unculturable land	85,435	89,280	+ 3,845
Total ...	252,686	253,468	+ 782

There has been a difference of only 782 acres or about 0·31 of an acre per cent. The difference being so insignificant, calls for no remark. The area of each survey number was subjected to scrutiny both in field and in office. Dry land has diminished by 3,440 acres, much of this having been taken up for forest purposes, new roads, and margins of tank bunds and roads, as is evident from the increase of 3,845 acres under unarable land. Wet land has increased by 527 acres. Gardens have decreased by 150 acres owing to the failure of wells and have been converted into either wet or dry, according to the circumstances of each case.

26. *Revenue history.*—Appendix A gives the revenue history of the taluk under report. The Amildar of Tumkur and the Deputy Amildar of Koratagere have failed to send in the statistics of collection and the area under cultivation for the years from 1871-72 to 1887-88 and 1890-91, respectively. I must therefore be content with placing before the Government such a compilation of figures for those years as is available from the accounts received annually at my own office. The statement, so far as it goes, is sufficiently accurate for our purposes. What is wanting is the yearly details of occupied and unoccupied lands, under the three heads of culturable land, *i.e.*, dry, wet and garden, as required by Government.

27. The following is an abstract of Appendix A and briefly indicates the revenue history for quinquenniums :—

Year	Government occupied land										
	Dry		Wet		Garden		Total		Remission	Amount realised	Percentage of increase or decrease as compared with the year 1871-72
	Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment

28. The following statement showing differences between the year of the introduction f the original settlement, the lowest revenue collection year, and the highest revenue col-ection year with the percentage of increase or decrease as compared with the year of riginal settlement, may be of interest for judging progress :—

Year	Revenue collections	Increase or decrease
871-72 (the year of the original settlement) ...	1,31,239	.....
880-81 (lowest year)	90,277	— 31 per cent
906-07 (highest year)	1,59,212	+ 21 per cent

29. The occupied land was much the same for the first six years after settlement, but hereafter declined on account of the great Famine till 1889, when several causes, chief of which was the establishment of the through railway communication with Bombay, led to an advance in cultivation which has been uninterrupted during the past twenty years. The effect of the railway is the more striking in the expansion of cultivation, although, as I have already mentioned, the population has all along been much behind its original strength. By the year 1906-07 we find, as compared with the year of the introduction of original settlement, that cultivation increased by 15,932 acres and assessment by Rs. 28,231, and assessed waste decreased by 10,707 acres. The figures pertaining to extension of cultivation do not tally with the corresponding decrease shown under unoccupied assessed area, for it must be remembered that during the currency of the settlement, several unarable and unassessed survey numbers have been brought under arable area to meet the demands of cultivation. A good deal of the unoccupied wet land lies on the fringes and tail ends of large tanks, such as that of Kestur, Kora, Chelur and Bidari. These are quickly taken up if, the "mungar" rains being copious, the prospects of a rice crop are more or less assured, and as readily relinquished in reverse conditions. Remissions have not been considerable during the currency of the original settlement. The high average of remissions for the quinquennium 1877 to 1881, was on account of the Famine, the loss in the year 1876-77 alone amounting to Rs. 24,335 (*vide* Appendix A of this report).

30. The following statement shows the extent of the occupied and unoccupied lands as they stood in 1871-72, the year of the introduction of the original settlement, and at resurvey. In the absence of details regarding the several descriptions of occupied and un-occupied areas, I have to give only the total areas for comparison :—

Description	Year of original settlement 1871-72	As per resurvey	Increase	Decrease
	Acres	Acres	Acres	Acres
Occupied area ...	113,239	127,653	+14,414	.....
Unoccupied area ...	35,130	23,283	.....	—11,847

A satisfactory advance in cultivation is evident from the table, and what is more important, the advance has, on the whole, been steady and progressive for nearly twenty years past if small variations in a year here and there be not noticed.

31. In this connection, I beg to bring it to the notice of Government that the collection of statistics required to trace out the revenue history of a particular tract is becoming a matter of great difficulty. In some cases the accounts themselves are said to be not forthcoming in the taluk records, having been either destroyed or mislaid, and in others, great confusion appears to exist owing to the transfer of villages from one taluk to another at the time of the reconstitution of boundaries. The tract brought under revision settlement generally consists of the major portion of one taluk with portions of one, two or more adjoining taluks, and the statistics, therefore, have to be obtained from the Amildars of all the taluks concerned in respect of the villages situated in their respective taluks, which are proposed to be resettled. If one of them fails to send in the accounts, or if accounts are not available even for one single village, the compilation of statistics for the whole tract will necessarily have to be given up, as it will not be of any use for purposes of comparison. For instance, the Amildar of Tumkur, who was called upon on the 22nd January 1908 to furnish the

Land Survey. dated 29th January 1910.

accounts of the 287 villages in his taluk, to be brought under revision settlement, finally reported on the 20th August 1908 that the accounts for 17 years from 1871-72 to 1887-88, both inclusive, were not traceable in the taluk records and that their whereabouts could not be ascertained Similarly, the Amildar of Gubbi, who was also directed on the 22nd January 1908, to submit the accounts of 79 villages, in his taluk, after a good deal of correspondence finally sent up the accounts on 17th May 1909, but reported that he had no means of verifying the same, as the necessary material required therefor could not be had in the records. The Deputy Amildar of Konatagere has sent up accounts for only seventeen years from 1891-1892 and reported that accounts for previous years are not forthcoming in the records The last reference made to him on the subject on 6th August 1908, directing a further and thorough search in the records, still remains unanswered Moreover, to obtain these incomplete statistics, several reminders had to be issued to the Amildars and the matter of delay had to be brought to the notice of the Deputy Commissioner, who was kind enough to issue stringent orders directing the immediate submission of the accounts called for I am aware that in giving these details, I am dilating upon the point, but I cannot help doing so as the want of promptness in complying with requisitions for statistics retards the progress of settlement work Further, the existing state of affairs indicates that there is a growing tendency to underrate the importance of the old *village war goshwaras* of cultivation and collection, and I think it necessary to impress it upon the minds of Amildars that these, as well as "Nilakh Pattis" or price lists deserve their special attention and ought to be properly collated and preserved for purposes of reference, as otherwise the revenue history of the tracts or villages will be lost for ever.

32 *Grouping and maximum rates* —In the foregoing paragraphs, I have set forth a comparative view of the essential circumstances of the tract, past and present, which I have tried to make as full as possible out of available material I will now proceed to explain my proposals regarding the future assessment, and as preliminary thereto, I shall deal with the grouping of villages and the maximum rates As explained in previous revision settlement reports, grouping of villages for purposes of assessment depends upon considerations, chief of which are prices, climate, rainfall, population, communications and convenience of situation for trade The old grouping has proceeded upon exactly the same considerations and unless the present circumstances have undergone such significant changes as to necessitate a re arrangement, it is inadvisable to disturb the old grouping, which must be adhered to as far as possible. In the case of the tract under consideration, it is a happy coincidence that the improvements made in the means of communication, even the opening of the railway line, do not call for any change in the old grouping Moreover, any material change in the old grouping leads to abnormal increase or decrease of assessment I therefore propose to retain the same grouping and distribute the villages as follows —

Group I —19 villages near the town of Tumkur favourably situated with regard to climate and communications enjoying superior facility for the disposal of their produce I propose a maximum dry crop rate of Rs 2-12-0 against Rs 2 2-0 of the original settlement, and a reduced wet maximum of Rs 9 against Rs 10 fixed at the original settlement

Group II —52 villages having good facilities of communication, but which, being somewhat removed from the taluk head quarters, are next in importance to the villages placed in Group I The maximum dry rate is proposed to be raised from Rs 2 to Rs 2 10 0 and the maximum wet rate reduced from Rs 10 to Rs 9

Group III —179 villages, which occupy a middle position so far as the advantages enjoyed are concerned The maximum dry rate is proposed to be raised from Rs 1-14 0 to Rs 2 8 0 and the maximum wet rate reduced from Rs 10 to Rs 9

Group IV —81 villages situated in the more outlying parts of the Kora, Bellavi and Chelur magnies where the climate is not as good as in the other villages The maximum dry rate is proposed to be raised from Rs 1 12 0 to Rs 2 4 0 and the maximum wet rate reduced from Rs 9 to Rs 8

NOTE —The new village formed out of the Munnemur Amrut Mahal Kavil comes under this group

Group V —36 villages, mostly of the Chelur magni and situated in the extreme north and north-west of the taluk where the climate is bad and people are poorer For these I propose a maximum dry rate of Rs 2 against Rs 1 8-0 and a reduced maximum wet rate of Rs 8 against Rs 9 of the original settlement

33 *Maximum wet rate* —This part of the subject being the most delicate and difficult, I have had to bestow upon it very careful and anxious consideration, in fact, the greatest portion of the time devoted for formulating the present proposals was taken away by it The conclusion that I have arrived at is, as indicated in the foregoing paragraph, that the wet maxima of Rs 10 and Rs 9 adopted at the original settlement, have now to be reduced to Rs 9 and Rs 8, respectively, to suit altered circumstances The tanks of the taluk generally are liable to be silted up much faster than in taluks where the physical characteristics are different, and as a matter of fact, they have silted up and in consequence have become shallow

and unable to afford the supply which was obtainable at one time. This drawback appears to have been accentuated by the somewhat indiscriminate grant of Nirsardi to fresh lands during the currency of the original settlement. Wet cultivation in this part of the country has not become intensive, as the raiyats have from time immemorial been devoting more attention to dry cultivation, which is less costly and more remunerative. At one time, wet cultivation was considered only as supplementing the ordinary profits of dry cultivation in seasons of good rainfall. This is natural in a tract where facilities for water are less favourable and where wet cultivation has to depend directly or indirectly upon ample rainfall. The tract, moreover, cannot boast of heavy rainfall and many a time the rainfall is not seasonal. All these circumstances have naturally induced me to propose the reduction of the maximum rates above alluded to, and I hope that Government will not hesitate to forego a portion of their revenue from wet lands for the benefit of the cultivator who stands in need of relief and will much appreciate it when granted.

34. *Maximum garden rate.*—I shall adopt a nominal maximum of Rs. 12 per acre, which will be very rarely reached, in place of the old maximum of Rs. 16. The assessment on well gardens will be revised under the liberal rules laid down by Government in their Order of the 24th January 1902. Thus, extreme rates will now totally disappear and the garden owners will have considerable relief, which they are sure to highly appreciate. Revised on these lines, the assessment on the various kinds of gardens will be as shown below :—

Description	As per original settlement			As per revision settlement			Difference in average
	Acres	Assessment	Average per acre	Acres	Assessment	Average per acre	
		Rs.	Rs. a. p.		Rs.	Rs. a. p.	Rs. a. p.
I. Tank gardens	2,209	20,255	9 2 9	2,259	17,268	7 10 4	—1 8 5
II Gardens receiving indirect benefit from tanks, streams, etc.	...	...	.....	968	3,504		
III. Gardens under self-dependent wells.	...	...	.. ...	613	1,676	2 14 10	—1 7 11
IV. Gardens as in III but wells failed.	2,651	11,722	4 6 9	487	874		
V. Old dry cocoanut gardens ...	...	...	. ....	92	91		
VI. New gardens under wells sunk since original settlement.	...	...	.....	293	434	1 6 6	...
VII. New dry cocoanut gardens ..	...	...	.....	62	66		
Total ...	4,860	31,977	6 9 3	4,714	23,913	5 1 2	—1 8 1

There has been a small decrease of 146 acres in the total extent of garden lands and the rates now proposed give us a total assessment of Rs. 23,913, which is Rs. 8,064 or more than 25 per cent less than what it was according to the original settlement. The average rate on gardens of class I has come down from Rs. 9-2-9 to Rs. 7-10-4, and that on gardens of classes II, III, IV and V from Rs. 4-6-9 to Rs. 2-14-10. The new gardens opened out since the original settlement have been assessed at either the maximum or ordinary dry crop rates according to their position, at an average of Rs. 1-6-6 per acre. Taking the entire extent classed as garden, the average rate is Rs. 5-1-2 per acre against Rs. 6-9-3 or in other words, shows a decrease of Rs. 1-8-1 per acre.

35. *Dry rates.*—I do not think it is necessary for me to discuss the suitability of the proposed dry rates, as the increase of about 29 per cent is fully justified by a general rise of prices of food grains, the increase in the value of lands, improved communications and the advancement in the material prosperity of the tract. As will be observed further on, the increase in the average dry rate on occupied lands is only 3 annas and 4 pies per acre, which is very moderate.

36. *Effects of revision.*—The following table shows the effect of the proposed settlement on all descriptions of Goverment occupied lands :—

Description	By former settlement as per collections of 1906-07			By proposed revision settlement			Increase or decrease
	Area	Assessment	Average rate per acre	Area	Assessment	Average rate per acre	
	Acres	Rs.	Rs. a. p.	Acres	Rs.	Rs. a p.	Rs. a p.
Dry	113,773	74,722	0 10 6	111,433	96,469	0 13 10	+0 3 4
Wet	11,106	55,256	4 15 7	11,818	49,626	4 3 1	—0 12 6
Garden	4,292	29,234	6 13 0	4,402	22,796	5 2 1	—1 10 11
Total ...	129,171	1,59,212	1 3 9	127,653	168,791	1 5 2	+0 1 5

Land Survey, dated 29th January 1910.

Against the small increase of Re. 0-3-4 per acre in the average rate on dry lands, we have the striking decrease of Re. 0-12-6 and Rs. 1-10-11 in the average rates on the wet and garden lands, respectively, which gives substantial relief where relief is actually needed Taking the entire extent, the average rate shows an increase of only one anna and five pies per acre. A mere comparison of the average rates is, I think, sufficient in the present case for convincing any one that the rates proposed are extremely moderate and that a more lenient settlement cannot be conceived.

37. *Effect of proposed settlement on groups.*—How the various groups are affected by the proposed settlement will appear from the following statement. This statement refers to occupied lands only.

Group	Description of land	Old			New			Increase or decrease		
		Acres	Assessment	Average rate per acre	Acres	Assessment	Average rate per acre			
			Rs	Rs a p		Rs	Re a p.	Rs	a	p
I	Dry	4,994	4,215	0 13 6	4,822	5,260	1 1 6	+0	4	0

	Garden	597	4,824	8 1 3	643	3,531	5 7 10	−2	9	5
	Total	28,785	25,202	0 14 0	28,489	28,220	0 15 10	+0	1	10
V	Dry	9,433	4,808	0 8 2	9,162	6 254	0 10 11	+0	2	9
	Wet	200	677	3 6 2	192	542	2 13 2	−0	9	0
	Garden	130	750	5 12 4	161	483	3 0 0	−2	12	4
	Total	9,763	6,235	0 10 3	9,515	7 279	0 12 3	+0	2	0
Grand Total	Dry	1,13,773	74 722	0 10 6	1,11,433	96 469	0 13 10	+0	3	4
	Wet	11,106	55,256	4 15 7	11 818	49,526	4 3 1	−0	12	6
	Garden	4,292	29,234	6 13 0	4,402	22 796	5 2 1	−1	10	11
	Total	1 29,171	1 59,212	1 3 9	1 27,653	1,68,791	1 5 2	+0	1	5

38. Taking the various descriptions of land in detail, the average rate of dry land shows an increase of 3 annas and 4 pies per acre, obtained by an increase of 4 annas in Group I, of 3 annas and 10 pies in Group II, 3 annas and 6 pies in Group III, 2 annas and 10 pies in Group IV and 2 annas and 9 pies in Group V The incidence of this moderate increase in the dry rate will not fall heavily on owners of dry lands. The average wet rate shows an appreciable decrease of 12 annas and 6 pies per acre, obtained by a decrease of 14 annas and 4 pies in Group I, 14 annas and 10 pies in Group II, 10 annas and 1 pie in Group III, 7 annas and 2 pies in Group IV and 9 annas and 1 pie in Group V. This decrease of 12 annas and 6 pies is due to the reduction of Re 1-0-0 in the wet maxima, as already stated and also to re-adjustment due to careful reclassification of water-supply as at present enjoyed by the wet lands, whether improved or deteriorated during the currency of the original settlement. I am sure these reduced rates will be welcomed by the raiyats. The garden rate for the whole tract shows a striking decrease of Rs. 1-10-11 per acre. How this has been obtained has been dealt with in para 34 of this report. The net result on occupied land is a small increase of only one anna and five pies per acre.

39. The general effect of the proposed settlement showing the percentage of increase or decrease by groups will be seen from the following statement:—

Group	Number of villages	By former survey as per collections of 1906-07		By revision survey				Total		Percentage of increase or decrease on occupied land
		Government occupied land		Government occupied land		Unoccupied Government assessed arable land				
		Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment	
			Rs.		Rs.		Rs.		Rs.	
I	19	8,488	25,645	8,401	23,359	555	1,833	8,956	25,192	—9
II	52	22,207	37,965	22,001	36,810	2,113	4,072	24,114	42,882	+2
III	179	59,928	64,165	59,247	71,123	6,290	4,950	65,537	76,073	+11

V	36	9,763	6,235	9,515	7,279	5,800	2,943	15,315	10,222	+17
Total	367	129,171	1,59,212	127,653	1,68,791	23,283	19,331	150,936	1,88,122	+6

There has been a decrease of 9 per cent in Group I, and an increase of 2 per cent in Group II, 11 per cent in Group III, 12 per cent in Group IV, and 17 per cent in Group V. Group I, which contains a proportionately larger extent of rice and garden lands, shows a decrease of 9 per cent in the total revenue, whereas the other four groups show an increase, which, it will be observed, is in proportion to the ratio of dry to wet and garden lands. On the whole, there has been an increase of Rs. 9,632 or 6 per cent over the collections of 1906-07, which was the year of the highest revenue collections during the period of thirty-six years since the introduction of the original settlement.

40. The extent of Government assessed waste land, available for cultivation in this tract, is shown in the following statement:—

Group	Dry crop			Wet			Garden			Total

41. I have now finished the explanation of my proposals for the revision of assessment in the tract under consideration, which, as has been already observed, result in an increase of Rs. 9,632 or 6 per cent over the collections of 1906-07, the highest revenue year, exclusive of the miscellaneous revenue amounting to Rs. 2,688. The bulk of this miscellaneous revenue is said to have been levied as Neersardi or water rate on dry lands, converted into wet, which have not as yet been brought on to Akarband and will not be a recurring item of revenue, when the revision settlement is introduced into the taluk, as the lands paying water-rate have been booked as wet or garden at the reclassification. If, however, the miscellaneous revenue is taken into account, the small increase will further diminish and will amount to only Rs. 6,944 or 4 per cent. Considering the improvements that have been made in several directions during the past thirty-six years and the signs of progressive material prosperity observable, the very moderate increase of assessment now proposed may be open to the charge of being lenient; but in fixing the revision assessment, which will have a currency of thirty years or affect a generation, it is necessary to have some consideration of possibilities in the future as well as the actual circumstances that we see at present. It will at once be observed that the decrease in the assessment on wet and garden lands, which is Rs. 5,719 or 10 per cent and Rs. 6,438 or 22 per cent, respectively, is to a great extent responsible for the small increase. The garden lands have been assessed under rules laid down by Government, the working of which has resulted in the decrease above mentioned. With regard to the wet lands I have in para 33 given, at sufficient length, the reasons for decreasing the maximum wet rates. The frequent recurrence of years of unseasonable and deficient rainfall affects the water-supply to tanks to a certain extent, which is not so ample as it was at the original settlement. The experience gained during the past years and the circumstances prevailing at present indicate the necessity of giving relief to holders of wet lands. In my proposals, I have attempted

Land Survey, dated 29th January 1910.

to balance the settlement equally between the raiyats and the Government revenue, which will not only bring relief where relief is actually needed but also tend to promote the extension of cultivation. I am of opinion that the increase now provided for cannot safely be exceeded. The rates proposed will not sit upon the raiyats heavily, and with the increase in the price of food-grains amounting to 40 per cent, the revised assessment, which amounts actually to a net increase of only 4 per cent, will in no way cause any dislocation in the calculation of the raiyat nor will it heavily engross his profits.

42. *Limits of increases.*—There are two villages shown in the margin which have exceeded the villagewar limit of 66 per cent. The increase in these cases is not due to higher rates but only to extension of dry cultivation. Any increase over the allowed percentage on individual holdings will be duly enquired into and adjusted when the settlement papers are ready.

Gunigolhalli.
Malamachikunte

43. *Cesses.*—Local Fund and Irrigation Cess will be a separate levy as may be provided for by law. Being proportionate amounts, no estimate is called for.

44. In addition to the appendices submitted, a map of the tract on the scale of two miles to an inch, showing the grouping of villages, is attached.

45. In conclusion, it only remains for me to solicit the sanction of Government to the rates now proposed. The settlement will take effect in the year following that in which it will be announced.

APPENDIX A

Revenue statement for the 367 villages of the Tumkur Taluk of the Tumkur District from 1871-72 to 1906-07.

Proceedings of the Government of His Highness the Maharaja of Mysore,

II. Letter No. 27, dated Bangalore 9th October 1909, from the Superintendent of Mysore Revenue Survey and Settlement, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to para 2 of my letter No. 20, dated the 20th September 1909, regarding the revision settlement of the Tumkur Taluk, I have the honor to forward herewith copy of letter No. 547, dated the 28th idem from the Deputy Commissioner of the Tumkur District, expressing his opinion on the proposals made by me for the revision settlement of the said taluk; together with copy of my letter No. 239, dated 9th October 1909, to the Revenue Commissioner on the subject. If the Revenue Commissioner favours me with his opinion, I shall submit the same to Government with such remarks as may be found necessary.

(ENCLOSURE). 1

Letter No. 239, dated Bangalore, 9th October 1909, from the Superintendent of Mysore Revenue Survey and Settlement, to the Revenue Commissioner in Mysore.

In continuation of my letter No. 204, dated 21st September 1909, I have the honor to forward herewith copy of letter No. 547, dated the 28th idem from the Deputy Commissioner of the Tumkur District, expressing his opinion on my proposals for the revision settlement of the Tumkur Taluk. While fully concurring in the proposals made for the revision settlement, the Deputy Commissioner suggests a further reduction in the rates of wet assessment, and this, he thinks, is warranted by the same considerations which prompted me to propose a reduction of the old maximum by one rupee. As I have already stated in para 33 of my report No. 12, dated 12th August 1909, the question of wet assessment has been considered by me in all its respects and I am of opinion that the reduction of the old wet maximum of Rs. 10 and 9 to Rs. 9 and 8 is sufficient to afford the necessary relief. More than this is, in my opinion, not called for.

2. I do not consider it sound in policy to lighten the assessment where the atchkat of a tank is in excess of its capacity for irrigation. The proper course in such cases would be to reduce the atchkat itself and adjust it to the capacity of the tank. The reclassing operations have the effect of bringing about such an adjustment as far as it is possible to be done by the Survey Department. If, however, there are cases of the kind which in the opinion of the Deputy Commissioner require to be specially dealt with, the atchkat with reference to the irrigating capacity of the tank might be determined by a competent officer of the Public Works Department, in consultation with a Revenue officer, and the necessary action taken with a view to the atchkat being curtailed accordingly.

3. The collection of the year 1906-07 as well as the collections for other years given in Appendix A of my report on the revision settlement of taluk, do not, I think, include the arrears of previous years. The headings of the statement show that only the acreage and assessment of lands are given. The increase in the revenue collection for the year 1906-07 corresponds with the increase in the area under cultivation and does not apparently include the previous year's arrears. The miscellaneous revenue shown in column 12 of the Appendix is chiefly made up of water-rate levied on lands which are supplied with water, but which are separately shown in the accounts. There is one small point which may require an explanation from me. The increase in the assessment on occupied lands according to the figures given in the several statements both in the body of my report and in the appendices is (Rs. 1,68,791 minus 1,59,212=9,579) but in paras 39 and 40 of the report, the increase has been stated to be Rs. 9,632. The small difference of Rs. 53 is due to the elimination of fractions in the former case for each village. If all the fractional parts of the rupee are taken into account, the increase by revision comes to Rs. 9,632.

4. Regarding lands which have been indiscriminately assessed with water-rate, I am inclined to adopt the suggestion of the Deputy Commissioner, *viz.*, to reconvert them into dry, if the owners consent to it. This can be easily done at the time of the revision settlement, if the Amildar prepares a statement of such lands, after obtaining the consent of the holders thereof, and places it before the Settlement Officer.

5. It must be said to the credit of Mr. Dorasami Iyer, Deputy Commissioner, that he has been exercising great care in recommending the grant of Nirsardi to lands; in fact, for some time past, very few applications were received from the Tumkur District for the imposition of permanent water-rate. If all the Deputy Commissioners were to adopt the same course, the indirect expansion of the atchkat of tanks will be practically stopped to the advantage of the existing and garden lands dependent thereon.

6. With the foregoing remarks, I request that your opinion on the proposals for the revision settlement of the taluk in question may be kindly expressed as early as possible, so that the sanction of Government to the proposed rates may be obtained in time to prepare the preliminary records and announce the rates in the taluk in January next.

Land Survey, dated 29th January 1910.

ENCLOSURE (2).

Letter No. 547, dated 28th September 1909, from the Deputy Commissioner, Tumkur District, to the Superintendent, Revenue Survey in Mysore.

I have the honor to acknowledge your letter No. 205, dated the 21st September 1909, with enclosures, regarding the proposed revision of the assessment of the Tumkur Taluk, and to state in reply that I have carefully considered the proposals and do not find much to suggest. The reasons for increasing or reducing assessments appear to have been fully thought out from all stand-points, but I would suggest a further reduction in the rates of wet assessment. The reasons given in your letter to Government for the proposed reduction of one rupee would, to my thinking, support even a further reduction. As observed in your letter the tanks have silted up a good deal and their capacity in relation to the atchkat is considerably reduced, and further the rainfall is becoming more precarious. These two reasons would, to my thinking, warrant a reduction in the rates of wet assessment from one to two rupees in the maximum rate.

2. I would also recommend that the atchkat of a tank which is found to be in excess of its irrigating capacity be taken into special consideration for the purpose of lightening the assessment.

3. Referring to para 39 of your report, I beg to point out that the comparison of the revised rates of assessment with the revenue collections of the year 1906-07 is somewhat misleading, as the collections of that year included a large amount of dry assessment of the previous year, the collection of which had been postponed on account of the severe drought that prevailed during that year 1905-06. A comparison of the results of the revised rates of assessment with the average collection of the past five or ten years would, I think, furnish a safer basis.

4. In regard to the indiscrimmate grant of "Nirsardi," I would suggest that such lands be reconverted into dry, the owners consenting. I may state here that some time ago I stopped this indiscriminate and illegitimate way of adding to a tank's atchkat and have insisted upon such recommendations being generally discountenanced. Where the recommendation deserves consideration it is frequently sufficient to grant water and impose Nirsardi for the year only, leaving it open to the owners to apply for it again the next year and leaving it open to us to grant it or not according to the supply in the tank.

5. I note with regret, but with no surprise, whatever the culpable dilatoriness displayed by the Amildars of Tumkur and Gubbi and the Deputy Amildar of Koratagere and will adopt suitable action in regard to them.

III. Letter No. C. 25, dated Camp Mysore, 3rd November 1909, from Rajakaryapravina A. Rangaswami Iyengar, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to the letter No. 12, dated the 2nd August 1909, of the Superintendent of the Mysore Revenue Survey and Settlement, submitting his proposals for the revision settlement of the Tumkur Taluk, I have the honor to submit my views as below.

2. I have read the papers relating to the report on the original settlement, as well as the present report of Mr. Shama Rao. The latter deals with the subject exhaustively and contains full details on the various points necessary for forming a judgment of the revision settlement. It is therefore unnecessary to review the report in detail, and I shall only refer briefly to some of the points on which I have remarks to offer.

3. *Rainfall and irrigation sources.*—It is noteworthy that Colonel Grant in his original report observed that the rainfall averaged about 34 inches, though somewhat less in the north and north-west of the taluk, and that the general appearance of the country and the flourishing state of crops denoted an ample supply of water. He further observed that the tanks were very numerous, some of them being very important, but that the most reliable and certain supply of water was to be found in the wells which were exceedingly numerous, the water being very near to the surface. This was also emphasized by Col. Anderson, who remarked that water being near the surface afforded great incentive to sinking wells and using them for irrigation.

In the present report, Mr. Shama Rao has gone more deeply into the question of the sources of water-supply and observes that most of the tanks are in good repair and reliable, but that one of the two feeders of the Maidal tank has been in bad repairs for a long time. It is not clear what effect this will have on the flow of water to the tank, nor is it explained how the water-supply stands as compared with what it was at the original settlement, and

whether it is sufficient for the existing wet and garden cultivation. Mr. Shama Rao has laid much stress on a point which requires prominent notice in this connection, *viz.*, "the common fault in most of the tanks tending to rapid silting up of tanks in consequence of the peculiar configuration of the country. This feature is not referred to in the reports on original settlement, nor have I seen it mentioned anywhere as a special feature of this part of the country alone. It deserves, however, further investigation by the Public Works Department.

As regards wells and "talapariges" it is not stated whether they are in good condition or not. As far as my observations go, and from what has often been represented to me, the water-supply in the tanks is complained of as generally insufficient and uncertain, the many 'talapariges' have failed, and a good number of wells have seriously deteriorated, causing the decay of areca gardens, so much so that only paddy is grown on some lands classed as gardens.

As already suggested in one of my reports, it would be very useful for purposes of reference, if full particulars are given of tanks and wells as regards their capacity and water-supply instead of merely observing in what condition of repair they are.

4. *Population.*—In the present report, the comparison of the population of the area at different periods has been based on the Census figures alone, whereas, in the original settlement report, the figures collected by the classifiers alone are referred to. It would have been better, if the figures collected by the classifiers at the present revision settlement had also been given for purposes of comparison.

As observed by Mr. Shama Rao, the mean density of the taluk *viz.*, 216 per square mile is really high, in spite of the apparent decrease of population in 1901, as compared with that of 1871, according to the Census. This high density is probably accounted for by the fact that the extent of forest and unculturable area in the taluk is comparatively smaller, for when the forest and unculturable area are excluded from calculation the mean density of the taluk is found to be less than that of the Eastern Census Division as shown below:—

Total extent of the Eastern Census Division, excluding forest and area not fit for cultivation, or in other words the total culturable area is	9,723 square miles.
Population of the Eastern Census Division is	3,986,393
Mean density	410 per square mile
Culturable area of the taluk is	272 square miles
Population (as per Census of 1901)	85,610
Mean density	314·7 per square mile

(*N.B.*—The figures are taken from the Season and Crop Report of 1907-08.)

5. *Houses and agricultural stock.*—The figures given under this head show an increase of 44·73 per cent in the number of tiled houses, 14·40 per cent in that of mud houses, 30·61 per cent in horned cattle, 69·00 per cent in the number of carts, and 24·00 per cent in that of ploughs. It may be stated that the increase in the number of houses and carts is a common feature all over the country due to general improvement in civilization and cannot by themselves be taken as an indication of increased prosperity; and as a rule, the bullocks used for both carts and ploughs generally average about a third of the total number of horned cattle, and taking this relative proportion, there must be just enough required for the number of ploughs. Thus it does not seem that the agriculturists have any valuable cattle to spare.

6. *Prices.*—There has certainly been a very fair rise in prices in the Tumkur District as everywhere else in the State. Such increase is productive of greater profit to the raiyats in the interior than to those who have been near district head-quarters and large markets. Though high prices have been admitted as a good ground for raising the settlement rates, the question would seem to be still unsettled as to how and by what standards, profits to agriculturists have to be measured, what allowances should be made for the gradual decrease in the outturn per acre and increased cost of cultivation due to higher wages and higher prices of manure, etc., as well as the indirect cost entailed upon the raiyat population by the rigorous administration of the Forest Department, such as the grazing fees paid to the Forest Department, price of timber required for agricultural implements, etc.

7. *Past and present areas.*—In the reclassification, there is a reduction of 150 acres under garden in consequence of the failure of wells. It is not clear whether any and if so how lands originally classed as garden under tanks, but since brought under wet cultivation owing to complete or partial failure of supply in the tanks, have been dealt with.

8. *Revenue history.*—An examination of the revenue history shows that while there has been a steady increase in the extent under dry, excepting in the year 1899-00 when there was a decrease of 1,500 acres, fluctuations in the extent of wet cultivation have been

Land Survey, dated 29th January 1910.

more frequent, the differences in some cases amounting to 500 to 1,000 acres (in one year 1901-02 the increase amounting to 1,600 acres, immediately followed by a decrease of 600 acres). This confirms the general report that water-supply under the tanks is found so uncertain that large extents are generally taken up on annual or 'Eksal' leases according to the available quantity of water-supply in the tanks. If the extent of wet lands on which 'Vysakhi' crop is annually raised could be separately shown in the accounts, we should be able to judge of this question better.

There is no large decrease in the area under garden, though it is a well-known fact that the gardens have generally deteriorated and that within the last two or three years, the decay has been greater than before. This may be due to the fact that the original classification has not been modified in the case of garden lands which have since been converted into wet lands and cultivated with paddy.

Although the revenue history shows an expansion in the area under cultivation, with a corresponding increase in land revenue since the original settlement, still, this increase cannot alone be considered to indicate greater general prosperity. For, unless the average crop outturn is maintained unimpaired, an increase in area under cultivation does not necessarily add to the profits of cultivation and raiyats are often obliged to cultivate a larger area in order to make up for diminished productivity of the soil. It will be clearer from a comparison of the crop outturn in the taluk for the last three years, taken from the Crop and Season Reports, which show that in none of those years was the outturn of paddy or ragi even 12 annas, and that the average for the three years was only 6 3 annas for paddy and 5 5 annas for ragi —

Crop	Year	Area under crop (acres)	Standard out turn in Khandies	Estimated in Khandi	Actual out turn in annas
Paddy	1905-06	8 941	35 764	11,130	5 0
	1906-07	10,248	40 992	20,696	10 0
	1907-08	8 462	33 848	8 628	4 0
Ragi	1905-06	98 688	98 688	27 513	1 7
	1906-07	99 241	99 241	15 181	7 2
	1907-08	98 541	98 541	29 047	4 7
Horse gram	1905-06	8 934	1 467	947	3 4
	1906-07	9,148	4,574	2 687	7 3
	1907-08	8 649	4 324	790	2 9
			Maunds	Maunds	
Sugar cane	1905-06	418	1 25,400	62,077	7 9
	1906-07	622	1 86,600	1 38 500	11 8
	1907-08	512	1 62 600	75 300	7 1

9 *Grouping*.—In the old grouping, the existence of big tanks appears to have been taken into consideration in the case of some of the villages in addition to their proximity to roads and important centres of trade, and it may now be urged that, unless cultivation under such tanks is considered prosperous, there would be no longer the same reason for keeping the villages near them in the higher class.

10 *Value of land*.—The increase in the value of land would be a sure index of the profitableness of agriculture, if the cultivators had a free choice of occupation and had taken to cultivation of lands, after proving that it was comparatively more profitable. But in an agricultural country like Mysore where the majority of raiyats have no other source of livelihood but lands, the increase in the value of lands is in greater part due to gradual increase of population and consequent competition, inasmuch as even merchants and other classes of people favor investments in lands. Furthermore, in judging the profits of cultivation, the cost of living and of cultivation, which have considerably risen, have also to be taken into account. It is also necessary to have information as to the encumbrances on land and indebtedness of raiyats in other ways, to gauge the general prosperity of a tract.

I merely refer to these points, as the prices alone cannot be considered sufficient, but various other conditions such as the above have also an important bearing on the agricultural prosperity of a tract. All these must have come in for consideration, in one form or another, of the Survey Officers who have had ample opportunities for careful personal observation and study of the local conditions, and it would be an advantage, if all of them are referred to in some detail in the reports of Revision Settlement, or are discussed personally with the District Officers or Head of the Revenue Department, by the Survey Officers.

In this connection, I would suggest a slight departure in the procedure for the submission of proposals for revision of assessment in the future.

Hitherto, the practice has been for the Survey Officers to send their formal report formulating the proposals regarding the revision of rates for the different classes of land and then invite the opinions of Deputy and Revenue Commissioners. In such course, the Revenue authorities have practically to depend on the materials contained in the report and their own personal observations. They have not the advantage of a personal discussion with the Survey Officers or of reference at first hand to the detailed information collected by them. Their opinions therefore consist merely of a few general observations which do not materially aid in the final settlement. It would be better if the Survey Officers would arrange for a conference with the Deputy Commissioner, the Revenue Commissioner, or the Head of Government as to the lines on which the revision should proceed and the maximum rates which should be adopted in the Revision Settlement. Such a course would obviate unnecessary correspondence and lead to more satisfactory results both for the raiyats and the Government. The importance of this suggestion will receive additional force, when it is considered that formerly the Survey Department was controlled by Survey Commissioners, one of whom was also at the top of the same Department in the Bombay Presidency and another was connected with the Department from its very inception in Mysore, and that hereafter our Survey Officers, in the near future, cannot be expected to command the same profound knowledge or experience of this highly technical Department.

11. Rates.—In discussing rates, I would first refer to some circumstances in connection with the original settlement. The cotton crisis of 1865-66 had inflated the prices of food grains and given an extraordinary stimulus to cultivation of lands, and the year 1869, which happened to be the year previous to the settlement, was one of unprecedented prosperity to the Tumkur Taluk as the figures show. In the settlement which was then adopted, not only was the exceptional revenue of 1869 maintained in tact, but a further sum of Rs. 13,070 or 10·4 per cent, exclusive of the local cess, was also added to it. If we add to this the amount collected as plough tax and included in the sum of Rs. 5,406 credited under miscellaneous (see para 29), the additional assessment would be still greater. From this must be deducted, however, the amount paid away in potgi to village officers as it relieved the raiyats to some extent from their liability to pay the miras due to such officers. A comparison of the total assessment adopted at the original settlement with the average collections of the different periods, makes the point clearer. Thus the assessment adopted at the settlement (exclusive of local cess) was Rs. 1,38,000, which is—

20 per cent more than	the previous five years' average, *viz.*,	Rs. 1,14,996;
26	do	ten years' average, *viz.*, Rs. 1,09,444; and
41	do	twenty years' average, *viz.*, Rs. 97,879.

The average rates for dry and garden lands increased from Re. 0-8-7 and Rs. 4-2-4 to Re. 0-10-1 and Rs. 9-2-0, raising the total revenue under these heads by 17·5 per cent and 69·6 per cent respectively. The maximum rate for gardens was pitched as high as Rs. 16 probably on the analogy of the malnad gardens.

As regards wet lands, the maximum rates under the old system varied from Rs. 4 to Rs. 6 [*vide* para 14 of Col. (then Capt.) Grant's report, page 21 of the selection of papers Vol. 9]. These rates were raised to Rs. 9 and 10 at the original settlement. There was however, a decrease in the total wet revenue from Rs. 43,973 to Rs. 40,000, reducing the average wet rate from Rs. 4-2-4 to Rs. 3-13-8. *Vide* the comparative statement at para 29 of Col. (then Capt.) Grant's report, page 26. The maximum rates having been raised and there being no great change in the area of wet lands, it is not clear how a decrease could occur in the total revenue or the average, except it be that in the classification of lands the inferior descriptions had been assessed to much lower rates than they were paying before.

Contrasting the very favorable ideas entertained of the irrigational resources of the taluk at the original settlement and their present condition as gathered from the present report of Mr. Shama Rao, it has to be considered whether more favorable rates are not now called for in the case of wet and garden lands.

The reasons given in the report contain ample justification for reducing the maximum wet rates to Rs. 9 and Rs. 8. Mr. Shama Rao, at para 36, calculates the average rate of revised settlement at Rs. 4-3-1, being a reduction of annas 12 and pies 6 on the average of the year 1906-07. But if the average assumed at the original settlement, *viz.*, Rs. 3-13-8 [see para 29 of Col. (then Capt.) Grant's report] be correct, the advantage would seem to be with the former settlement.

Land Survey, dated 29th January 1910.

A critical examination of the extent of wet lands, the maximum wet rates and the actual assessment thereon disclose some apparent anomaly which requires some explanation. According to the original settlement report, *vide* para 29, the extent under rice, during the year previous to settlement, was shown as 10,374 acres paying an assessment of Rs 43,973 (without including 'Nirsardi' shown under miscellaneous collections), which was expected to be reduced to about Rs 40,000 by the settlement. There is no means of verifying the actual average from 1871 to 1891, as details are not available, *vide* page 16 of Mr. Shama Rao's report. But the figures for subsequent years show that the average rates ruled at about Rs. 5 per acre For instance, the figures for 1891-92, 1905-06 and 1906-07 work out at Rs. 4·95, 5·05 and 5 respectively (as regards the last figure there is a slight discrepancy as to total collection for rice between figures at para 36 and the statement at page 14 *supra*). One would expect the average to go down as fresh lands are taken up but on the other hand it has, if anything, been slightly on the increase. The explanation may probably be that in late years, lands which had been neglected owing to stiff rates, have since been taken up. The large extent of unoccupied wet lands under groups I and II with average assessment of Rs. 4-5-10 and 4-14-1, *vide* para 40, lends strength to this view. Be this as it may, the average of Rs. 4-3-1 assumed by Mr. Shama Rao, compares with averages of some other taluks as follows —

			Ordinary				*Under channel*		
			Rs	a	p.		Rs.	a.	p.
Nanjangud		..	4	0	8	...	5	3	9
T.-Narsipur ...	...	...	3	7	8	...	6	8	9
Chamrajnagar			3	10	8	...	5	2	6
Sira (revised)	.		3	7	5	...	....	.	
Kunigal	...	...	4	0	0	...	..	...	
Honnavalli	.	..	4	5	3	.	.	...	

I think that a comparison of these rates, bearing in mind the relative advantages of water-supply, etc , would bear out my view that the wet average rate is still high. It would be satisfactory if the average rate can be brought nearer to Rs. 4

As regards garden, the proposed maximum rate of Rs. 12 cannot, I fear, be fairly defended The maximum rate fixed for the semi-malnad taluks of Shikarpur and Channagiri at the revision settlement did not exceed Rs. 10, which was also the rate sanctioned for the Bangalore Taluk Excepting the malnad taluks of Sagar and Sorab, the maximum rates fixed for the other resettled taluks ranged from only Rs. 8 to Rs 10 When it is remembered that the gardens in the Tumkur District are mostly dependent on the tanks which are admittedly unsatisfactory, that the areca trees in the maidan cannot compare with those of the malnad, either as to quality or quantity of nut produced, and that the cocoanut trees are also greatly inferior to those of Tiptur and Chiknayakanhalli gardens, the maximum rate of Rs 12 proposed would seem to be very high. It would therefore be highly desirable to make a further reduction in the rates proposed for tank gardens

12. I have no remarks to offer as regards the other portions of Mr Shama Rao's report, in which he has clearly brought out the results of the proposed settlement on the different groups, the average increase or decrease under the different descriptions of land, etc They are all well graduated and show that the classification and the rates are fairly well adjusted

13 In conclusion, I need only state that my object in referring to the foregoing facts is merely to show that the taluk was already somewhat heavily assessed as regards its wet and garden lands at the original settlement, that the expansion of cultivation under these classes, in spite of it, was due to the rise in prices and the growing competition for land, which is not necessarily a result of increased prosperity, and that the assessment on tank gardens and wet lands might as well be somewhat less than what has been proposed.

IV. Un-official Note No. 125, dated the 23rd November 1909, from the Superintendent of Revenue Survey in Mysore.

1. "I am glad to find that my proposals on the revision settlement of the Tumkur Taluk have been very critically examined by the Revenue Commissioner and that both of us agree so far that, under the existing circumstances, the rates on wet and garden lands ought to be decreased. But when we come to estimate the decrease that is called for and ought to be allowed, a difference of opinion arises between him and myself Mr. Rangaswami Iyengar considers that the assessment on tank gardens and wet lands might as well be somewhat less than what has been proposed. He has not, however, stated what, in his opinion, would

be the proper rates to be adopted in the case of these two classes of lands, besides hinting at para 11 of his letter that the average rate on wet lands might be brought nearer to Rs. 4.

2. The Revenue Commissioner has dwelt at some length upon some of the important points requiring consideration in fixing the rates, and I think it would be well to offer a few remarks on them. To begin with, he has instituted a comparison between the account of the irrigational resources of the tract given in the papers of the original settlement with the description of them given in my present report. Indeed, we find a bright account of them in the original settlement papers, and they, however, are not in the same condition now, but are slightly inferior to what they were before, for which due allowance has been made in the wet and garden rates.

Para 3 of the Rev. Comr.'s letter.

3. The silting of tank beds is surely a fault common to all tanks; but, so far as I am aware, the complaint on this score is louder in the Tumkur Taluk than in other parts of the State, as will also be observed from the Deputy Commissioner's letter. This indicates that there must be some cause in operation there, which is absent elsewhere, and in my opinion, the nature of the soil and the configuration of the tract hasten the silting process. There was no occasion to refer to this feature in the original settlement reports, as, at the time, all the tanks were found in excellent condition. When it is stated that the capacity of tanks has been somewhat affected, it follows, as a matter of course, that the condition of wells and "talpariges" is not as good as at the time of the original settlement, but they are certainly not so bad as they are represented to be. The numerous wells and "talpariges" that are now found are of immense help in irrigating the lands.

4. As regards the collection of statistics showing the capacity and water-supply of tanks, Government have directed in para 13 of their Order No. R. 2563-73—L. S. 41-08-4, dated 24th September 1909, that the Revenue Commissioner should take steps to have these statistics collected in future. About wells, all that is possible in a settlement report is to give in a few words their condition in general and to indicate the extent of their usefulness for irrigation. A detailed account regarding the capacity and water-supply of each of the numerous wells that are generally found in every taluk, cannot, obviously, be embodied in the settlement report. But exhaustive information about wells, as indicated in para 56 of the joint report, is given in the Bagayat Takhtas, and duly considered by the Settlement Officer when imposing assessments field by field.

5. *Population.*—When the more reliable Census statistics of population are available, I do not see the necessity or utility of giving the classer's figures for purposes of comparison. In another connection, Mr. Rangaswami Iyengar has doubted the accuracy of the statistics collected by the classers on account of the defective method of their registration.

Para 4 of the Rev. Comr.'s letter.

Para 14 of his letter No. 10271, dated 3rd April 1909, on the revision settlement of the Sira Taluk.

6. *Agricultural resources:* —The increase in the agricultural resources was not referred to in my report as a special feature in the Tumkur Taluk. It is necessary to know whether the tract under report also shares in the increase which is a common feature all over the country in general, and what the extent of the increase is. The raiyats may not be very rich in cattle so as to carry on a trade in them, but it is a matter of material importance that they should possess as many cattle as are wanted for agricultural purposes.

Para 5 of the Rev. Commissioner's letter.

7. *Prices.*—In enhancing the assessment on account of increase in prices, the principle invariably recognised is that the enhancement should fall far short of the rise of price on which it may be based, and this makes a liberal allowance for considerations mentioned by the Revenue Commissioner, such as profits to agriculturists, cost of labour, etc. It is not clear to me how the rise in prices is of greater benefit to the raiyats in the interior than to those near district head-quarters and large markets.

Para 6 of the Rev. Commissioner's letter.

8. Lands originally classed as garden under tanks, but since brought under wet cultivation owing to complete or partial failure of supply in the tanks have been reclassed as wet. In the tract under consideration the extent of garden lands, reclassed as wet with reference to the water-supply as at present enjoyed by them, is very nearly 700 acres comprised in about 400 survey numbers situated in 100 different villages. These lands will be assessed at wet rates according to their present water reclassification.

Para 7 of the Rev. Commissioner's letter.

9. I have already mentioned at para 33 of my report that people of the tract under consideration were accustomed to regard dry cultivation as more profitable than wet, which

Land Survey, dated 29th January 1910.

was carried on in a supplementary way in good seasons. This being the case, the area under wet cultivation will necessarily vary frequently, according to the favourableness of the season. This is one of the important features of our settlement, which enables the raiyat to either contract or expand his holding in accordance with the prospects of the season and his own resources.

What is stated in para 8 above will show that Mr. Rangaswami Iyengar is not correct in supposing that the fact of there being no large decrease in the extent of garden lands is due to non-conversion into wet of lands which were classed as garden at the original settlement but which have ceased to be such now. The reclassification rules have been framed with a view to safeguard the interest of the raiyats as well as Government, and are not worked rigidly to the prejudice of the raiyats.

10. The outturn of crops depends largely upon the chances of the season and the industry and the resources of the cultivator. In a country where agriculture is not pursued scientifically and raiyats have no ideas about improved methods calculated to bring the lands up to their highest productive capacity, the only other way of utilising the additional resources of the raiyat is to increase the extent of cultivation. I am not convinced by the figures given by Mr. Rangaswami Iyengar that the outturn has been impaired or that the fertility of the soil has become less, all other circumstances remaining the same. The outturn per acre deduced from crop experiments, is not, in my opinion, accurate enough to be a sure index of the fertility of the land as it generally happens to be very much underestimated as observed at page 19 of the Land Revenue Policy of the Government of India.

11. *Grouping.*—The argument of the Revenue Commissioner based upon the prosperity of cultivation points to a decrease in the maximum rates of wet and garden assessment and not to any alteration of grouping, which is based on several considerations as explained in my report. The grouping affects not only lands that are irrigated but also dry lands. Just as classification ascertains the relative values of the lands in a village according to the depth, texture, and color of their soils, so the grouping ascertains the relative values of the villages in a taluk on considerations of climate, markets, facilities of communication and husbandry.

Para 11 of Revenue Commissioner's letter.

12. *Value of lands.*—The fact that investment on lands is favoured indicates that the rates imposed on them are so moderate as to allow a margin of profit not only to the actual cultivator of the soil but also to the person who invests his money thereon. The increase of population and competition for lands may reasonably be expected to result more in the expansion of cultivation than in increasing the value of lands, and rendering the profit accruing therefrom less than what it would otherwise be. The encumbrances on land and indebtedness of the raiyats confirm the view that lands have risen greatly in value on account of the profits derived from them and that the raiyat is able on their security to raise more money than he could have done formerly.

Para 16 of the Rev. Commissioner's letter.

13. It is not on the consideration of prices alone that the rates of assessment are revised. "To deny the rights of the State to a share in any increase of values except those which could be inferred from the general tables of price statistics, in itself a most fallacious and partial test would be to surrender to a number of individuals an increment which they had not themselves earned, but which had resulted partly from the outlay of Government money on great public works, such as canals and railway, partly from the general enhancement of values produced from expanding resources and a higher standard of civilization." Every factor, from which the general prosperity of the tract may be inferred, is weighed as best as possible, but to describe in greater detail the process by which the final conclusions are arrived at by the settlement officer is not practicable.

14. Regarding the departure in the method of procedure for the revision of assessment, suggested by Mr. Rangaswami Iyengar, I beg to submit that it is impossible to attain logical perfection in the system of land revenue, which is subject to considerations of practical expediency. Mr. Rangaswami Iyengar admits that this is a highly technical Department, and it follows as a matter of course that settlement of revenue, which is the ultimate end to be attained and to which all other operations are preliminary, can be properly undertaken and justly effected only by one who is well versed in all the numerous technicalities. I leave it to Government to consider how far settlement work would be helped by the conference of the officers, as suggested, the majority of whom are not acquainted with technical details and whether the conference would not be rather an impediment than otherwise. In this connection, I cannot do better than quote the following passage from the Resolution of the Government of India on Land Revenue Policy:—

"Assessment cannot be dictated by the theorist in his study, they elude dogmatic treatment, and can only be safely worked out by the settlement officer in the village and on the fields. While they may admit of statistical analysis, they are liable to be hampered by premature statistical definition. The true function of Government is to lay down broad and generous principles for the guidance of its officers with becoming regard to the traditions of the Province and the circumstances of the locality, and to prescribe moderation in enhancement and sympathy in collection. Above all, it is its duty to exercise discrimination in the choice of the agents whom it employs for this most critical and responsible of tasks."

15. *Rates.*—Mr. Rangaswami Iyengar evidently starts with a preconceived notion that the tract under consideration was highly assessed at the original settlement and adduces arguments and figures in support of this view. Setting aside theoretical arguments and the inferences to be drawn from them, the direct consequence of high assessment ought to have been contraction of cultivation and difficulty of realizing the revenue. Judging from these infallible criteria, the original rates are not liable to be considered as unduly high. The area under wet cultivation has not decreased and the small decrease under gardens is due to reclassification according to the present state of things. Except the remission necessitated by the great famine, there have been no remissions on any large scale worth noticing, and the revenue is being realised with the same ease as in other parts of the country. It must not be forgotten that in imposing assessments existing conditions and tradition cannot be ignored and that the assessment of land revenue being subject to many complicated and varying conditions, it is not of much use to attempt a comparison of the rates obtaining in different localities. What I mean would be made clear by a consideration of the following average wet rates of some of the taluks in the Kolar District which are much nearer to the taluk under report than the far distant taluks mentioned by Mr. Rangaswami Iyengar

	Average wet rates Rs. a. p.
Sidlaghatta	6 5 5
Chintamani	6 4 0
Mulbagal	6 0 0
Bagepalli	5 7 7
Chikballapur	5 6 0
Goribidnur	5 3 8

The averages given in the settlement reports being only estimates, there is nothing surprising in finding any variation in the averages worked out on the actual figures year by year, because new lands are taken up and old ones resigned in view of seasonal prospects and the conveniences of raiyats. After all, the conclusion arrived at by Mr. Rangaswami Iyengar is that it would be satisfactory if the average wet rate can be brought nearer to Rs. 4 per acre. And the average wet rate under my proposals comes to only Rs. 4-3-1 which is not much further off than Rs. 4. I do not think that any further reduction of the wet rates than what has been proposed by me is called for. Excessive leniency in assessment has its own disadvantages.

16. Regarding the maximum garden rate, I beg to point out that the present lower maximum is scarcely reached, if at all, and that this has enabled me to wipe off the extreme rates imposed at the original settlement. Due allowance has been made in the reclassification for the deterioration of the water-supply. Gardens in Tumkur are not so inferior as Mr. Rangaswami Iyengar thinks them to be. We find some of the best gardens there and garden cultivation is on the whole quite remunerative. A further reduction of the maximum rate does not appear necessary.

17. The discrepancy alluded to by the Revenue Commissioner in the assessment on the area under wet cultivation for 1906-7, is no discrepancy in fact, and will disappear if the amount of remission is deducted from the total wet assessment, when the figures given at pages 14 (Appendix A) and para 36 of my report will tally with each other.

18. Mr. Rangaswami Iyengar admits that, in the taluk under report, there have been an increase in population (para 4 of his letter), an increase in the agricultural resources of the raiyats (para 5), an increase in prices of food grains (para 6), a steady expansion of cultivation (para 8), and a rise in the value of land (para 10). If expansion of cultivation, rise in prices and value of land, increase in the agricultural resources of the tract, increase in the number and improvement in the style of houses, and a better mode of living, are not factors sufficient to indicate the prosperity of the taluk, I am at a loss to know what other criteria have to be adopted to judge progress. I confess I am unable to make out what is actually aimed at by Mr. Rangaswami Iyengar in his arguments directed against each of the foregoing considerations as explained in my report.

Land Survey, dated 29th January 1910.

No. R. 5233-43—L. S. 10-09-4, DATED BANGALORE, 29TH JANUARY 1910.

ORDER THEREON.—The original settlement of the old Tumkur Taluk took place in the year 1871. Owing to changes effected in its boundaries in 1882, the present Tumkur Taluk does not correspond altogether with the old taluk, which contained, besides the 289 villages forming the bulk of the present Tumkur Taluk 78 villages which have since been transferred to the Gubbi Taluk, and two other which have been transferred to the Koratagere Sub-Taluk. Owing to its favorable situation, its good though somewhat precarious rainfall and climate, and its facilities for irrigation due not merely to its numerous tanks but to the ease with which wells and *thalapariges* could be dug, as water was readily found near the surface throughout the tract, it was considered to possess unusual advantages at the time of the original settlement. But as its subsequent progress has not fully justified the expectations which were then formed, some difficulty has been experienced in framing suitable proposals for revision of settlement.

2. The prosperity of the tract greatly depends upon its dry cultivation. Out of a total arable area of 164,188 acres according to the resurvey, 144,550 acres are dry, 14,924 wet and 4,714 garden. Of these the occupied area in 1906-07, the year previous to the resurvey operations, was 113,773 (dry), 11,106 (wet) and 4,292 (garden) assessed at Rs. 74,722, Rs. 55,256 and Rs 29,234 respectively.

3. The tract lies within the basin of three rivers, the Vedavati, the North Pennar and the Shimsha, the last-named serving to provide a large number of tanks for irrigation. The nature of the country, however, prevents it from deriving much advantage from its irrigational resources, as both tanks and wells are getting constantly silted up. Wet cultivation has not therefore made any striking progress, and the effects of the deterioration of water-supply are stated to have been intensified by the reckless manner in which until recently water was permitted to be taken for new lands without any investigation as to whether water could be supplied without interfering with the supply to lands already dependent on the same source. Under nearly every tank, it is stated that there is large extent of land on which nirsardi is levied, but which cannot ordinarily receive adequate supply. Both the Superintendent of Revenue Survey and the Revenue Commissioner are agreed that the original rates cannot be maintained in the case of wet and garden lands, but they differ as to the extent to which reduction is necessary. Rice and sugar-cane, cocoanut and areca, which form the chief wet and garden crops, are treated as supplementary to dry cultivation and the assessment to be levied on wet and garden lands cannot be fixed, therefore, with reference to their present condition alone, but the general circumstances of the tract and the various other factors which have influenced its progress have also to be taken into consideration in determining the rates to be levied even on lands of these two classes.

4. The tract suffered most severely from the famine of 1876-78. Its population, which according to the Census of 1871 was 94,266 and gave an average of 195 per square mile, fell to 57,123 in 1881. It has since been steadily rising and according to the Census of 1901 it was 85,610. The occupied area has risen from 113,239 acres to 127,653 acres. In spite of a decrease in population there has been thus some extension of cultivation, and this increase will be more evident if it is borne in mind that the original survey took place shortly after the Cotton Crisis of 1865-66 and that there was on that account an unusual rush for lands especially before the survey, though some of the holdings were resigned after the settlement. There has been an undoubted rise in prices, and making ample allowance for the increase in the cost of cultivation, due to the rise of wages, the greater costliness of living and the vicissitudes of the seasons, there can be no doubt that there has been a substantial increase of agricultural profits, which makes it possible for much lower grades of land to be brought under cultivation now than formerly. The tract possesses ample facilities of communication and nearly every village is in touch with some convenient market or other. The Bangalore-Harihar Railway line runs through the centre of the area and connects it with Bombay on the one hand and Bangalore and Madras on the other. With these facilities all parts of the tract

have been able to benefit equally by the rise in prices. The export trade, chiefly in grains, has thus been continually expanding. The land revenue has been recovered without difficulty and except during famine or scarcity no remissions have been found necessary, while there has been a steady increase in the land revenue demand year by year after the disastrous effects of the famine of 1876-78 had disappeared. Land shows a tendency to rise in value and is much in demand for purposes of investment. Without laying much stress, therefore, upon any purely numerical comparisons, there can be no doubt that the agricultural resources of the people afford indications of prosperity, and there are no reasons to believe that the original rates have in any way impeded the progress of the tract. Government are therefore of opinion that, though there may be good grounds for exercising great moderation in effecting the revision, there is no necessity for any extraordinary reduction of rates even on wet and garden lands. The Superintendent's proposals, which provide for an increase of about 6 per cent over the assessment realized in 1906-07 and involve a substantial reduction of both garden and wet assessment, seem to be sufficiently cautious and are well considered. The garden lands will be substantially benefited by the liberal rules laid down by Government in their Order of the 24th January 1902, by which, excepting tank-irrigated gardens, others are not usually taxed at higher rates than wet lands of similar quality. The maximum rate of Rs. 12 applies, therefore, only to tank gardens and is even then reached only in a very few cases. There has been a reduction of 1½ rupees in the average garden rate and Re. 0-12-6 in the average wet rate.

5. No soil classification has been attempted except in the case of kharab lands brought under cultivation since the original settlement. The original grouping has been adhered to as there has not been much change in the relative advantages possessed by villages in each group since the last settlement. The deterioration in the supply of water in the tanks affects only the wet lands, which, for reasons already explained in the case of the tract under consideration, is of indirect value in deciding the position of the village in the group; and the course adopted by the Superintendent of Survey, of giving these lands themselves the relief they individually require without disturbing the grouping, meets all necessities. It is noted that the Superintendent of Survey proposes to exclude from the atchkat during the revision, lands that cannot be supplied with water and to assess them on their merits. Garden lands which are used permanently for wet cultivation have been reclassified as wet and assessed accordingly.

6. The table appended to this Order compares the results of the original settlement with those of the revision settlement in each group.

7. The Government are under the circumstances, pleased to sanction the Superintendent's proposals for the revised settlement, which will be subject to the usual guarantee of 30 years with effect from 1910-11. A notification to this effect will be published in the official Gazette.

8. With regard to the Revenue Commissioner's opinion regarding the necessity for personal discussion with the Superintendent of Survey prior to his formulating the proposals, Government observe that there will no doubt be much advantage if it could be arranged to have such a discussion before the operations are actually commenced and to settle generally the principles according to which the resettlement of the tract may be made. The technical details have to be dealt with by the Survey Department entirely and it is inexpedient to subject them to revision after they have been fully worked out. The Revenue Commissioner should, therefore, in consultation with the Deputy Commissioner, communicate to the Superintendent of Survey, as soon as the resurvey of a taluk is announced, any special features in it, which, in their opinion, require to be taken into consideration in revising the settlement. The Superintendent of Survey will then be able to give due effect to these suggestions, discussing them personally, if necessary, with the Revenue Commissioner or the Deputy Commissioner and indicate in his report, with reasons, the extent to which it has been possible to accept them, for, after all, the responsibility for the proposals to be submitted to Government is practically the Survey Superintendent's.

Land Survey, dated 29th January 1910.

9. The attention of the Chief Engineer is drawn to the observations in the Report, regarding the condition of irrigation works in the taluk and he is requested to favour Government with a special report as to the measures necessary to improve them as a whole. He is also requested to consider the question of repairing the feeder to the Maidal tank.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 27th January 1910.

READ—

Correspondence ending with letter No. D. 749, dated the 15th November 1909, from the Revenue Commissioner in Mysore, on the subject of the responsibility of Municipalities in respect of the administration of relief to artisans during the past season of distress.

No. R. 5082-101—AGRI. 226-08-7, DATED BANGALORE, 27TH JANUARY 1910.

ORDER THEREON.—Both the Famine Code and the Municipal Regulation (VII of 1906) contemplate that the Municipalities should be responsible for all measures of relief rendered necessary within Municipal limits by the existence of distress. Section 55 (*b*) of the Municipal Regulation imposes upon Municipal Councils the obligation of providing, in times of famine or scarcity, the necessary funds required for giving relief to destitute persons and of establishing and maintaining relief works on their account. Under Section 218 of the Famine Code they are also bound, as far as possible, to undertake the financing and management of relief to artisans, Government granting, if necessary, loans for the purpose free of interest.

2. The weavers were the only class of artisans for whose relief special measures were started during the year 1908-09. Owing to the urgency of the relief as, when the budget was framed, there were no indications of approaching scarcity, Government lost no time in sanctioning the funds required and granted in all a sum of Rs. 50,000 for the purpose, leaving it to the Deputy Commissioners to take the steps necessary for securing the co-operation of Municipalities in the administration of relief. The Revenue Commissioner was also requested to ascertain the extent to which each Municipality would be liable for the cost of these operations. The majority of these local bodies plead inability to meet any part of the charges from their limited resources.

3. The Government observe that the relief operations have so far been carried out by the Revenue authorities. It would have certainly been advisable if the Deputy Commissioners had, as required by the Famine Code and as intended by Government, taken all the steps necessary for administering the relief with the co-operation and concurrence of the Municipalities concerned. As, however, the operations have now been stopped and the only thing that remains to be done is the recovery of the advances made, Government consider that this may be conveniently attended to by the Revenue authorities themselves, who have maintained the necessary accounts in connection with these transactions.

4. Under the circumstances, the Government also do not think it to be desirable to require the Municipalities to make good any loss that may accrue from the relief operations.

5. The Deputy Commissioners are requested to arrange for the speedy recovery of all the advances made.

Letter No. 4351, dated the 23rd November 1909, from the Conservator of Forests in Mysore, submitting for approval the draft notification and tracings relating to the rights of way, etc., allowed in the State Forests of the Srinivaspur Range.

The following rights of way are admitted in the following State Forests :—

RAYALPAD BLOCK I.

1. *Foot-path*, from Balevaripalli to His Majesty's villages, 3 yards wide and 1 mile, 6 furlongs and 110 yards long, open for men and cattle all the year round. It enters the forest at 55 yards north of the 5th furlong stone of the 29th mile of the demarcation and, running east, quits it at the 3rd furlong stone of the 3rd mile of the demarcation.

2. *Cart-track*, from Mudimadagu to Madanapalli, 5 yards wide and 5 furlongs and 198 yards long, open for men and cattle only all the year round. It enters the forest at 90 yards south of the 1st furlong stone of the 29th mile of the demarcation and, running east, passing through the enclosure of Digopalli and Madangutpalli, quits it at the 5th furlong stone of the 4th mile of the demarcation.

3. *High road*, from Srinivaspur to Madanapalli, 7 yards wide and 2½ miles long, open for men, cattle and carts all the year round. It enters the forest at 50 yards north of the 7th furlong stone of the 24th mile of the demarcation and, running east, quits it by the north side of the 5th furlong stone of the 6th mile of the same demarcation. A portion of the 69th mile and the 70th and 71st miles of the road lie within the forest.

4. *Foot path*, from Rayalpad to Sunkal, 3 yards wide and 1 mile and 4 furlongs long, open for men and cattle at all times of the year. It enters the forest at 100 yards south of the 4th furlong stone of the 23rd mile of the demarcation or at about the 3rd furlong of the 68th mile of the Srinivaspur-Madanapalli high-road and runs south till it meets the boundary of Sunkal, which is an enclosure to the forest.

5. *Cart-track*, branching from Srinivaspur-Madanapalli high-road at about the 2nd furlong of the 66th mile of the road to Sunkal, 5 yards wide and 6 furlongs and 66 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 50 yards south of the 2nd furlong of the 21st mile of the demarcation and runs east till it meets the boundary of Sunkal village, which is an enclosure to the forest.

6. *Cart-track*, from Kothapet to Sunkal village, 5 yards wide and 1 mile, 2 furlongs and 132 yards long, open for men, cattle and carts all the year round. It enters the forest at the 7th furlong stone of the 17th mile of the demarcation and runs north for over 2 furlongs and then north-east till it meets the boundary of Sunkal, which is an enclosure to the forest.

7. *Foot-path*, from Sunkal to Medopalli, 3 yards wide and 1 mile and 6½ chains long, open for men only all the year round. It enters the State Forest at the north-east corner of Survey No. 12 of Sunkal and, running north-east, quits it at the 2nd furlong stone of the 9th mile of the demarcation.

8. *Foot-path*, from Jadimakalpalli to Avalpalli, 3 yards wide and 5½ furlongs long, open for men only all the year round. It enters the State Forest at the eastern corner of Survey No. 40 of Jadimakalpalli and, running north-east, quits it at the 4th furlong stone of the 10th mile of the demarcation.

9. *Water-way*, from Kamtampalli to Nayankere tank, 3 yards wide and 2 furlongs and 110 yards long, open for men and cattle only all the year round. The water will be utilized for drinking purposes by cattle of Satnurpalli, Muddepalli, Kamtampalli and Pulgurkote villages. It enters the forest at the 4th furlong stone of the 13th mile of the demarcation line and runs north till it meets the above tank.

RAYALPAD BLOCK II.

1. *Foot-path*, from Raddivaripalli to His Majesty's villages, 3 yards wide and 5 furlongs and 88 yards long, open for men and cattle all the year round. It enters the forest at 25 yards north-east of the 14th mile stone of the demarcation line and, running north, quits it at 25 yards east of the 7th furlong stone of the 16th mile of the same line.

2. *Foot-path*, from Kothapalli to Chinthamanpalli, 3 yards wide and 1 mile, 4 furlongs and 110 yards long, open for men and cattle all the year round. It enters the forest at 66 yards north of the 5th furlong stone of the 11th mile of the demarcation and, running north-east, quits it at 70 yards north of the 3rd furlong stone of the 1st mile.

3. *Cart-track*, from Baltmari to Chinthamanpalli, 5 yards wide and 1 mile and 66 yards long, open for men, cattle and carts all the year round. It enters the forest at 20 yards north of the 4th furlong stone of the 10th mile of the demarcation and, running north-east, quits it at 40 yards north of the 2nd furlong stone of the 2nd mile of the demarcation.

4. *Cart-track*, from Baltmari to Thummalpalli, 5 yards wide and 5 furlongs and 22 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 10 yards south of the 7th furlong stone of the 9th mile of the demarcation and, running south-east, quits it at 10 yards south of the 4th furlong stone of the 3rd mile of the demarcation.

5. *Cart-track*, from Baltmari to Basavanpalli, 5 yards wide and 6 furlongs and 88 yards long, open for men, cattle and carts all the year round. It enters the forest at the 2nd furlong stone of the 9th mile of the demarcation and, running south, quits it at the 6th furlong stone of the 4th mile of the demarcation.

6. *Foot-path*, from Kadarampalli to Gudisivarapalli, 3 yards wide and 3 furlongs long, open for men and cattle all the year round. It enters the forest 10 yards west of the 7th mile stone of the demarcation and running south and south-east, quits it at 15 yards west of the 7th furlong stone of the 5th mile of the demarcation.

RAYALPAD BLOCK III.

1. *Foot-path*, from Adavichambakur to Pulgurkote, 3 yards wide and 3 furlongs and 198 yards long, open for men and cattle all the year round. It enters the forest at the 6th furlong stone of the 6th mile of the demarcation line and, running north, quits it at 100 yards east of the 1st furlong stone of the 11th mile of the same line.

2. *Cart-track*, from Kulgurki to Pulgurkote, 5 yards wide and 3½ furlongs long, open for men, cattle and carts all the year round. It enters the forest at 20 yards west of the 4th furlong stone of the 6th mile of the demarcation line and, running north and north-east, quits it at 50 yards east of the 4th furlong stone of the 11th mile of the same line.

3. *Foot-path*, from Kulgurki to Gundavarapalli, 3 yards wide and 5 furlongs and 165 yards long, open for men and cattle all the year round. It enters the forest by the western side of the 2nd furlong stone of the 6th mile of the demarcation line and, running north-east, quits it at 100 yards south of the 4th furlong stone of the 1st mile of the same line.

4. *Foot-path*, from Kulgurki to Valasiwarabetta, 3 yards wide and 1 mile and 77 yards long, open for men and cattle at all times of the year. It enters the forest 20 yards west of the 3rd furlong stone of the 4th mile of the demarcation line and, running north-east and south-east, quits it at 40 yards south of the 7th furlong stone of the 2nd mile of the same line.

RAYALPAD BLOCK IV.

ADGAL-NELAVANKI OR THIMMANPALLI STATE FOREST.

(*a*) *Thimmanpalli Forest.*

1. *Foot-path*, from Nelavanki to Digavamarampalli, 3 yards wide and 1 mile, 1 furlong and 132 yards long, open for men and cattle all the year round. It enters the forest at 30 yards north of the 4th mile stone of the demarcation and, running north-west, quits it at 80 yards east of the 5th furlong stone of the 6th mile of the same line. It again enters the forest at 110 yards north of the 7th furlong stone of the 7th mile of the demarcation line and running north-north-west, quits it at 50 yards east of the 6th furlong stone of the 11th mile of the same line.

2. *Cart-track*, from Nelavanki to Thimmanpalli, 5 yards wide and 7 furlongs and 66 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 25 yards east of the 6th furlong stone of the 7th mile of the demarcation line and, running north, quits it at 25 yards east of the 7th furlong stone of the 12th mile of the same line.

3. *Cart-track*, from Nelavanki to Mugguragalkunta, 5 yards wide and 3 furlongs and 154 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 100 yards north of the 4th furlong of the 7th mile of the demarcation line and, running north-east, quits it at 25 yards south of the 3rd mile of the same line.

4. *Cart-track*, from Koppuvaripalli to Thimmanpalli, 5 yards wide and 4 furlongs and 88 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 10 yards east of the 6th furlong stone of the 2nd mile of the demarcation line and running north and north-west, quits it at 10 yards west of the 3rd furlong stone of the 13th mile of the same line.

5. *Cart-track*, from Koppuvaripalli to Adgal, 5 yards wide and 3 furlongs long, open for men, cattle and carts at all times of the year. It enters the forest at 100 yards east of the 1st mile stone of the demarcation line and running north, quits it at 80 yards west of the 7th furlong stone of the 15th mile of the same line.

(*b*) *Adgal Forest.*

1. *Foot-path*, from Chinrangapalli to Adgal, 3 yards wide and 5½ furlongs long, open for men and cattle at all times of the year. It enters the forest by the eastern side of the 1st furlong of the 2nd mile of the demarcation line and, running north, quits it at 25 yards west of the 5th furlong stone of the 5th mile of the same line.

2. *Cart-track*, from Chinrangapalli to Buragemakalpalli, 5 yards wide and 7½ furlongs long, open for men, cattle and carts at all times of the year. It enters the forest by the western side of the 6th furlong stone of the 1st mile of the demarcation line and running north-east, quits it at 110 yards north of the 1st furlong stone of the 7th mile of the same line.

AGARA STATE FOREST.

1. *Road*, from Agara to Mudiyanur, 5 yards wide and 1 mile and 6 furlongs long, open for men, cattle and carts at all times of the year. It enters the forest at one chain west from the 31st mile stone of the demarcation line, and, running south, quits it at 5 chains west from the 6th furlong, stone of the 35th mile of the same line.

Forest. dated 5th January 1909.

2. *Cart-track,* from Agara to Koladevi, 5 yards wide and 4 furlongs and 77 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 3½ chains east of the 6th furlong of the 31st mile of the demarcation line, and, running south-east, quits it at 4 chains north of the 3rd furlong stone of the 2nd mile of the same line.

3. *Cart-track,* from Agara to Yamanur, 5 yards wide and 6 furlongs and 198 yards long, open for men, cattle and carts all the year round. It enters the forest at 1 chain east from the 7th furlong stone of the 27th mile of the demarcation line and, running north, quits it at 1 chain west of the 4th furlong stone of the 25th mile of the same line.

4. *Cart-track,* from Achampalli to Bisanhalli, 5 yards wide and 2½ miles long, open for men, cattle and carts all the year round. It enters the forest by the eastern side of the 6th furlong stone of the 26th mile of the demarcation line and, running north-east and east, quits it at 20 yards south of the 2nd furlong stone of the 6th mile of the same line.

5. *Cart-track,* from Agara to Satnur, 5 yards wide and 3 furlongs and 132 yards long, open for men cattle and carts all the year round. It enters the forest at 2½ chains east of the 5th furlong stone of the 29th mile of the demarcation line and, running north, quits it at 6 chains north of the 6th furlong stone of the 5th mile of the same line.

6. *Cart-track,* from Agara to Bisanhalli, 5 yards wide and 3 furlongs long, open for men, cattle and carts all the year round. It enters the forest at 5 chains from the 7th furlong stone of the 29th mile of the demarcation line and, running north-east, quits it at 4 chains north of the 2nd furlong stone of th 5th mile of the same line.

7. *Cart-track,* from Agara to Kandapalli, 5 yards wide and 1 mile, 2 furlongs and 88 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 1¼ chains south of the 6th furlong of the 30th mile of the demarcation line and, running north-east, quits it at 3¾ chains north of the 3rd furlong stone of the 4th mile of the same line.

8. *Cart-track,* from Bisanhalli to Koladevi, 5 yards wide and 1 mile, 2 furlongs and 115 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 1¼ chains north from the 4th mile-stone of the demarcation line and, running south, quits it at 2 chains from the 3rd furlong stone of the 3rd mile of the same line.

9. *Cart-track,* from Bisanhalli to Gudipalli, 5 yards wide and 6 furlongs and 88 yards long, open for men, cattle and carts all the year round. It enters the forest at 1 chain south of the 4th furlong stone of the 9th mile of the demarcation line and, running east and north-east, quits it at 3½ chains north of the 10th mile of the same line.

10. *Cart-track,* from Dinnapalli to Mullikunta, 5 yards wide and 4 furlongs and 33 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 3 chains south of the 1st furlong stone of the 8th mile of the demarcation line and, running north-east, quits it at one chain north of the 5th furlong stone of the 13th mile of the same line.

11. *Cart-track,* from Satnur to Yamanur, 5 yards wide and 1 mile, 2 furlongs and 88 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 4 chains north of the 5th furlong stone of the 6th mile of the demarcation line and, running north and north-west, quits it at 1 chain north of the 6th furlong stone of the 24th mile of the same line.

12. *Cart-track,* from Satnur to Karangi, 5 yards wide and 1 mile and 44 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 3½ chains east from the 6th mile stone of the demarcation line and, running north, quits it at a distance of 5 chains east from the 2nd furlong stone of the 23rd mile of the same line.

13 *Cart-tacrk,* from Dinnepalli to Kanavenpalli, 5 yards wide and 1 mile and 1 furlong long, open for men, cattle and carts at all times of the year. It enters the forest at 3½ chains south from the 5th furlong stone of the 7th mile of the demarcation line and, running north-east and east, quits it at 2 chains south of the 4th furlong stone of the 13th mile of the same line.

14. *Cart-track,* from Kanavenpalli to Karangi, 5 yards wide and one mile, 2 furlongs and 44 yards long, open for men, cattle and carts at all times of the year. It branches from the above track No. 13 at 2 furlongs west from the point where it leaves the eastern demarcation line of the forest and, running north-west and west, quits it at 1 chain south of the 6th furlong stone of the 22nd mile of the same line.

15. *Cart-track,* from Gangamatta to Kannasandra, 5 yards wide and 1 mile, 4 furlongs and 22 yards long, open for men, cattle and carts at all times of the year. It enters the forest at 4½ chains south of the 4th furlong stone of the 20th mile of the demarcation line and, running north-east and east, quits it at 2½ chains north of the 16th mile of the same line.

16. *Foot-path,* from Karangi to Kannasandra, 3 yards wide and 5 furlongs and 198 yards long, open for men and cattle at all times of the year. It enters the forest at 4 chains east of the 6th furlong stone of the 21st mile of the demarcation line and, running north-east, quits it at 4 chains south of the 4th furlong stone of the 16th mile of the same line.

17. *Cart-track.,* from Agara to Nichankunte, 5 yards wide and 3¼ furlongs long, open for men, cattle and carts all the year round. It branches off from road No. 1 at 1 furlong south from

the demarcation line between 6th and 7th furlongs of the 32nd mile stone and, passing through the forest, quits the latter at 50 yards east from the 4th furlong stone of the 36th mile.

SRINIVASPUR FOREST.

1. *Cart-track,* from Srinivsapur to Avalkuppa, 5 yards wide and 2 furlongs and 66 yards long, open for men, cattle and carts all the year round. It enters the forest at the 2nd furlong stone of the 2nd mile of the demarcation and, running north-east and north, quits it at 2 chains south west of the 5th furlong stone of the 2nd mile of the same line.

2. *Cart-track,* from Srinivaspur to Gattiga, 5 yards wide and 7 furlongs and 55 yards long, open for men, cattle and carts all the year round. It enters the forest at the 6th furlong stone of the 1st mile of the demarcation line and, running south-east and east, quits it at the 3rd furlong stone of the 4th mile of the same line.

3. *Cart-track,* from Hebbetta to Hogalgere, 5 yards wide and 1 mile and 88 yards long, open for men, cattle and carts all the year round. It enters the forest at the 5th furlong stone of the 18th mile of the demarcation line and, running east, quits it at 4 chains and 15 yards north of the 7th furlong stone of the 5th mile of the same line.

4. *Cart-track,* from Arekera to Hogalgere, 5 yards wide and 4 furlongs and 22 yards long, open for men, cattle and carts all the year round. It enters the forest at the 3rd furlong stone of the 17th mile of the demarcation line and running north-east joins the above cart-track No. 3 at about 4 furlongs from the point of its exit from the eastern demarcation line.

5. *Foot-path,* from Arekere to Yeldur, 3 yards wide and 6 furlongs and 121 yards long, open for men and cattle all the year round. It enters the forest at one chain south of the 1st furlong stone of the 15th mile of the demarcation line and running east quits it at 2 chains west of the 2nd furlong stone of the same mile and again entering at 4 chains north of the 3rd furlong stone of the same mile, quits it running in the same direction as above at the 2nd furlong stone of the 11th mile of the same line.

6. *Cart-track,* from Jaderi to Yeldur, 5 yards wide, and 2 furlongs and 88 yards long, open for men, cattle and carts all the year round. It enters the forest at 4 chains north of the 2nd furlong stone of the 13th mile of the demarcation line and running east, quits it at the 5th furlong stone of the 12th mile of the same line.

7. *Cart-track,* from Srinivaspur to Kothapalli, 5 yards wide and 1 mile and 1½ furlongs long, open for men, cattle and carts all the year round. It enters the forest at the 7th furlong stone of the 6th mile of the demarcation line and, running east, quits it at 1 chain north of the 2nd furlong stone of the 9th mile of the same line.

8. *Foot-path,* from Srinivaspur to Hogalgere, 3 yards wide and 6 furlongs and 176 yards long, open for men and cattle all the year round. It enters the forest at the point where No 7 enters it and branches off from the cart-track No. 7 at one and a half furlongs from the east of the demarcation line and, running north-east, quits it at the 5th furlong stone of the 8th mile of the same line.

No. R. 4481-2—Ft. 41-09-6, DATED BANGALORE, 5TH JANUARY 1901.

ORDER THEREON.—Approved.

The list will be published by the District Forest Officer in Part II of the Gazette and in the neighbourhood of the Forests.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Conservator of Forests in Mysore.
The Deputy Commissioner, Kolar District.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ the following papers:—

I. Government Order No. R. 8376-81—Ft. 44-07-36, dated the 19th June 1908, appointing a Committee composed of the undermentioned officers:—

(1) The Revenue Commissioner,

(2) The Excise Commissioner,

(3) The Conservator of Forests,

(4) The Military Assistant to the Government of Mysore, and

(5) The Deputy Commissioner, Mysore District,

for considering the best mode of disposing of the kavals attached to the late Training Depot at Hunsur and for submitting definite proposals in the matter, having regard to the local agricultural requirements and the demands of the various other Departments.

II. Government Proceedings No. 471-5—Ft. 44-07-38, dated the 21st July 1908, appointing the Revenue Commissioner as President of the said Committee to arrange for the meetings and for drawing up the final report of the Committee.

III. Letter No. 5050, dated the 12th November 1909, from the Revenue Commissioner in Mysore and President of the Committee:—

"With reference to Government Proceedings No. R. 8376-81—Ft. 44-07-36, dated 19th June 1908, appointing a Committee composed of the marginally noted officers for considering the best mode of disposing of the kavals attached to the late Training Depot at Hunsur and for submitting definite proposals in the matter, having regard to the local agricultural requirements and the demands of the various Departments, etc., I have the honor to submit the following report:—

(1) The Revenue Commissioner.
(2) The Excise Commissioner.
(3) The Conservator of Forests.
(4) The Military Assistant to the Government of Mysore.
(5) The Deputy Commissioner of Mysore.

2. In Government Proceedings No. R. 471-5—Ft. 44-07-38, dated 21st July 1908, the Revenue Commissioner was appointed as President of the Committee to arrange for the meetings, etc., and draw up the final report of the Committee. On the 10th August 1908, a preliminary meeting was convened at Bangalore, with such of the members as were at the head-quarters, with a view to form an idea as to the requirements of the different Departments and the lines on which the deliberations of the Committee should be conducted. At this meeting were present the marginally noted officers. Col. Jones remarked that he had not sufficient time to get full details of the requirements of the Amrut Mahal Department from his Assistant, and that the latter officer was fully aware of his views and would be able to place them before the Committee as he himself was going away on furlough. The other members promised to furnish necessary information regarding the requirements of their respective Departments soon. After some general discussion it was proposed to hold the next meeting of the Committee in September next at Mysore, as by that time the members concerned hoped to collect necessary details for the consideration of the Committee. (*Vide* copy of the notes of discussion of the meeting enclosed.)

(1) The Revenue Commissioner.
(2) The Military Assistant to the Government of Mysore.
(3) Mr. M. Narain Rao, Offg. Excise Commissioner.
(4) The Conservator of Forests.

3. The next meeting could not be held in September, as proposed, owing to the requisite information not having been furnished by the several Departments, and it was eventually held on the 2nd June 1909 at Mysore when the Committee confined their discussion to the 10 of the 16 kavals, the remaining six kavals having been in the meanwhile disposed of by Government as shown in the margin. A draft report of the proceedings of the Committee was then drawn up (*vide* copy enclosed), and circulated to the members for remarks before submission to Government. This draft report was approved by Mr. Sparkes, but Mr. Muthanna appended a note of dissent on some points with certain remarks for the consideration of the Committee. Mr. Kantharaj Urs, who had in the meantime inspected most of the kavals, also added a minute containing a few suggestions in the light of information gathered at his inspection. So also did Mr. Nanjundaraj Urs. As there was some divergence between the views contained in the draft report and those expressed in these minutes, it was found necessary to have some of the points discussed again by the Committee, and a meeting was accordingly convened on the 25th October 1909 at Mysore, when all the questions were fully considered and the appended resolutions were unanimously passed.

(1) Tippur, Daityankere, Sulekere, Madaballi—placed at the disposal of the Palace Department. Government Proceedings No. R. 2062-1—Ft. 41-08-4, dated 24th September 1908.
(2) Punjaballi and Mutharayanahosaballi—ordered to be granted for cultivation. Government Proceedings No. R. 9679-81—Ft. 152-08-5, dated 20th May 1909.

4. For the sake of convenience the proposals of the Committee may be summarised as below:—

(1) *Hodikekatte, Marur and Hussainpur Kavals.*—Portions of these kavals containing a good growth of date trees should be reserved for the Excise Department, the rest including blocks of land where date trees are sparse should be granted for cultivation and grazing in the portions reserved for the Excise Department should be sold.

(2) *Halebidu and Bilikere.*—These kavals containing a very fair growth of date trees, should also be reserved for the Excise Department, subject to the condition that the rights of grazing

thereon should be sold by the Deputy Commissioner as the raiyats of these and neighbouring villages are badly off for grazing.

(3) *Pudukote Kaval* may be assigned temporarily to the Amrut Mahal Department as there is hardly any population close by to take up lands for cultivation, at present, and as it is not desirable to enclose it permanently as a State Forest.

(4) *Belagantahalli.*—Such of the portions in this kaval as are fit for cultivation should be assigned for the purpose, the remaining extent being declared as "Reserve Land" under Section 35 (iii) of the Forest Regulation.

(5) *Krishnapur, Yerchalli and Antarsante.*—These kavals do not contain any growth of date, sandal or other trees, and may be assigned for cultivation as there is a great demand therefor.

(6) As regards the two kavals, *viz.*, Punjahalli and Mutharayanahosahalli, which were ordered by Government to be granted for cultivation, it was represented that the raiyats are not coming forward to take up lands in the former and that only an extent of 500 acres is fit for cultivation in the latter. The Committee therefore resolved (1) that Punjahalli should be placed at the disposal of the Amrut Mahal Department for the present, the Deputy Commissioner and the Conservator of Forests taking necessary steps to have the lands brought under cultivation; and (2) that, as regards Mutharayanahosahalli Kaval, such of the portions as are not required for cultivation should be declared as "Reserved Land" under the Forest Regulation.

The Committee considered it advisable to lay down the following general conditions in giving effect to the above proposals:—

(*a*) In disposing of lands for cultivation, full discretion should be given to the Deputy Commissioner, who may adopt the following general procedure:—Lands set apart for cultivation should ordinarily be allotted to applicants on upset price, such allotments being primarily made to *bonâ fide* applicants living in the neighbourhood, except when there are more than one application for the same piece of land, and in the latter case, the land being sold by auction.

(*b*) In deciding whether a land is fit for date reserve, the fact that the minimum number of mature date trees should be not less than 20 per acre should be kept in view.

(*c*) Portions of land selected for date reserve should be marked off by the Excise Department.

(*d*) In all these kavals, wherever the Forest Department has started plantations or culture, such portions should be reserved and marked off by the Forest Department, the remaining extent being disposed of in accordance with the above proposals.

(*e*) Lands which may not be required now by the Forest or Excise Department, or for *bonâ fide* cultivation immediately, may be kept as kharab, the hulbanni thereof being sold annually.

(*f*) As the Excise Department will have only the usufruct of date trees and conservancy of date plants in the portions reserved as date groves, it should rest with the Forest Department to take necessary action for conserving and improving the forest growth in such areas without prejudice to the operations of the Excise Department."

IV. Letter No. 5959, dated the 13th December 1909, from the same officer, forwarding the following notes:—

"With reference to correspondence ending with your letter No. R. 4161—Ft. 71-09, dated 11th December 1909, *in re* the disposal of the kavals attached to the late Training Depot at Hunsur, I have the honor to forward herewith the note of dissent by Mr. Muthanna and the notes of Messrs. Kantharaj Urs and Nanjundaraj Urs as desired therein."

NOTE BY THE CONSERVATOR OF FORESTS IN MYSORE.

As at the meeting held on the 2nd June 1909, at Mysore, I had no opportunity of expressing fully my views on the subject of the future management of the kavals attached to the late Training Depot at Hunsur, I venture to offer a few remarks for the consideration of the Committee with the request that the same may be placed before Government with their opinion thereon.

2. Out of the 16 kavals with an aggregate area of 16,600 acres handed over by the British Public Cattle Department, it has been proposed to assign 4, embracing an area of 3,252 acres, to the Palace Cattle Department, and to apportion the remaining 12 between the Excise, Amrut Mahal and Revenue Departments, the Forest Department taking scattered bits here and there which are not required by any of these Departments. It has been proposed also that the lands allotted to the Revenue Department may be assigned for cultivation, with the proviso that the assignments be restricted to "*bonâ fide* applicants living in the neighbourhood" or treated as "Kharab."

3. I venture to express my dissent from some of the arrangements proposed by the Committee for reasons given below.

4. I shall deal first with the four kavals assigned by Government to the Palace Cattle Department. These are situated in close proximity to one another and are stocked with a scrubby growth of kagli, eegi, devadaru, kakke, gallnut, dindiga etc., and a sprinkling of sandal. The stock is capable of great improvement under proper treatment such as can be afforded by the Forest Department alone, and such improvement is entirely dependent upon absolute protection from fire and prohibition from felling for at least 20 years. I would, therefore, suggest that the assignment be made subject to the condition that the areas are properly demarcated and fire-protected and that fellings and goat browsing are prohibited. For this purpose, the Palace Cattle Department will have to

Revenue (Forest), dated 31st January 1910.

employ two watchers permanently and require one of their superior officers to inspect the kavals frequently. Without such safeguards, so far from any improvement being effected under the new management, they will rapidly deteriorate. If, however, that Department is unable to manage them on the lines proposed, the Forest Department is prepared to take them over, allowing the Palace cattle the free use of the pasturage when required, but with liberty to dispose of it when not required.

5. As regards lands proposed to be assigned to the Excise Department, I have nothing to say. I only hope that that Department will take care of the sandal and other growth occurring in such areas and prevent goat browsing, fires and unauthorised fellings.

6. (1) With regard to the lands proposed to be assigned for cultivation, I beg to observe generally that no land be alienated without the consent of the Forest Department in order to ensure the interests of Government in sandal, as some of these lands contain a fair growth of it.

(2) The *raison d'être* for reserving these lands to the neighbouring villagers is not clear to me. I should think that so far from doing so, every inducement must be offered to others to take them up with a view to increase the population of the tract, and to ensure thorough cultivation as early as possible. It is not contended that the villagers in the neighbourhood are hard pressed for want of room for extension of cultivation. On the contrary, there is as much land as they can properly cultivate within their own villages. There may be hard cases here and there, and such require special treatment, but as a rule, I would encourage raiyats, not land speculators or non-resident cultivators, from congested tracts to take up lands in these kavals.

7. It has been proposed to assign Paduvakote Kaval to the Amrut Mahal Department. If the safeguards proposed in the case of Palace Kavals are not extended to this also, there is a great danger of this extensive block of forest being wiped out by fires, browsing and reckless fellings. The Amrut Mahal Department owns at present over 600 square miles of kavals, and besides, has been permitted to graze its stock over a very large area of State Forests. One would suppose that this was more than sufficient to meet the requirements of some 10,000 head of cattle, and no reason has been given why any additional area is required.

The area of the kaval is 4,603 acres and it is stocked with sandal, teak, matti, honne, dindiga and other species. It is reported that it is traversed by the Hanumanthapur Channel, and that about 250 acres are suitable for wet cultivation of which a large portion was once under wet cultivation. It seems a very great pity to shut out cultivation altogether. I therefore propose that the area suitable for wet cultivation be demarcated out, and the rest constituted as State Forest to meet the present and future requirements of the large numbers of villagers who will be attracted to the locality by the throwing open of this and other kavals for cultivation. Should the Amrut Mahal Department find any need to take its cattle for watering and even for grazing in years of drought into the kaval, I shall have no objection to permit the same.

8. As regards Punjahalli (1,063 acres) and Muttarayanahosahalli (2,584 acres) Kavals, which Government in their Proceedings No. R. 9679-81—Ft. 152-08-5, dated the 20th May 1909, have ordered to be given up for cultivation, I have to state that, though portions of the former are suitable for cultivation, I am informed that there is no demand for land there. I therefore recommend that it be notified as a Reserved Land to be handed over to the Revenue Department when required. Of Muttarayanahosahalli Kaval, I am informed that only 500 acres are fit for dry cultivation. This area may be excised and the rest notified as State Forest.

9. There is an impression that the area of State Forests is already very large and in excess of requirements in the Mysore District. This may be true in the case of the Heggaddevankote and Gundlupet Taluks, but the State Forests are situated in their extreme southern and western borders, far away from cultivated villages. They are not therefore of much use to the agriculturists who rarely resort to them. In the other taluks, the State Forests cover but comparatively a small area. The kavals are more conveniently situated, and what is more, they contain just those kinds of trees which are suitable for agricultural purposes. The necessity for preserving such areas in the interests of the agriculturists will therefore appear obvious.

NOTE BY THE DEPUTY COMMISSIONER, MYSORE DISTRICT.

I inspected the marginally noted kavals in the taluks of Hunsur and Heggaddevankote in the months of June and July last, after the meeting of the Committee was held in Mysore.

1. Marur
2. Hodikekatte
3. Muttarayanahosahalli
4. Hussainpur
5. Halebid
6. Bilikere

} Hunsur Taluk.

1. Antarsante
2. Krishnapur
Yerahalli

} Heggaddevankote Taluk.

The raiyats who had already darkhasted for lands in these kavals appeared before me and urged for a speedy disposal of their darkhasts. They evinced great eagerness to get these lands either for extension of their cultivation or for grazing purposes. Fresh darkhasts also were received and were referred to the Taluk Amildar concerned for registry and report

The Amildars were asked to prepare a list showing the "Ahawal" of the darkhastdar and also to report if his means permitted of extending his present cultivation I will give a short note with reference to each one of the kavals inspected by me.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Hunsur Taluk

1. *Marur.*—There is a pretty thick growth of date trees in this kaval, adjoining the wet cultivation under the tank, which is a major one. But nearly a third of this kaval, if not more, is fit for dry cultivation, it being entirely free from any date growth. A cart-track conveniently divides this portion from the date area. So, the portion which is free from date growth may with advantage be given out for cultivation by the raiyats. There is a great demand for land from the raiyats of the adjoining villages.

2. *Hodikekatte.*—This kaval is situated on either side of the Hunsur-Yedatore road. The portion to the east of the road right up to the banks of the Lakshmanatirtha is well studded with date trees and should thus be entirely reserved for the Excise Department. But the portion of the kaval to the west of the road is entirely free from any date growth or sandal and so can be made available both for cultivation and grazing.

3. *Mutharayanahosahalli.*—This kaval is situated on either side of the road to Panchavalli. This is one of the two kavals which have been sanctioned by Government for being given out for cultivation.

The portion of the kaval to the right of the road is not so thick of forest growth as the portion lying to the left of the road and there is hardly anything worth reserving by the Forest Department, whereas the portion lying to the left of the road is very thick with forest growth and comprises nearly three-fourths of the kaval. This portion may be made over to the Forest Department and the portion lying to the right of the road, given out either for cultivation or for grazing to the raiyats of the neighbouring villages. The Forest Range Officer, who was with me at the time, agreed with me.

4. *Hussainpur.*—This kaval contains a very fair growth of date trees in the major portion of the kaval and should be reserved for the Excise Department. There are, however, a few patches here and there bordering the date grove which may be thrown open for grazing. There is a breached tank at one end of this kaval a great portion of the bed of which lies within in an Inam village. But the tank is "Sirkar." If this tank can be repaired, a great portion of this kaval can be made irrigable. Whether it would be more profitable to Government to repair the tank and give away the lands of the kaval for wet cultivation than reserving it for excise purposes, is a question worth investigation both by the Public Works Department and the Revenue Department. There have been several darkhasts for this kaval.

5. *Halebid.*—This kaval also contains a pretty fair growth of date trees and parts of it are commanded by the Bilikere tank. But the villagers of Halebid require it more for grazing than for cultivation, and their request may be granted as there is some difficulty for grazing in these parts.

6. *Bilikare.*—This is the bed of the tank of that name. The villagers of Bilikere and the neighbouring villagers are very badly off for pasture and the whole of this may be reserved for this purpose only.

7. *Punjahalli.*—This kaval, I was not able to inspect. It lies on the road to Heggaddevankote and is very near the frontier of that taluk. There are hardly any villages close by and the kaval is very thickly wooded, I hear. Although Government have been pleased to sanction its being given out for cultivation, there is hardly any demand for cultivation in this kaval. From all accounts I hear of it, it would make an excellent game preserve and, as suggested by the Conservator of Forests, may be handed over to the Forest Department as a reserved land to be handed back to the Revenue Department whenever required.

Heggaddevankote Taluk.

1. *Antarsante.*—There is a great demand for cultivation in this kaval. The raiyats of the neighbouring villages are very keen to take up every inch of this kaval for cultivation and the demand appears to be *bonâ fide*. In fact, the demand is much more than the supply. I inspected the kaval with the Forest Sub-Division Officer and found that there was not anything worth reserving by the Forest Department. The kaval is not wanted either for a plantation or for cultural purposes.

The kaval should therefore be reserved by the Revenue Department and be disposed of for purposes of cultivation.

2. *Krishnapur.*—This kaval, though small in extent, is wanted for cultivation by the raiyats of the neighbouring villages. There is neither date nor sandal in this kaval and it may well be thrown open for cultivation. There are a good many darkhasts for this kaval also.

3. *Malalli Jakkamballi Kaval.*—As in the case of the Antarsante kaval every inch of this kaval is wanted by the neighbouring villagers either for cultivation or grazing and the demand appears to be *bonâ fide*. There is no growth worth reservation either by the Excise or the Forest Department.

4. *Belaganahalli Kaval.*—I was not able to visit this kaval, although I was not far from it when I inspected the Savvee Tank, but the raiyats of Belaganahalli and other neighbouring villages represented that the lands would be taken up, if offered, particularly as there was a likelihood of a portion of the kaval being converted into wet, if the Belaganahalli Tank along with the Hanumanthapur Channel should be improved. This is a good tract for tigers, I hear, and may be handed over to the Forest Department as a reserved land for the present, on condition that the same will be handed back to us whenever required.

Revenue (Forest), dated 31st January 1910.

5 *Paduvakote Kaval*— I could not inspect this kaval though I was on the fringe of it when I inspected the Paduvakote tank The grass of this kaval is spoken of as of a very superior quality and cattle are reported to pick up their condition very soon when turned out in this kaval for grazing

A portion of this kaval may be made over to the Palace Department, as it is not far from their kaval known as Garikekatte kaval, on condition of their resigning Madhalli and Tippur kavals in Hunsur Taluk, in favor of the Revenue Department There is demand for cultivation in both the above kavals

The rest of the kaval may be given over to the Amrut Mahal Department, on condition of their giving us an equal extent of their kaval in Hunsur and Nagamangala Taluks for purposes of cultivation Nowl Kodi Kaval near Bettadapur, in Hunsur Taluk, is one of the kavals I have in view just this moment Its extent can be only very small, and to make up the deficiency the Amrut Mahal Department should be prepared to let us have other kavals either in Hunsur or Nagamangala Taluk to be named by us later on

Paduvakote is the biggest of all the kavals and can conveniently be apportioned between the Palace and the Amrut Mahal Departments

Although a very small portion of this kaval can be irrigated by the Hanumanthapur Channel, there is hardly any population close by to take up the lands at least for the present If necessary, such portion as is likely to be fit for wet cultivation may be demarcated and cut out of the kaval and reserved for future needs of the Revenue Department

If the Committee should submit its proposals to Government early and obtain sanction thereto, it may be possible to make these kavals available for cultivation before the next munga rains

A measurer or two will be required from the Survey Department to divide the kaval into convenient survey numbers before they can be disposed of

NOTE BY THE SUPERINTENDENT, AMRUT MAHAL DEPARTMENT

I inspected all the 18 kavals recently returned by the British Government Save the kavals already given for the use of the Palace the disposal of the others was considered at the meeting The kavals, *viz*, Krishnapur, Antarsante, Yenahalli and Belliganahalli are required by the ryots for cultivation I beg to take the liberty of bringing to notice what the ryots represented to me when I last inspected them In the neighbouring villages of these kavals, there are many poor ryots who possess no lands of their own They want them very badly but are afraid that if these kaval lands are divided into small numbers and sold in public auction, only the rich will take them up and the benefit of throwing open these kavals will not in any way help them They want a list prepared containing the names of such ryots and sell them for upset prices sufficient lands They do not require more than eight or ten acres each

Maur, Hodakaykatte, Hussainpur and Halebid Kavals contain toddy topes yielding large revenue to the Excise Department In these, as stated by the Deputy Commissioner in his memo, small portions of lands are available for cultivation, which are well situated so as to separate them from the thickly grown portions of toddy topes Of these, Hussainpur and Halebid being close to Mysore, may be entirely reserved for toddy topes to meet the growing demands of the Mysore City when other topes close to the city are exhausted Certainly the Excise Department will have no objection to allow the Amrut Mahal cattle to graze there so long as that Department can draw toddy from the trees as is now done in several kavals of this Department These four are hot weather kavals, and in case of meeting the requisitions for lands for cultivation in Amrut Mahal kavals of the Deputy Commissioners of the Mysore and Hassan Districts who want Nul kodi" and 'Kallodayhole Kavals in Hunsur and Hole Narsipur Taluks respectively, these four kavals will be good acquisitions to this Department in lieu of the above Now these kavals are placed at the disposal of the Department as a temporary measure As they cannot be given out for cultivation on account of the thick growth of toddy trees, they may remain so, allowing free scope to the Excise Department to draw toddy

The other two kavals, *viz*, Pudukote and Panjahalli, besides the above four, are also required for the Amrut Mahal cattle

The Committee at its final meeting decided to place Pudukote Kaval at the disposal of the Amrut Mahal Department The Government were pleased to order Panjahalli Kaval to be reserved for cultivation, but there is no demand for cultivation in that as it is situated in the middle of forests and far away from villages

At the meeting the Conservator of Forests observed that it was not required for forest cultural purposes, as the soil was not good for trees to grow there and trees now standing being fit for fuel felling The grass in this as well as Pudukote kaval is very good for cattle Therefore when Amrut Mahal cattle go to the jungle in the summer they can be grazed there is water and fodder are available there and as both of them being commanded by Hanumanthapur Channel of the Lakshmanthirtha river During the continued drought of the past two years, these two proved very useful for the Government cattle, and if not for them, the mortality would have been very high

In these circumstances, I beg to suggest that they may be reserved for the exclusive use of the Amrut Mahal cattle subject to the management of the Forest Department

There is no ground for the Conservator's apprehension that the forest growth in the kavals will be extirpated if they are given away to the Amrut Mahal Department These are not the only jungle kavals in their possession but there are many others They may be compared with the reserved forests Forest growth is very necessary for the cattle, so the Department has been trying all along to preserve the trees and in the kavals having no trees the same have been planted So in the maidan districts extensive forest growth is only found in the Amrut Mahal Kavals and this alone is a proof to think otherwise On the contrary the growth of trees in these kavals will be improved, for

the cattle will graze away the undergrowths and grass and give more room for the trees to grow freely. Besides, there is no danger of fire in the hot season.

Mr. Muthanna in his memo shows the extensive area under the Amrut Mahal Department. These kavals are not only useful to the Department but also to the adjoining raiyats who graze their cattle more or less in these kavals on the ground of having returned them to Government claiming no compensation when the Department was re-established, besides paying a fee which amounts to Rs. 3,600 per annum. The indirect benefit derived from these kavals and the Amrut Mahal cattle by the raiyats cannot be expressed in words. Besides, these kavals are not only useful to this Department but also to the Excise and Forest Departments, who do not spend anything either in the shape of conserving or improving tree growth. Yet the Forest Department enjoy the major portion of the revenue of these kavals, which, including the revenue of the Excise Department, is about Rs. 1,00,000. All the Forest Rules are in force in the Amrut Mahal Kavals and the Forest Department have got full scope to exercise the same. So there is no ground to apprehend any destruction of trees though these are given to the Amrut Mahal Department which enjoy only the right of grazing leaving the rest being managed by the Forest Department which can declare them as Forest Reserve or District Forest as they like and look to the forest growth. As regards the claims of this Department for the kavals now asked for, I have already stated in my memo submitted for the information of the Committee and I again give below the extensive kavals already placed at the disposal of the Revenue Department for cultivation for the last few years. If the six kavals now asked for are left at the disposal of this Department, there will be no difficulty for taking up any portion of land in them for cultivation:—

No. R. 5252-58—Ft. 71-09-4, dated Bangalore, 31st January 1910.

Order thereon.—The Government are pleased to accept the recommendations of the Committee and as detailed in the reports of the Committee and summarised in para 4 of the Revenue Commissioner's letter read above. The Conservator of Forests in Mysore and the Excise Commissioner are requested to arrange in consultation with the Deputy Commissioner for marking off the portions to be set apart as reserved lands and date groves. The whole of the kavals will then be divided into suitable survey numbers by the Survey Department and the portions available for cultivation assessed and disposed of at upset price or by auction as suggested by the Committee.

2. Para 4 of the Conservator's minute dated 26th June 1909, will be commended to the consideration of the Assistant Commissioner in charge of the Palace Establishments.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Excise Commissioner in Mysore.
The Conservator of Forests in Mysore.
The Superintendent, Mysore Revenue Survey and Settlement.
The Military Secretary in charge of the Amrut Mahal Department.
The Deputy Commissioner, Mysore District.
The Officer in charge of the Palace Establishments in Mysore.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 425, dated the 8th December 1909, from the Deputy Commissioner, Mysore District:—

"Adverting to Government Proceedings No. 26-06-8—G. F. 179-09, dated 27th November 1909, sanctioning a further advance of six months' pay to Mr. C. Sreekanteswara Iyer, Deputy Commissioner, Kolar District, to complete the construction of his house in the Lakshmipuram Extension of the Mysore City and directing me to take a collateral security, I have the honor to state that the form of the mortgage deed now in use is so worded that it does not admit of the collateral security being taken in the same bond. I therefore request to be informed if two separate bonds have to be executed, one in the prescribed mortgage deed form by Mr. Sreekanteswara Iyer and the other by Mr. K. Krishna Iyer, the State Huzur Treasury Officer, who has consented to stand as surety for the former. In that case, I request the favor of your kindly forwarding to me a form of the security bond prescribed by Government in their Proceedings No. Fl. 1894-934—Ml. 478-06, dated 9th October 1909. If two separate bonds are to be secured in cases in which personal securities are to be taken, the parties concerned have to pay stamp duty and registration fees on both the documents. I therefore request that you will be so good as to issue very early definite instructions in the matter."

No. FL. 3211-51—G. F. 179-09-7, DATED BANGALORE, 10TH JANUARY 1910.

ORDER THEREON.—Government are pleased to direct that the form of the mortgage bond drawn up by the Government Advocate and appended to this Order be used in cases of the kind referred to in the letter read above.

2. The Superintendent, Government Press, is requested to print the form and supply Deputy Commissioners with as many copies as they may require.

J. S. CHAKRAVARTI,
Financial Secretary.

To—The Comptroller, Mysore Government.
The Deputy Commissioners of Bangalore, Mysore and Shimoga.
The Deputy Commissioners of other Districts.
The Heads of Departments.
The Superintendent of the Government Press.

FORM OF MORTGAGE BOND IN CASES OF HOUSE BUILDING ADVANCES.

THIS INDENTURE made the.....day of.....One Thousand Nine Hundred and..... BETWEEN A. B. of.....of the first part and C. D. of.....of the second part and the DEWAN OF MYSORE of the third part: WITNESSETH that under the orders of the Government of Mysore contained in Proceedings No....., dated....., and in consideration of the sum of Rupees ..... paid to the said A. B. by the said Dewan of Mysore (the receipt whereof the said A. B. doth hereby acknowledge) for the purpose of enabling the said A. B. to defray the expenses of building a suitable house for his own residence in.....he the said A. B. and his surety, the said C. D., do hereby, jointly and severally for themselves, their heirs, executors and administrators covenant with the said Dewan of Mysore and his successors that the said A. B. and C. D., their heirs, executors and administrators will pay unto the said

Dewan of Mysore, his successors or assigns the said sum of Rupees.....on the .....day of.....next*; AND THIS INDENTURE ALSO WITNESSETH that for the consideration aforesaid he the said A. B. doth hereby convey unto the said Dewan of Mysore his successors and assigns ALL that piece of land situated in the.....district of.....registration district of .....and sub-registration district of..... containing.....more or less bounded on the North by..... on the South by..... on the East by..... and on the West by..... together with the dwelling house and the out-offices, stables, cook-rooms and out-buildings of all kinds used or intended to be used with the said dwelling house lately erected† together with all rights, easements and the appurtenances to the same or any of them belonging: TO HOLD the said premises unto the said Dewan of Mysore, his successors and assigns absolutely as his and their own property: PROVIDED always that if and as soon as the said sum of Rupees.....shall have been repaid by the deduction of monthly instalments of the salary of the said A. B. as in the said order mentioned or by any other means whatsoever then the said Dewan of Mysore, his successors and assigns will at any time thereafter upon the request and at the cost of the said A. B., his heirs, executors and administrators and assigns, reconvey the said premises unto the said A. B., his heirs, executors, administrators and assigns or as he or they shall direct: AND it is hereby declared that if the said A. B. shall die or quit the service before the said sum of Rupees.....shall have been fully paid off then and in either of such cases it shall be lawful for the said Dewan of Mysore, his successors or assigns to sell the said premises or any part thereof either together or in parcels and either by public auction or by private contract with power to buy in or rescind any contract for sale and to resell without being responsible for any loss which may be occasioned thereby: AND TO DO and to execute all such acts and assurances for effectuating any such sale as the said Dewan of Mysore, his successors or assigns shall think fit: AND it is hereby declared that the receipt of the said Dewan of Mysore, his successors or assigns for the purchase money of the premises sold or any part thereof shall effectually discharge the purchaser or purchasers therefrom: AND it is hereby declared that the said Dewan of Mysore, his successors and assigns shall hold the moneys to arise from any sale in pursuance of the aforesaid power UPON TRUST in the first place thereout to pay all the expenses incurred on such sale and in the next place to apply such moneys in or towards satisfaction of the moneys for the time being owing on the security of these presents and then to pay the surplus (if any) to the said A. B., his heirs, executors, administrators or assigns: AND it is hereby declared that the said order shall be deemed and taken to be part of these presents.

* Two years from the date of commencement of repayment of the loan

† Where the house, offices, etc., have not yet been erected or are in course of being built, "for lately erected" substitute "hereafter to be erected" or "now being erected" as the case may be.

IN WITNESS whereof the said A. B. and C. D. and.....by order of the Deputy Commissioner of the.....District on behalf of the said Dewan of Mysore have hereunto set their hands the day and the year first above written.

Signed by the said A. B. and C. D. and.....in the presence of

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 4th January 1910.

READ—

Correspondence ending with letter No. 10351, dated 18th May 1909, from the Excise Commissioner in Mysore, in the matter of the delegation of powers to the Excise Commissioner to sanction remissions and refunds of excise revenue.

No. FL. 3109-18—S. R. 227-09-6, DATED BANGALORE, 4TH JANUARY 1910.

ORDER THEREON.—The Excise Commissioner asks for powers to sanction (*a*) remission to the extent of Rs. 50 in each case and (*b*) refunds to the extent of Rs. 300 in each case. He also explains that the proposed delegation refers to the remission chiefly of irrecoverable arrears of excise revenue and the refund of sums wrongly demanded or recovered.

2. Government are pleased to delegate to the Excise Commissioner (1) the power to sanction refunds up to Rs. 200 in each case without limitation as to the class of cases and (2) the power to grant remission of amounts not exceeding Rs. 50 in each case, only in respect of items of excise revenue definitely ascertained to be irrecoverable. In all other cases the orders of Government should be obtained beforehand.

3. A quarterly statement of remissions and refunds sanctioned by the Excise Commissioner should be submitted to Government.

C. S. BALASUNDARAM IYER,
Offg. Secretary to Government.

To—The Excise Commissioner in Mysore.
The Comptroller, Mysore Government.
The Deputy Commissioners of Districts.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 4th January 1910.

READ—

Letter No. 2773, dated 21st September 1909, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim to the toddy excise revenue of Sarvamanyam Tadagavadi village, Seringapatam Taluk.

No. FL. 3107-8—S. R. 70-09-2, DATED BANGALORE, 4TH JANUARY 1910.

ORDER THEREON.—The village has neither a toddy shop nor a date grove. The Inamdar has admitted that he never before enjoyed any revenue from this source, and he has failed to substantiate his claim in spite of all facilities afforded to him. The claim is, therefore, rejected.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Excise Commissioner, returning record.
The Comptroller, Mysore Government.

Exd.—C. P. S.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 10th January 1910.

READ—

Correspondence ending with letter No. 3230, dated 6th October 1909, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim of toddy excise revenue of Jodi Iggali village, Nanjangud Taluk.

No. FL. 3204-5—S. R. 12-01-4, DATED BANGALORE, 10TH JANUARY 1910.

ORDER THEREON.— No sannad or other document has been produced to show that the excise revenue of the village was alienated to the Inamdar under proper authority. The words used at the Inam Settlement conducted in 1879-80, are not free from ambiguity and would appear to import that the Inamdar was allowed to lease the trees to Government contractors. No evidence in respect of enjoyment has been adduced for nearly ten years prior to 1892-93. Nor are there any peculiar features in the case such as would justify a special treatment of the claim under Rule 20 of the Rules of 2nd August 1901. Government are therefore of opinion that the right has not been established.

2. The amount that has been advanced to the Inamdar should be recovered and credited to Government.

C. S. BALASUNDARAM IYER,

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 15th January 1910.

READ—

The Report on the Administration of the Stamp Department for the year 1908-09, received with letter No. Camp A, dated 28th October 1909, from the Commissioner of Stamps in Mysore.

No. FL. 3360-9—S. R. 89-09-7, DATED BANGALORE, 15TH JANUARY 1910.

ORDER THEREON.—The Stamp revenue for the year was Rs. 8,47,921, being the highest yet recorded. Both the heads of revenue, *viz.*, general and court-fees, have contributed to this increase. The tendency towards a steady increase under general stamps is noticeable during the last six years.

2. The old three-pie paper that was in circulation was withdrawn during the year, owing to complaints about its quality; and a new paper of azure colour and of better finish and greater durability was introduced.

3. Government observed in their review of last year's report that the work of inspection done by the *ex-officio* Stamp Inspectors (appointed under Government Order No. Fl. 9083-125—S. R. 140-06-2, dated 8th June 1907) left much to be desired. Except in the Kolar District, where the work was entirely neglected, there was a noticeable improvement in this branch of work during the year under review, the Inspectors having inspected as many as 59 offices in all. Government trust that the Department will be able to show even better results in the next year.

4. It is reported that the facilities provided for the supply of stamps of various kinds to the general public are adequate throughout the State.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 19th January 1910.

READ—

Letter No. 3233, dated 6th October 1909, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim to the toddy excise revenue of Jodi Byandahalli village, Nelamangala Taluk, Bangalore District.

NO. FL. 3404-5—S. R. 80-09-2, DATED BANGALORE, 19TH JANUARY 1910.

ORDER THEREON.—The village has only a date grove but no toddy shop. No sannad is produced to show that toddy excise revenue was expressly alienated to the Jodidar, and the Inam settlement conducted in 1875 has reserved the "abkari" revenue to Government. Neither has proof of enjoyment of this revenue by the Jodidar been produced. Concurring, therefore, with the Excise Commissioner, Government hold that the claims should be disallowed.

2. A sum of Rs. 28-2-8 much in excess of the one-fifth of the grove farm rent due to the Jodidar has been advanced to him. The excess payment should be recovered and adjusted.

3. As regards the failure on the part of the Inamdar to furnish an authenticated copy of the Inam Register of enquiry, the Order of Government No. Fl. 1415-24—S. R. 6-08-4, dated 12th September 1908, on the subject, is clear that the duty of producing the copy rests exclusively on the Inamdar himself.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The Report on the Administration of the Excise Department for the year 1908-09, received with the Excise Commissioner's letter No. 3020, dated 30th September 1909.

No. FL. 3432-41—S. R. 78-09, DATED BANGALORE, 19TH JANUARY 1910.

ORDER THEREON.—The important administrative changes introduced during the year were the following :—

(i) Separate licenses were issued for the sale of the special liquors manufactured in the Government Central Distillery, Bangalore, on a fixed fee of Rs. 60 per annum per shop.

(ii) On a representation made by the members of the Representative Assembly, the term of the lease of date toddy shops was extended to three years in certain taluks as an experimental measure.

(iii) Rules were issued to regulate the import, transport and export of opium and allied drugs from one portion of British territory to another through intervening Mysore Territory.

(iv) The provisions of the Mysore Excise Regulation were extended to the drug called 'Novocaine.'

(v) The powers of Government under Section 6 of the Excise Regulation to regulate the import of intoxicating liquors and drugs were delegated to the Excise Commissioner.

(vi) Sanction was accorded to the opening of a school in Bangalore to train Excise staff in technical matters connected with the Department.

(vii) A second still was installed at the Central Distillery with a view to provide against the breakage of the existing machinery and for increasing the supply in the event of a larger demand arising for liquor.

The revision of rules regarding the tree-tapping licenses in respect of bagani trees to meet the requirements of the malnad raiyats, is under the consideration of Government.

2. The year under review recorded the highest Excise Revenue yet realised in the State, *viz.*, Rs. 43,72,807 against 41,85,771 in 1907-08. The increase was contributed to by all the different heads of Excise Revenue except country beer. Under toddy the increase was noticeable both under shop-rentals and tree-tax, and showed, incidentally, that the fall in revenue under the former head in the previous year was due solely to the fears entertained by the licensees about the effect of the enhancement of tree tax in respect of both bagani and date trees. The result has shown that the tax is not pressing hard on the classes that resort to this comparatively innocuous drink.

3. This increase in the total Excise Revenue of the State has not been obtained by unduly increasing the facilities for drink to the people. On the other hand, there has been during the year a reduction in the total number of excise shops of all kinds (*viz.*, of 173 in toddy, 36 in arrack, 21 in foreign liquor, 23 in akkibhoja, 2 in ganja and 4 in opium),.

4. The real explanation for the increase in revenue is to be sought for partly in the enhanced rate of tree tax and partly in the increase in the total number of trees that had to be tapped on account of their diminished yield owing to the drought that prevailed in the State, as also in the more effective steps taken to put down illicit manufacture of excise articles and particularly of arrack and ganja. There is reason to believe that these malpractices are still rife in parts of the Shimoga and Kadur Districts and there is reason to believe that malpractices of another kind, *viz.*, dilution of liquor and short measurement, etc., are also prevalent in arrack shops in Kolar, Tumkur, Kadur, Shimoga and Chitaldrug Districts, as may be seen from the otherwise inexplicable fact that the incidence of shop rental is either very

Financial, (Separate Revenue) dated 19th January 1910.

nearly equal to or in excess of the margin of profit allowed to the vendors. It is evident that sustained Departmental vigilnace is called for.

5. The Excise Commissioner brings to the notice of Government the necessity for the speedy construction of buildings for bonded warehouses throughout the State. Government recognise the necessity for these buildings, but as the outlay involved is considerable, progress in the direction indicated can only be gradual. The matter is engaging their attention.

6. It is seen from the report that out of the date plantations existing in the State those in the taluks of Kunigal, Goribidnur, Kolar, Magadi, Arsikere and Hole-Narsipur are thriving well, but no details are available to judge whether they can all be regarded as successful. Government will be glad to have a report in the matter from the Excise Commissioner.

7. The *amani* cultivation of ganja was taken up by the Department during the year under review, as the system of cultivation through raiyats did not prove the success it was expected to be. It is of the greatest importance that the quality of the local drug should not be inferior to what is grown elsewhere, and Government are watching with interest the experiments which the Department have now undertaken in the matter.

8. On the whole, the report is a record of progress all round and Government are glad to acknowledge the satisfactory manner in which Mr. Sparkes has administered the Department during the year.

READ—

Letter No 544—A. B. 78, dated 11th October 1909, from the Inspector of Agricultural Banks:—

"I have the honor to submit my report on the working of the Agricultural Banks in the State for the year ended 30th June 1909.

2. To obviate any delay on the part of the Deputy Commissioners in the furnishing of statistics relating to the Agricultural Banks, I thought it better this year to address the several Amildars on the subject. Some of them, though late, furnished me with certain statistics as prepared by the Banks but these were found very defective The information was found to be in most cases meagre and incorrect and had largely to be supplemented by the information available in this office.

3. The tables that are to accompany the report as per Government Order No R 2558-66, dated the 10th December 1901, were found to be too elaborate, and the detailed information contained therein could not be obtained from the Banks in their present condition

4. *Working Banks.*—The number of Banks working during the year under report was further reduced from 28 to 20, eight Banks, namely, those at Sulikunte, Billankote, Tyamagondlu, Biderguppe, and Attibele in the Bangalore District, Kadagathur in the Tumkur District, and Sargur and Kaggala in the Mysore District having been ordered to be wound up by Government. The working Banks are distributed as follows —

District	Number in 1907-08	Number in 1908-09
Bangalore	5	
Kolar	1	1
Tumkur	8	7
Mysore	6	4
Shimoga	8	8
Hassan	.	..
Kadur	. .	...
Chitaldrug	..	
Total ...	28	20

5 *Villages sought to be benefited.*—The number of villages sought to be benefited was reduced from 358 to 184 in consequence of the reduction in the number of the working Banks.

6. *Registered limit of funds.*—The total registered limit of funds of the Banks working during the year was likewise reduced to Rs. 2,86,385-0-0, as against Rs 5,52,385-0-0 of the previous year.

7. *Funds how obtained.*—The Government loan was supplemented to a small extent by deposits from members in the case of the following Banks: Hongenhalli (Kolar District), Gulur, Ariyur, and Haldoderi, (Tumkur District); Palhalli and Kyathanahalli (Mysore District). These deposits aggregated Rs. 5,298-14-1, out of which a sum of Rs. 5,064-13-8 was repaid to the members The deposits attracted by the Banks were disproportionately small as compared with the large loans advanced to them by the Government.

8. *Number of members* —The total number of members was 489 at the beginning of the year None of the Banks admitted any new members with the exception of Palhalli Bank where only one case of fresh admission is shown The number of withdrawals was 73, leaving 417 on the roll at the close of the year.

9. *Property of members.*—The total estimated value of the property mortgaged to the several working Banks was Rs. 5,67,954 as against Rs 7,38,860-14-0 of the previous year. The revised register of property to which I made a reference in my report for the year 1907-08 is being got ready. I have received no information, however, as yet from the several taluks as to the stage in which this important work is at present

10. *Receipts and disbursements.*—The total receipts amounted to Rs 80,431-4-4, and the disbursements to Rs. 79,687-8-7, as against Rs 95,938-12-1 and Rs 94,017-2-9 of the year previous respectively. The largest receipts and disbursements were in the Palhalli Bank, *viz.* Rs. 21,324-13-8 and Rs 21,322-11-10 respectively.

11. *Loans to members.*—A sum of Rs. 35,924-7-10 was lent out to members, while that returned by them was Rs. 40,332-1-10. The corresponding figures for the last year were Rs. 26,986-8-0 and Rs. 50,679-13-8 respectively.

The purposes for which the loans were granted could not be ascertained from the Banks, for the members are not generally required to mention the purpose also in their loan applications, and it has been found that, when it is tried to do so, the members often make no scruple in entering fictitious purposes. The cash in hand in all the Banks put together amounted to Rs. 743-11-9, which is not at all satisfactory. This shows that almost all the available capital has been used up by most of the directors in long-term loans, and not kept in a liquid form.

12. *Income of Banks.*—The only source of income of the Banks was the interest received on loans granted to members together with fines and penalties levied by the Banks for defaults. The total income realized by the several Banks aggregated Rs. 12,041-6-5, which was spent mostly for repaying the interest due on the Government loan. The managing members almost always spend large sums on establishment and other contingent charges. By my constant objections to such items of expenditure the amount has been much reduced of late.

13. *Assets and liabilities.*—The total assets of the Banks amounted to Rs. 83,520 and total liabilities to Rs. 71,237.

14. *Payment of interest on Government advances.*—The total amount of interest paid by the working Banks during the year under report, was Rs. 2,387-2-10 as against Rs. 8,568-9-3 of the previous year, while that paid by the wound-up Banks was Rs. 8,813-14-3 as against Rs. 22,122-6-3 of the year previous.

15. *Repayments of instalments.*—The subjoined table shows approximately the total amount of instalments paid up to the end of the year and the balance still due from the several working and wound-up Banks separately :—

Instalments	Amount due	Amount paid	Amount of balance
	Rs. a. p.	Rs. a. p.	Rs. a. p.
1907-08	5,54,411 15 1	3,97,589 7 0	1,56,822 8 1
1908-09	6,13,067 10 8	4,66,368 1 10	1,46,699 8 10

The amounts of principal paid into the Treasuries by working and wound-up Banks, respectively, are exhibited below :—

	During the year	Working Banks	Wound-up Banks.
		Rs. a. p.	Rs. a. p.
Principal ...	1908-09 ...	13,301 14 4 ...	55,543 4 6
	1907-08 ...	32,501 4 6 ...	72,621 2 6

This year the decrease in the amounts repaid is attributable to the general distress that prevailed throughout, on account of which repayments in several instances were allowed to be postponed, notably in the case of Attibele, Biderguppe, Closepet, Tyamagondlu (Bangalore District) French Rocks (Mysore District) Tadagani (Shimoga District), and Hongenahalli (Kolar District) Agricultural Banks.

The following Banks did not repay anything towards principal beyond contributing a small portion towards interest:—Mudavatti, Thippenhalli, Sabbanhalli (Kolar District), Ardikoppa and Sakrepatna (Kadur District), Gensinkuni and Gogga (Shimoga District), Mavinkere and Nonavinkere (Tumkur District). The new liquidator of Thippenhalli Bank has reported that the auditing of accounts of the Bank is just over. A similar report has been received from the Deputy Commissioner, Kadur District, regarding the auditing of the accounts of Sakrepatna and Ardikoppa Agricultural Banks. It is hoped that during the next year the recovery of instalments outstanding against these Banks will be better.

The monthly statement received by me from the taluks showing the several stages of recoveries of Government loan, and which was sanctioned in Government Order No. G. 5634-5—G. M. 37-08-58, dated 31st March 1909, has been a most useful means of stimulating action on the part of the taluk officers and bringing defaulters to book early.

Financial (Banking), dated 6th January 1910.

16. *Inspection.*—The following Agricultural Banks were inspected once during the year by the respective Sub-Divisional Assistant Commissioners :—Gulur, Ariyur, Rampur, Mavinkere and Haldodderi (Tumkur District) ; Siralkoppa, Tadagani, Salur and Churchgundi (Shimoga District). I inspected the Agricultural Banks at French Rocks, Kyathanahalli, Kaggala, Sargur and Kyathasandra.

17. *General remarks.*—Of the working Banks, only three, *viz.*, those at Palhalli, Haldodderi and Hongenhalli, may be said to have done any business worthy of the name. These are the only Banks which have been punctually paying up their dues to Government; but I cannot say that their existence will continue after the Government loan is fully discharged. The Bank at Nanjangud is striving to serve the purpose contemplated in Article 56 of the Articles of Association. But it took a wrong step in utilizing a portion of its reserve in the purchase of a land from its agent in satisfaction of his dues to the Bank and in cultivating it to the common advantage of its members. Government, however, have recently ordered in their Order No. Fl. 1091-9—B. 51-08-2, dated 16th August 1909, that the land should be sold and that the reserve should be held in cash.

No. Fl. 3155-64—B. 26-09-2, dated Bangalore, 6th January 1910.

Order thereon.—Recorded.

2. The attention of the Deputy Commissioners is invited to para 9 of the letter read above and they are requested to see that the work therein referred to is completed without further delay.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

1, Government Proceedings No. J. 2038—C. 156-2, dated the 25th January 1905, sanctioning the revised rules and forms relating to the Central Nazarath system as recommended by the Chief Court.

2. Government Proceedings No. J. 2549-51—Cts. 142-06-3, dated the 22nd February 1907, directing that the scheme sanctioned in the Government Order read above be tried for a period of two years, and requesting the Chief Court to submit at the end of that period a report as to the results of the working of the system.

3. Subjects Nos. 45 and 46 of the Proceedings of the Representative Assemblies of 1908 and 1909, respectively, and the replies of Government thereto, in the matter of the modification of the Central Nazarath system :—

SUBJECT NO. 45 OF 1908.

Summary of discussion.—1. Under the Central Nazarath system Civil Court processes are not served in time upon parties and the consequence is delay in the disposal of cases which causes much inconvenience and trouble to the parties. The system may be modified.

2. In the present working of the system, the number of processes that are being returned unserved is increasing. The system of disbursement of batta now in vogue necessitates the deposit of batta twice or thrice, though the amount first deposited may not have been utilized. The revival of the old system is, therefore, necessary.

Reply of Government.—1. Will be considered after February 1909.

2. The Chief Court will enquire into this matter.

SUBJECT NO. 46 OF 1909.

Summary of discussion.—(*a*) Under the Central Nazarath system, the Civil Court processes are not served upon the parties and witnesses in time and this leads to delay in the disposal of cases. Pray for the modification of the system.

(*b*) (i) In reply to Subject No. 27 of 1906, *viz.*, that the process servers of the Civil Courts give a lot of trouble to parties in civil cases, it was stated that the question was referred to the Chief Court. Final orders may be passed early.

(ii) These process servers may be required to obtain the signatures of patel and shanbhog of every village wherein the processes are served on the parties.

(*c*) The rule whereby parties are required to deposit fresh batta, whether the previous deposit was spent or not, works as a hardship on the parties. The Central Nazar may be directed to certify on each process whether the batta was or was not spent. If it is known, when the case was taken up, that the batta was not spent, the party will simply pay the process fee and request that the unspent batta may be utilized.

If the issue of summonses within a week after the party gives his statement in Civil Courts is not secured, 2½ times the fees otherwise payable are levied. This puts parties to heavy loss. At least ten days' time may be granted if the date of hearing should be after a month and only double the fees levied as penalty for delay.

Reply of Government—Under consideration.

(4) Correspondence ending with letter No. 1581-84, dated the 7th October 1909, from the Registrar of the Chief Court of Mysore, on the same subject.

No. J. 1904-5—CTS. 256-08-4, DATED BANGALORE, 17TH JANUARY 1910.

ORDER THEREON.—I. The Central Nazarath system was for the first time introduced into the Shimoga Division in October 1896 as an experimental measure for a period of one year. The object of the scheme was to effect economy of labour by avoiding the simultaneous working over the same area of process servers attached to different Courts. The Chief Court having reported that the system was working satisfactorily at Shimoga, Government in December 1897 sanctioned its permanent retention there and its extension to the other two civil divisions of the State. These establishments were placed under the immediate direction of the Central Nazars and the control of the Munsiff in Shimoga and the Principal Munsiffs in Bangalore and Mysore. The new system did not, however, give satisfaction to the public and complaints against it became frequent. The Government therefore requested the Chief Court in July 1904 to effect such improvements as, on investigation, might be found desirable to place the system on a more satisfactory basis.

Judicial and Legislative (Courts), dated 17th January 1910.

The Chief Court accordingly proposed certain alterations in the rules which were sanctioned by the Government in January 1905, the chief change introduced thereby being the placing of the Central Nazars and their establishments under the control of the District Judges instead of the Munsiffs.

II. Government observe that the complaints against the system have not diminished and that its modification or abolition is being constantly urged in the Representative Assembly. On a careful consideration of the subject, the Government are of opinion that the following changes in the present system will meet the objections urged against it and at the same time help to retain the advantages of combination of Courts having to do work in the same area:—

(1) The process establishments at Bangalore and Mysore shall be divided between the Courts of the Principal Munsiff and the Additional Munsiff and placed altogether under those officers, the whole establishment at Shimoga being transferred to the Munsiff at that place.

(2) The District and Subordinate Judges' Courts will have no separate establishments, but all the processes issued from their Courts shall be served by the process establishment under the Munsiffs within whose jurisdiction the place of service lies.

(3) Where the Subordinate Judge's small cause work is heavy, he may have a separate establishment for serving processes within his jurisdiction.

III. The Chief Court are requested to submit for the approval of Government, Draft Rules on the lines indicated above with such other subsidiary proposals as may be necessary for fully bringing the altered scheme into effect at an early date.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Registrar of the Chief Court of Mysore.
The Comptroller to Government.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Courts), dated 19th January 1910.

READ—

Report on the Administration of Criminal Justice in Mysore for the year 1908-09, received with Letter No. 1396—74, dated the 29th September 1909, from the Registrar of the Chief Court of Mysore.

No. J. 1912-20—CTS. 85-09-3, DATED BANGALORE, 19TH JANUARY 1910.

ORDER THEREON.—*General.*—On account of continued distress in the State during the greater part of the year under review, the Government invested certain Munsiffs and Subordinate Judges with Magisterial powers temporarily in order to enable Revenue officers to devote more time to work connected with the relief of distress. With the same object in view, three Taluk Sheristadars, three Sub-Registrars and three Revenue Probationers were invested with powers of Magistrates of the Third class. Orders were also passed during the year, sanctioning as an experimental measure the appointment of Honorary Magistrates for the Towns of Bangalore and Mysore; but these did not begin to sit till after the close of the official year.

2. *Offences.*—The number of offences reported during the year was 1,332 more than in the previous year. The increase was due partly, no doubt, to the unfavorable character of the seasonal conditions. Government are glad to note, however, that, in spite of the increase in the number of cases for disposal, their average duration in Magisterial Courts decreased considerably.

3. *Convictions.*—The percentage of persons convicted to those brought up for trial before the Magistrates is reported to be 21·61. This figure has been arrived at by including among the total for disposal, cases that have not been disposed of by the Courts on the merits, namely, cases compounded or withdrawn and cases in which the accused were acquitted under Section 247 or discharged under Section 259 of the Criminal Procedure Code for default of prosecution. Such a method of calculation makes the percentage of convictions appear much lower than it actually is, and Government therefore desire that, in future statements, such cases be excluded from calculation in arriving at the percentage of convictions.

4. *Original work of the District Magistrates.*—Government regret to notice that District Magistrates continued to take little or no part in the disposal of original Criminal work. This is not as it should be. In the interests of efficient Criminal administration, it is absolutely essential that a part of the more important original criminal work of each district should receive the personal attention of the District Magistrate.

5. *Jury and assessors.*—The number of cases tried by jury and with the aid of assessors was 15 and 88 respectively; the presiding Judge approved of the verdict of the jury in 13 of these cases; and differed from them partly in one case and wholly in another. The Judge agreed with the assessors in 67 cases and differed from one assessor in 3 cases, from two in 12 cases, and from all the assessors in 6 cases. Trial by jury was confined to the Bangalore Division.

6. Government agree in the opinion of the Chief Court that, where short-term sentences are called for, Magistrates would be well advised to make greater use of the powers conferred on them by Section 562 of the Code of Criminal Procedure.

7. It is satisfactory to learn that there were no juveniles sentenced to imprisonment during the year.

8. It is observed that the present report is in a different form from that of the last one. Although the information given is nearly of the same kind, some explanation should have been given as to why the form was changed.

C. S. BALASUNDARAM IYER,

To—The Registrar, Chief Court of Mysore, returning the original reports of the District Magistrates.

The District Magistrates of Districts.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Courts), dated 24th January 1910.

READ—

Report on the Administration of Civil Justice in Mysore for the year 1908-09, received with letter No. 1390—73, dated the 29th September 1909, from the Registrar of the Chief Court of Mysore.

No. J. 2019—CTS. 84-09-3, DATED BANGALORE, 24TH JANUARY 1910.

ORDER THEREON.—The number of courts in the State, inclusive of the Chief Court, remained the same as in the previous year, *viz.*, twenty-three, and there was no change in the nature of the jurisdiction exercised by them.

2. *Original work.*—The year was marked by an increase in the number of suits filed, both original and small cause, and the increase was shared by all classes of Courts in the State. It has not been possible to state with any degree of accuracy what effect the distress that prevailed during the year had on the course of litigation. The increase in question was apparently the result of the steady upward tendency noticable during the last four or five years. The figure for the year, *viz.*, 20,443, is the highest recorded since the year 1901-02.

3. There was a slight increase over last year in the total number of original suits disposed of by the Courts, but this was not proportionate to the increase in the number of cases that came up for disposal. It is satisfactory to note, however, that, in the disposal of small causes, better progress was made, there being an increase in the percentage of disposals in spite of an increase in the total number of suits to be disposed of.

4. *Contested suits.*—The percentage of contested suits, original and small cause, to the total number of suits disposed of was very nearly the same as in the previous year, *viz.*, 28 per cent for the former and 18 per cent for the latter, as against 29 and 17 per cent, respectively, in 1907-08.

5. There was a decrease in the average duration of contested small cause suits from 96·20 days in 1907-08 to 93·68 days in the year under review. But it is a matter for regret that the duration of contested original suits rose from 118·81 days to 179·81 days. The reason for this increase is not explained.

6. *Execution work.*—There was a large increase in the number of execution applications returned as wholly infructuous. No less than 73·80 per cent of the total number has been shown under this category. This increase is explained as due to the distress that prevailed in the State, but Government observe that the corresponding figure for 1907-08 was also high, *viz.*, 62·17. Government will be glad if the Chief Court will consider whether the method of disposal of execution applications admits of any improvement.

7. *Appellate work (subordinate courts).*—The number of appeals against decrees disposed of by the District and Subordinate Judges was slightly less than the number disposed of in the previous year, but there was a satisfactory improvement in the average duration of appeals disposed of in the District Courts.

8. *Chief Court.*—The Chief Court was temporarily strengthened by the addition of a 4th Judge and, as might be expected, there was an increase in the disposal of both regular and second appeals.

Notwithstanding this improvement in disposal, the arrears in the Chief Court are yet heavy. This is reported to be due appeals in petty cases greatly blocking the progress of work. The proposals made by the Chief Court in the matter are engaging the attention of Government.

9. *Inspection work.*—It is noticed that during the year a fewer number of the Subordinate Courts was inspected by the Judges of the Chief Court than during the previous year. The courts in the Hassan District were not inspected either by the Judges of the Chief Court or by the District Judge of Mysore.

10. *The Central Nazarath.*—The working of the Central Nazarath system continues to be a subject of complaint on the part of the public. The question of suitably modifying it is under the consideration of Government.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Prisons), Judicial and Legislative, dated 19th January 1910.

READ—

1. Letter No. 1264—14-07, dated 27th August 1909, from the Inspector-General of Prisons in Mysore, bringing to the notice of Government a case in which two convicts of the Central Jail, Bangalore, Ranga and Bheema, were detained in the Jail for eleven days beyond the authorised period, owing to the failure of the Magistrate concerned to intimate to the Superintendent of the Central Jail the fact of the recovery of the fine imposed on the convicts.

2. Correspondence ending with letter No 276, dated 17th October 1909, from the District Magistrate of Tumkur, forwarding the explanation of the Magistrate, *viz.*, Mr. C. Venkata Rao, Assistant Commissioner and 1st Class Magistrate, Tumkur Division, and of the head clerk of the Magistrate's Court, S. K. Venkatanarayana Iyer, who were responsible for the omission.

No. J. 1932-42—PRIS. 20-09-4, DATED BANGALORE, 19TH JANUARY 1910.

ORDER THEREON.—Two men Ranga and Bheema were convicted by the Treasury Assistant Commissioner and 1st Class Magistrate of Tumkur on the 29th June 1908 in Criminal Case No. 62 of 1907-08 on the file of his Court, and each of them was sentenced to undergo one year's rigorous imprisonment and to pay a fine of Rs. 50, in default to undergo a further period of three months' rigorous imprisonment. Their substantive sentences expired on the 2nd June 1909 by virtue of remissions earned by them under the Mark rules and they were entitled to release from the Jail on that date as their relatives had paid to the Court, in April 1908, the fines imposed on them. This fact not having been communicated to the Superintendent of the Central Jail, the prisoners had to be detained there beyond the authorised period, and it was only when the Superintendent of the Jail, acting on information received from other sources, made a reference in the matter to the Magistrate, that the fact of payment of the fine was communicated to the Jail authorities. The convicts were released on the 13th June 1909 or eleven days after the due date.

2. Under Rules of Practice Nos. 12 and 23, dated 8th May 1879 and 10th August 1881, respectively, the head clerk of the Magistrate's Court was bound to report to the Magistrate concerned the fact of the recovery of the fines. It is stated in the head clerk's statement of explanation that this fact was brought to the notice of the Magistrate and the *challan* for remitting the money to the Treasury was signed by him. The Magistrate could well have instructed the head clerk that the fact of payment of fine should be intimated immediately to the Superintendent of the Central Jail. But he failed to do this, which he attributes to the pressure of work connected with the distress and his duties as Personal Assistant to the Deputy Commissioner. Government cannot accept such an explanation and are sorry to have to record their displeasure at the inattention of the Assistant Commissioner and 1st Class Magistrate (Mr. C. Venkata Rao) to one of his most important duties. Such mistakes would be inevitable unless the *challan* to the Treasury and the intimation to the Jail authorities are habitually both signed simultaneously.

3. Notice is also necessary of the conduct of the head clerk, Venkatanarayana Iyer, who was primarily responsible for the omission to place before the Magistrate for his signature the prescribed intimation to the Jail authorities. The explanation offered in mitigation of his conduct, *viz.*, that he was new to the work, cannot be accepted. Government direct that head clerk S. K. Venkatanarayana Iyer be fined one month's salary for his omission. If he has passed the test in the Criminal Codes, he would merit a severer punishment.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 586, dated 14th September 1909, from the Inspector-General of Registration in Mysore, submitting a report on the working of the Registration Department during the year 1908-09.

No. J. 1923-31—REGIS. 20-09-3, DATED BANGALORE, 19TH JANUARY 1910.

ORDER THEREON.—Recorded.

2. On a representation made by the members of the Representative Assembly, the rules regarding searches and inspections of documents in Registration Offices and those relating to the grant of encumbrance certificates were revised and the old practice of allowing the parties themselves to search the registers instead of the Sub-Registrar doing it was revived, the fee being fixed at Rs. 1-8-0 instead of one rupee for each entry or document for the first year in the books of which the search was made and four annas for every subsequent year.

3. The number of special and *Ex-officio* Sub-Registrars' Offices remained the same as in the previous year, *viz.*, 52 and 26 respectively. The Inspector-General has, in his report under review, raised the question of reviving the nine special Sub-Registry Offices, abolished with effect from the 1st January 1907. This matter should form the subject of a separate reference to Government.

4. There was an increase of more than 16 per cent in the total number of documents of all kinds registered during the year under review. The increase is said to be distributed over all the districts, the largest increase being in the districts of Mysore and Bangalore. The increase is attributed by some of the district officers to the unfavourable character of the season and by the Inspector-General mainly to a growing appreciation by the public of the benefits of registration. A comparison of the figures for the last twelve years shows that there has been an increase in eight years and a fall in four years. The figure for the year of review was the highest on record, and it is likely that both the causes indicated operated to increase the number of registrations during the period.

5. Consequent on the increase in the number of documents registered, the income of the Department rose from Rs. 1,48,959-9-0 in 1907-08 to Rs. 1,72,008-5-2 in the year under review, the increase being more than 15 per cent. The expenditure of the Department amounted to Rs. 84,398-7-4 against Rs. 82,735-1-0 in the previous year, the increase of Rs. 1,662-11-7 being due to the extra allowances granted to the smaller officials of the Department on account of dearness of food grains.

6. The number of applications for the transfer of Revenue Registry rose from 7,709 to 8,712, the percentage of such applications to the number of absolute sale deeds being 20·29 against 19·48 in the previous year. The percentage is still low and Government desire to call the attention of Deputy Commissioners to the remarks made in para 5 of their Review of the Report of the Registration Department for 1907-08.

7. Four prosecutions for making false statements and for false personation were instituted during the year. Two of them were disposed of in addition to the two shown as pending disposal at the end of the previous year. All these four cases ended in conviction.

8. All the Sub-Registry Offices except those at Bagepalli and Tarikere are reported to have been inspected during the year either by the Inspector-General, the District Registrars or the *Ex-officio* Inspectors of Registration. Some of the District Registrars are stated to have inspected very few offices in their respective districts, the District Registrar of Tumkur not having inspected even a single office. It is regrettable to find that Government had occasion to remark on the inadequacy of the inspection work done by the same District Registrar last year also.

Judicial and Legislative (Registration), dated 19th January 1910.

9. Government are glad to note that, in the opinion of the Inspector-General, the special Sub-Registrars are showing greater promptness in the disposal of their work.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector-General of Registration in Mysore.
The Deputy Commissioners of Districts.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Registration), dated 31st January 1910.

READ—

Letter No. 438, dated 25th September 1909, from the Deputy Commissioner of the Mysore District, requesting that, on account of heavy work in all the Departments under his charge, he may be empowered to transfer cases under Section 73 of the Registration Regulation to a specified Assistant Commissioner for disposal.

No. J. 2145-53—REGIS. 22-09-2, DATED BANGALORE, 31ST JANUARY 1910.

ORDER THEREON.—Government observe that the Registration Regulation does not confer any power under which District Registrars can be authorized to transfer cases falling under Section 73 of the Regulation for disposal to an Assistant Commissioner or other officer, nor do the Government consider it necessary to take any action in the direction of amending the Regulation so as to invest District Registrars with such a power.

2. The Inspector-General of Registration, who was consulted in the matter, brings to the notice of Government the delay in the disposal of Registration cases throughout the State. There may be some justification for this in the Mysore District, where the work is heavy, but there is none for the delay in the other districts. The District Registrars should see that such cases are speedily disposed of, and the Inspector-General of Registration will bring to the notice of Government cases of inordinate delay occurring in any district.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

The Deputy Commissioners of other Districts.

End—C V.

Proceedings of the Government of His Highness the Maharaja of Mysore,

R D—

, · · 249 dated the 28th October 1909, from the Inspector-General of Police in Mysore, submitting the Administration Report of the Police Department for the year 1908-09.

No. J. 2108-16—POLICE 82-09-2, DATED BANGALORE, 28TH JANUARY 1910.

ORDER THEREON.—During the year under review, two measures of administrative importance were introduced. The Investigation Centre Scheme which was introduced in 1907-08 into all the districts of the State except Bangalore and Mysore was extended to these districts. The scheme has not yet, however, been brought into operation in the two cities of Bangalore and Mysore, as a thorough re-organisation of the Police forces of these cities is under the consideration of Government. A Criminal Intelligence Department consisting of three Inspectors, two Jamadars and six constables, was organised during the year as a temporary measure for dealing with organised crime and for assisting the local Police in the investigation of special or difficult ca es. The Police Bill which had been under the consideration of Government was passed into law during the year.

2. *Crime and detection.*—The year was marked by an increase of crime in the State as a consequence of the distress that prevailed during the year. The increase is, however, only about 18 per cent over the figures for 1907-08. Government note with satisfaction that a noticeable improvement in detection coincided with this increase of crime. The increase in the volume of crime was largely in minor offences against property. There was no appreciable increase in the amount of serious crime in the State. Nevertheless it is a matter for regret that out of the 26 cases of murder reported from the districts of Mysore, Hassan and Kadur and the French Rocks Circle, not one ended in conviction. As rightly observed by the Inspector-General, the result is highly discreditable to the Police administration of those districts.

Government note with regret that cattle thefts in the State were on the increase. This species of crime, which has increased with the expansion of trade in hides and skins, has become a serious menace to the agricultural population of the State and no efforts should be spared to bring the offenders to justice. Government are glad to note that the Inspector-General is alive to the necessity of continued vigilance on the part of the Police in suppressing this class of offences.

3. *Recovery of stolen property.*—With the improvement in detection, there was a corresponding improvement in the value of stolen property recovered. Nevertheless it has to be remarked that the proportion of property recovered to that lost (*viz.*, 36·8 per cent) is yet very low. Government desire to impress on all Police officers that their duty does not end with the mere detection of the offenders and that the value of property recovered is an equally important criterion for judging their general efficiency.

In regard to the treatment of cases reported in Form B by the Police, the attention of District Magistrates is invited to the remarks of the Inspector-General of Police at para 12 of the report under review.

4. *Improvement of the force.*—In para 10 of the summary to his report, the Inspector-General of Police remarks that for the improvement of the *morale* of the subordinate Police officers, it is necessary that young men of good educational qualifications should be attracted to the Police service. With this object, he appointed one graduate and five matriculates as Jamadars and four graduates and one matriculate as Inspectors, without prejudice to the claims of deserving men already in the Department. Government approve of the action taken by the Inspector-General.

The Inspector-General recommends that as educated young men are being largely entertained in the Police Department, the experiment of divesting the Amildars of their Police powers, which has been found to work well in the Bowringpet Taluk, may be extended to one or two selected taluks in each district. This matter was carefully considered by a Committee of some of the most experienced officers of the

Judicial and Legislative (Police), dated 28th January 1910.

State appointed in 1904 to examine the Draft Police Bill and again recently by the Legislative Council, when that Bill came before it for discussion. The weight of opinion, both official and non-official, was decidedly against the change now advocated by the Inspector-General of Police and Government are of opinion that no grounds exist to warrant a reconsideration of the decision thus arrived at.

5. *Village Police and its work.*—Government are glad to note that the Village Police co-operated with the Regular Police to a larger extent than in the previous year and it is particularly gratifying that the percentage of convictions in cases handled by them is as high as 92·2 against 75·7 of the cases handled by the Regular Police. Government trust that the latter will, as far as possible, strive to secure the willing co-operation of the rural Police in the discharge of their duties.

6. *Capture of a gang of dacoits.*—One important event during the year was the capture of a notorious gang of dacoits in the Kadur District known as the Pamlores. Government have acknowledged in their Orders Nos. J. 3099—Pol. 126-08-2 and J. 836—Pol. 126-08-3, dated the 13th April and 21st September 1909, respectively, the services rendered by the Inspector-General of Police and his subordinate officers in this connection.

Letter No. 1687, dated the 8th October 1909, from the Sanitary Commissioner in Mysore, forwarding copy of letter No. 292, dated 22nd September 1909, from the Hospital Assistant, Local Fund Dispensary, Tarikere, recommending that the services of certain village officials who worked hard in the cause of popularizing inoculation in their villages may be suitably recognized.

2. Correspondence ending with letter No. 214, dated the 11th December 1909, from the Deputy Commissioner, Kadur District, reporting that the patels of Attiganal and Nandi villages exerted themselves considerably to popularise inoculations in their villages and recommending that their zeal and good work may be recognized by presenting to each of the said patels a silver medal with a suitable inscription thereon.

No. 5652-61—SAN. 83-09-4, DATED BANGALORE, 5TH JANUARY 1910.

ORDER THEREON.—Government approve of the Deputy Commissioner's recommendation and direct that a silver medal be presented to each of the patels referred to by the Deputy Commissioner on a public occasion.

2. The cost of the medals will be met out of plague funds. The Sanitary Commissioner is requested to state what the medals will cost.

EX I.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The Report on Sanitation in Mysore for the calendar year 1908, received with letter No. 1576, dated the 4th October 1909, from the Sanitary Commissioner in Mysore.

No. 6127-35—SAN. 92-09-3, DATED BANGALORE, 24TH JANUARY 1910.

ORDER THEREON.—There has been a delay of five months in the submission of the report, which is not satisfactory, and should be avoided in future.

2. In accordance with the scheme for the constitution of the Public Health Department in the State, five Deputy Inspectors of Vaccination were deputed to Madras for undergoing training in sanitation, with a view to their being appointed District Sanitary Assistants and Deputy Inspectors of Vaccination. Qualified Sanitary and Assistant Sanitary Inspectors were employed during the year in certain taluks and Municipalities, and the unqualified frontier Plague Supervisors were replaced by t ained Sanitary and Assistant Sanitary Inspectors as far as trained men were available.

3. It is proposed to open at Bangalore a Health Institute, which will include a Sanitary School, a Vaccine Institute, a Health Museum and a Bacteriological Laboratory. To popularize sanitary methods and principles, a second Health Exhibition was held at Mysore during the Dasara of 1908, which was largely attended.

4. The registered birth rate in the State rose from 15·74 per mille of the population in the previous year to 19·24 per mille during the year 1908. For every 100 females born there were 103·8 males born during the year as against 104·29 males in the previous year. In the districts of Hassan, Shimoga and Kadur, however, the birth rate was slightly less than the death rate; and having regard to the fact that the population of these districts is not growing *pari passu* with the growth of population in the other parts of the State, Government desire that the causes which contribute to this phenomenon should be carefully investigated in the Sanitary Department, as already directed, and steps taken to remove the same as far as practicable, and in particular to improve the condition of the people by paying greater attention to their sanitary requirements. The registered death rate for the whole State fell from 20·89 per mille in the previous year to 16·57 per mille during the year under review. The highest death rate (21·83 per mille of population) was returned from the Shimoga District and the lowest 12·60 from the Chitaldrug District. The number of deaths among males was 108·57 for every 100 deaths among females. Government note that more attention is being paid to the registration of births and deaths, though there is still room for considerable improvement.

5. Classified according to age, the largest proportion of deaths was, as usual, among infants under one year of age, the mortality among them having risen from 70·59 for males and 58·10 for females for every 1,000 infants living of either sex during 1907, to 76·74 for males and 65·90 for females during 1908. The figures are high and the Sanitary Commissioner is requested to investigate the cause of the high mortality under this head and suggest feasible measures for bringing down the same.

6. It is satisfactory that deaths from cholera fell from 4,972 in the previous year to 2,449, the districts most affected being Hassan and Mysore with 953 and 613 deaths respectively. The largest number of deaths (783) was in May 1908 and the smallest (42) in November 1908. It is noted that prompt and energetic measures were adopted for putting down the epidemic. The attention of the Deputy Commissioners is invited to the concluding portion of para 9 of the report and it is hoped that the Revenue and Sanitary Departments will co-operate in combating the disease in its early stages.

7. Deaths from small-pox also showed a satisfactory fall from 6,013 in 1907 to 1,890 during the year of report. The disease was most prevalent in the Kolar District, which accounted for 616 deaths.

Local Fund and Sanitary (Sanitary), dated 24th January 1910.

8. Deaths from fever continued to be the highest, as usual, numbering 38,338 against 46,477 in the previous year, the ratio being 7·03 per mille of population against 8·53 in 1907 and 8·70 the mean ratio for the past five years. Improvement of drainage, filling up of pools and removal of rank vegetation were the most important of the preventive measures adopted in addition to the distribution of quinine through patels and shanbhogs.

9. During the year there were 9,692 attacks and 7,154 deaths from plague as against 17,503 attacks and 12,423 deaths during 1907. The district which suffered most was Mysore, in which there were 2,255 deaths, including the Mysore City. 9,179 persons were inoculated with Haffkine prophylactic. The number is small and every effort should be made to make inoculation more popular and accessible especially in large towns which do not possess the same facilities for evacuation as rural places.

10. The aggregate cost of sanitary works executed and improved during the year by the Public Works Department and the various Municipal bodies was Rs. 3,41,418 against Rs. 7,01,450 during the previous year.

11. A sum of Rs. 1,39,706 was also allotted for direct expenditure on sanitation, out of which Rs. 50,000 was for plague expenditure.

12. A fair amount of inspection work was performed by the Sanitary Commissioner, his Deputy, and the District Medical and Sanitary Officers.

READ—

The Plague Administration Report for the official year 1908-09 received with letter No. 2134, dated 22nd November 1909, from the Sanitary Commissioner in Mysore.

No. 6153-93—SAN. 103-09-3, DATED BANGALORE, 24TH JANUARY 1910.

ORDER THEREON.—*Attacks and deaths.*—During the year under review, there was an appreciable decrease in the number of plague attacks and deaths, which were 6,339 and 4,464 against 19,275 and 14,059, respectively, in the previous year. The figures were the lowest recorded in any year since the first outbreak of plague in the State except during 1905-06 and 1906-07. The number of attacks and deaths per mille of population was 1·16 and 0·82 as against 3·54 and 2·58, respectively, in the previous year. The largest number of deaths occurred in the Mysore District and the smallest in the Chitaldrug District. For the first time since the outbreak of plague, ten years ago, the Kolar Gold Fields area was entirely free from the epidemic during the year. The attacks and deaths in the Bangalore and Mysore Cities were comparatively few, those in the Bangalore City numbering 246 and 185, respectively, as against 1,327 and 992 during the previous year, and those in the Mysore City 171 and 117 as against 1,769 and 1,313.

2. *Administration and staff.*—As in previous years, the plague operations in the districts continued to be under the charge of the Deputy Commissioners and the District Medical and Sanitary officers, while the Amildars and the local Police, Medical and Sanitary officers were in charge of the operations in the taluks. In the Cities of Mysore and Bangalore the Presidents of the respective Municipalities assisted by the Health officers were in charge of the operations. Temporary establishments were entertained wherever necessary, for disinfection, guarding and hospital duties.

3. *Preventive measures.*—The measures adopted to combat the disease were evacuation, disinfection, destruction of rats and inoculation. As usual, facilities were afforded for evacuation by the supply of shed materials, etc., and arrangements were made for guarding the deserted villages and for the safe custody in the Government Treasuries of the valuables of the inhabitants camping out. Over 2¼ lakhs of rats were destroyed during the year at an average cost of 4½ pies per rat as against 90,741 during the previous year at an average cost of 10½ pies per rat. The number of persons inoculated was 10,378 as against 3,167 persons in the previous year. Rewards at the rate of 4 annas for each adult and two annas for each child were paid to persons of the labouring classes who were inoculated, as a sort of recompense for the temporary inconvenience thereby caused to them.

4. *Plague hospitals.*—The numbers of admissions to the plague hospitals at Bangalore and Mysore were 64 and 40, the percentage of recoveries to admissions being 54·69 and 42·50 respectively. In the Epidemic Diseases Hospital on the Kolar Gold Fields only one imported case of plague was admitted during the year.

5. *Expenditure.*—The total expenditure in connection with the plague prevention measures during the year was Rs. 36,038 as against Rs. 75,319 in the previous year.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Sanitary), dated 26th January 1910.

READ—

1. Government Proceedings No. 1378-92—San. 93-06-8, dated the 10th August 1907, sanctioning a scheme for the constitution of a Department of Public Health in the State.

2. Subject No. 186 of the Proceedings of the Representative Assembly of 1908.

3. The following communications from the Sanitary Commissioner with the Government of His Highness the Maharaja of Mysore, submitting proposals to abolish the appointments of Divisional Sanitary Officers and to raise the pay of the District Sanitary Officers under the Public Health Scheme :—

(i) Letter No. 3617, dated 4th March 1909.
(ii) „ No. 4868, „ 13th May 1909.
(iii) „ No. 5506, „ 15th June 1909.

No. 6327-38—SAN. 139-08-8, DATED BANGALORE, 27TH JANUARY 1910.

ORDER THEREON.—The Public Health Scheme sanctioned in the Government Order dated the 10th August 1907 provided for—

(i) Three Divisional Sanitary Officers on Rs. 250—50/2—400 each per mensem, and

(ii) Eight District Sanitary Officers on Rs. 100—25/2—200 each per mensem ;

and in giving effect to this scheme one Divisional Officer was appointed to be in charge of the Western Sanitary Division. The Sanitary Commissioner is, however, of opinion, in the light of experience since gained, that Divisional Officers are of little use without District Officers, as the areas under their charge are too large for effective direct control, and that District Officers are indispensable. A representation to the same effect was also made at the Representative Assembly of 1908. The Sanitary Commissioner now proposes that the posts of Divisional Sanitary Officers may be abolished and that the pay of the District Sanitary Officers may be raised with a view to make it sufficiently attractive for qualified men to take up the appointment. The Government are accordingly pleased to revise the Public Health Scheme in the manner suggested and to direct that the posts of the three Divisional Sanitary Officers be abolished and that the pay of the District Sanitary Officers be increased from Rs. 100—25/2—200 to Rs. 150—10/1—250.

2. The District Sanitary Officers will be placed in subordination to the Deputy Commissioners in all but strictly technical matters, as to which they will be directly under the head of the Sanitary Department.

3. The above revision will not affect Mr. B. Krishna Rao (Divisional Sanitary Officer and now Health Officer, Bangalore City) who will be allowed to retain his pay as already fixed and posted to an important District as District Sanitary Officer. His appointment will be held against one of the appointments of District Sanitary Officers and will be absorbed in the Health Officer's list as soon as possible.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Education), dated 29th January 1910.

READ—

1. Letter No. 9913—655, dated the 30th April 1909, from the Inspector-General of Education in Mysore, submitting with his remarks a copy of the revised rules for the Central College Students' Hostel, received from the Principal of the College.

2. Subsequent correspondence on the subject ending with letter dated the 4th September 1909, from the same officer.

No. 6491-2—EDN. 418-09-11, DATED BANGALORE, 29TH JANUARY 1910.

ORDER THEREON.—The principal changes made in the new rules proposed by the Principal of the Central College are in regard to the management of the Hostel by (1) the replacement of the full-time Superintendent by a Warden who will be a member of the teaching staff and (2) the substitution for the existing fixed rates of boarding charges of a system under which the actual expenses will be apportioned among the boarders.

2. The Inspector-General of Education has pointed out that the proposed combination of the functions of an Assistant Master of the College and the Superintendent of the Hostel was tried in 1901, but that experience soon proved that the work was too much for one person and that a whole-time Superintendent had to be appointed. But Mr. Tait is of opinion that experience has shown that it is impossible for any person other than a member of the teaching staff to exercise the requisite influence over the boarders in the Hostel. In 1901 Mr. Krishnaswami Iyengar was not able to reside on the premises, but in future the Warden will occupy the Hostel Superintendent's quarters. In these circumstances, Mr. Tait's recommendation for the appointment of a member of the teaching staff as Warden is approved. The Warden will be allowed free quarters near the Hostel but will get no other allowance for this duty. The selection of Mr. S. Krishnaswami Iyengar, M.A., for the post of Warden is approved.

3. Under the rules as proposed, it is the duty of the Warden to look after all the details of the domestic arrangements of the Hostel. The Government consider that the addition of this duty to the more legitimate functions of the Warden will be inconvenient and impracticable. They therefore direct that a Manager or a Superintendent on a small salary be appointed to look after the details of the domestic arrangements of the Hostel, the Warden being responsible for the discipline, behaviour and morals of the resident students and the control of the finances of the Hostel, in addition to exercising general supervision over the work of the Manager. With these modifications, the revised rules are approved and the Principal will be requested to issue them with the necessary changes.

4. The appointment of the Manager will be made after Mr. Venkatadasappa, Superintendent, at present attached as a supernumerary to the office of the Inspector-General of Education in Mysore, is provided with another suitable appointment. In the meantime the existing arrangements will continue under Mr. S. Krishnaswami Iyengar.

READ—

Rule XIV of the Mysore Civil Service Rules issued with Government Order No. G. 8139—G. M. 12-06-68, dated the 27th June 1907.

2. Also Government Proceedings No. 3147-85—G. M. 22-08-21, dated the 24th November 1908, increasing the cadre of Assistant Commissioners by two.

No. G. 3613—G. M. 42-09-41, DATED BANGALORE, the 12TH JANUARY 1910.

ORDER THEREON.—Under the orders read above, the cadre of Assistant Commissioners consists of 75 officers (permanent and probationary), of whom 66 are for actual charges and 9 to form a reserve for short deputations, absence on leave and on account of probationers under training. In addition to the 66 charges above referred to, certain special appointments* are now held by Assistant Commissioners in the way of prolonged deputations. The provision in Rule XIV (3) of the Rules of 27th June 1907 for filling the places of these officers *sub pro tem* has led to officers being kept on as *sub pro tem* for long periods of time. These appointments, if added to the cadre, would give 72 as the number of charges to be provided for.

*1. Registrar of Co-operative Societies.
2 & 3. Municipal Vice-Presidents of Bangalore and Mysore.
4. Special Magistrate, Kolar Gold Fields.
5. Officer in charge of Palace Establishments.
6. Assistant Commissioner on special duty with His Highness the Maharaja.

2. In regard to the reserve also, it is observed that, on the 1st January 1910, there were six probationers in Schedules A and B together, of whom one was entitled to confirmation. The other five are not yet fully qualified for confirmation but almost all of them have had to be placed in regular charges with the risk of prejudice alike to the work and to the men themselves who have thereby to devote to active duty the time which they are expected to devote to learning their duties and qualifying themselves for regular work. There were also nine officiating Assistant Commissioners taken from the ranks of Munsiffs, Amildars and legal practitioners. Thus there were fourteen officers, not permanent Assistant Commissioners, doing the duty for which a reserve was contemplated, while there was only one officer, and that a probationer, actually in reserve unattached. It has thus become clear that the number of men fixed for the reserve in the Government Order of 27th June 1907 is not sufficient.

3. Besides the nine appointments held by the nine acting Assistant Commissioners, there are at present three posts intended for Assistant Commissioners which are held by officers who are not Assistant Commissioners. Two of these officers are, however, due to retire shortly.

4. Having regard to these circumstances, it follows that the number of Assistant Commissioners (including probationers) should be increased by the number of Assistant Commissioners on prolonged deputation, referred to in para 1 *supra*, namely six, and by filling up the places now kept vacant against the two outside officers referred to in para 3 *supra*.

5. Two existing vacancies in the number of permanent Assistant Commissioners also require to be filled by the appointment of the two candidates who passed at the top of the list in the competitive examination held in November last.

General Miscellaneous, dated 12th January 1910.

6. To fill up nine of these ten places, the following appointments have been made and notified separately:—

1. Mr. T. G. Rama Iyer, B.A.	As Probationary Assistant Commissioners, Schedule A, under Rule II (1) of the Civil Service Rules of 27th June 1907.
2. Mr. B. T. Kesaviengar, B.A.	
3. Mr. Abdul Wajid, B.A.	As Probationary Assistant Commissioners, Schedule B, under Rule II (2) (*b*).
4. Mr. H. V. Ramaswami, M.A., B.L.	
5. Mr. M. Lakshmana Sastri, B.A.	As Assistant Commissioners, Schedule B, under Rule II (2) (*a*).
6. Mr. A. Krishnaswami Iyengar, B.A.	
7. Mr. T. E. Jayarama Iyer, B.A., B.L.	
8. Mr. S. Hiriyanniah, M.A., B.L.	
9. Mr. C. S. Kuppuswamiengar.	

7. Mr. Mahomed Obeidulla will continue as Officiating Assistant Commissioner pending his completing the prescribed tests, as he is already officiating and may not be appointed probationer under the rules.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Government Proceedings No. 3779-92½—Muz.F. 3-02, dated 9th March 1906, recognising the succession of Vedamurti Jayachar as Swamigalu of the Sri Uttaradi Matt at Hole-Narsipur and also passing orders in the matter of the claims of shanbhog Srinivasamurtiachar and other decree-holders against the Matt.

Petition dated 5th December 1906, received from Jayaramachar, Agent of the Matt under a power of attorney, praying for a review of the above order of Government.

No. 1807-20—MUZ. F. 162-06-2, DATED BANGALORE, 25TH JANUARY 1910.

ORDER THEREON.—In the Proceedings of the 9th March 1906, read above, the Government, while recognising the succession of the present Swamigalu to the Sri Uttaradi Matt, directed the payment to the former servants thereof of the amounts decreed to them by Civil Courts and also the remuneration for periods subsequent to the date of the decrees, and ordered the withdrawal of the attachment of the landed properties and cash tasdik of Rs. 526 per mensem of the Matt.

2. The present Swamigalu has applied for a review of this order and for rescission of such portions thereof as are unfavourable to him. The reasons urged are :—

(1) That the order cannot be looked upon as one based on the consent of the parties inasmuch as the two points that should have formed the basis of all settlement, *viz.*, the payment of a lump sum as remuneration in lieu of a percentage on the gross income and the employment of the decree-holders in any capacity which would not involve personal service to the Swamigalu, were not accepted by the counter-petitioners or by Government.

(2) That Govindachari had no authority to agree to the summary disposal by the executive Government of claims adjudicated upon by Civil Courts.

(3) That Govindachari's consent could not validate the order for payment of emoluments for the periods subsequent to the decrees.

(4) That the executive Government have no jurisdiction to order the enforcement of decrees.

(5) That an application for execution of decrees could only be made to a Civil Court which would pass orders after considering all the legal objections which it was open for the judgment-debtor to take.

(6) That in accordance with Government Order No. 382, dated 25th October 1894, the monthly cash allowance payable to the Matt by Government is not liable to be attached in execution of decrees of Civil Courts.

(7) That that portion of the order which directs the payment of remuneration for the period subsequent to the decrees is even more objectionable inasmuch as this question did not arise in the course of the execution of the decrees and even a Civil Court could deal with it only on a separate suit being filed.

The Matt also requested that, in accordance with para 14 of the order of the 9th March 1906, the landed properties and the accumulated savings should be made over to the Matt.

3. When the case was heard before Government, Mr. C. R. Tiruvengadachar represented the Matt and urged the points noted above. The counter-petitioners *viz.*, the Matt servants, appeared in person, and Anantachar as their spokesman urged that the order sought to be modified was right inasmuch as the Chief Court had decided that the income of the inam villages was liable to attachment in execution of these decrees. He also added that it was scarcely fair for the Matt to object to

Muzrai, dated 25th January 1910.

portions of the order of March 1906 while accepting the benefits conferred by it. The Government Advocate was also present at the hearing.

4. On the application of the Uttaradi Matt praying for review of the Government order of 9th March 1906 the question was considered whether it would be possible to effect an amicable settlement between the parties. But this has been found to be impossible, not only because the parties are irreconcilable, but also because the basis of settlement therein suggested is impracticable. For, even if separate employment were found for the hereditary shanbhogs in Mysore, as required by para 13 of the said order, the present question would still arise in connection with their dismissal from such separate offices if the shanbhogs misbehaved in such offices.

5. The petition for the review of the order has therefore to be disposed of on other grounds. It is true that the Civil Courts have decided against the Matt and the Government order of 9th March 1906 was issued, directing among other things, that the decrees of the Courts should be given effect to. But further consideration has shown that the decision is not unimpeachable, based as it is upon the supposition that (to quote from the judgment of the Sub-Judge Mr. Ramaswamy Iyer in O. S. No. 50 of 1891 on the file of the Sub-Judge's Court at Mysore) "in the case of hereditary offices under Government if the holder of the office is found guilty of any heinous offence against the Government such as embezzlement, murder or the like, the office is generally conferred on one or more of his descendants if, in the opinion of the Government, they are competent to discharge its duties" which is manifestly incorrect. Under such circumstances the Matt servants can only be left to seek their remedy in the Civil Courts both for the amounts decreed and for any remuneration they may claim for the subsequent period. Further, it has come to the notice of Government that the Matt has since instituted proceedings in the Mysore Civil Courts to set aside the decrees referred to above, on the ground that they are based upon fraudulent documents.

6. For these reasons, the Government are of opinion that the portions of the order of 9th March 1906 which direct the enforcement of the decrees and the payment of remuneration for the periods subsequent to the decrees should not be given effect to, and they are hereby pleased to cancel the same.

7. As regards the restoration of the landed properties and cash inams to the Matt, there are cogent reasons for withdrawing the orders of restoration. The outstanding disputes between the Matt and its former servants which led to the temporary attachment of the properties in 1904 still remain unsettled, and if, according to the decrees of the Civil Courts, it is held that the Matt is bound to pay such large sums to the decree-holders without their rendering any service to the Matt, it will be such a diversion of the endowments as by itself may fairly be considered as sufficient justification for attaching the endowments and keeping them under the management of Government. In these circumstances the Government are pleased to direct, in modification of para 14 of the order of 9th March 1906, that the temporary attachment of the endowments and their management by Government do continue until further orders.

Petition Registered No. D. 1855, dated 26th June 1909, from Polepalli Narasimha Setty of Bangalore, requesting the acceptance of the deposit of Rs. 10,000 offered by him at the favorable rate of 4 per cent interest for the benefit of the chattram and temple built by him and his deceased brother in Siddikatta, Bangalore City.

No. 1822-4—Muz. F. 740-08-2, dated Bangalore, 26th January 1910.

Order thereon.—The petitioner Polepalli Narasimha Setty and his deceased brother Polepalli Narayanasami Setty have constructed a chattram in Siddikatta, Bangalore City, in the compound of which a temple has also been built and the idols of Sri Subrahmanya Swami, Sri Lakshminarayanaswami, Sri Anjaneyaswami and the Navagrahas have been installed therein. Narasimha Setty offers to deposit Rs. 10,000 at present at 4 per cent interest in view to the interest realised being utilised for puja, naivedya and deeparadhane and for paying a watcher, a sweeper and musicians. He also wishes to feed Brahmans and Vaisyas resorting to the chattram and for that purpose intends to deposit a further sum. He desires to manage the charities himself during his life-time and requests that the half-yearly interest on the deposit may be paid to him and adds that after him his sons-in-law and his uncle's grandson should manage the charities getting the half-yearly interest. When, however, it was explained to Narasimha Setty that the rules granting 4 per cent interest on charitable deposits had been revised so as to grant only ½ per cent interest in excess of that allowed by the Government of India on their securities, he expressed his willingness to accept that rate of interest also.

2. The object of the deposit being of a religious and charitable nature deserving of encouragement as contemplated in Rule III of the Notification of the 12th February 1908 as revised by Government Notification No. Fl. 473-503—G. F. 15-09-2, dated 15th July 1909, the Government are pleased to sanction the request made by Polepalli Narasimha Setty and to permit him to deposit a sum not exceeding Rs. 25,000 in instalments of even thousands of rupees the rate of interest on the deposit being ½ per cent in excess of the rate allowed by the Government of India on their securities. The rate allowed for the present will be 4 per cent.

3. The Comptroller to Government is requested to issue needful instructions to the Deputy Commissioner, Treasury Department, Bangalore District, to receive the present deposit of Rs. 10,000 and future deposits under the foregoing para and to get a document executed by the depositor in the form prescribed in Government Notification No. Fl. 432-72—G. F. 15-09-1, dated 15th July 1909.

4. The half-yearly interest on the deposit money will, until further orders, be paid to Polepalli Narasimha Setty, founder of the charities, who should submit a scale of expenditure and maintain regular accounts and make them available for inspection by Government officers and also submit to Government an annual report on the affairs of the institutions with an abstract of accounts.

C. S. BALASUNDARAM IYER,

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 27th January 1910.

READ—

1. Government Proceedings No. 4286-7, dated 28th March 1908 declining the restoration of certain resumed Inam lands originally in the khate of Sri Tirumaladevaru and Rameswar's temples at Bikkemane, Chikmagalur Taluk.

2. Memorial registered No. D. 1499, dated 7th May 1909, addressed to His Highness the Maharaja by Ramegowda and others praying for a reconsideration of the above Order.

No. 1850-9—Muz. 626-08-7, dated Bangalore, 27th January 1910.

Order thereon.—As the temples serve communal needs, the Government of His Highness the Maharaja, on a reconsideration of the facts of the case, are pleased to direct the restoration of the Inam tenure of Survey Nos. 74 and 77 for the benefit of the temples of Sri Tirumaladevaru and Rameswara at Bikkemane. The compensation amounts deposited in the Treasury should be paid to the present holders of these lands and the khates thereof made out in the names of the institutions. The Inam Superintendent is requested to register these lands in the name of Devarus and issue fresh title-deeds therefor.

2. The circumstances of this case being rather exceptional, the present decision should not be quoted as a precedent.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Deputy Commissioner, Kadur District.
The Superintendent of Inam Settlements in Mysore.
The Deputy Commissioners of other Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 28th January 1910.

READ—

1. Petition Registered No. D. 728, dated 28th January 1909, from Tulasi, sister of Hanumantha, an employee in the Sri Anjaneyaswami temple at Mulbagal, praying for permission to perform Gejje Puje to her sister Lakshmi in the said temple.

2. Correspondence ending with letter No. 1007-31, dated 27th July 1909, from the Deputy Commissioner, Kolar District, reporting on the above.

No. 1872-9—Muz. 422-08-6, dated Bangalore, 28th January 1910.

Order thereon.—In consequence of a dispute likely to lead to a breach of the peace among the dancing girls and other members of the community at Mulbagal, in regard to the title of the petitioner's sister to perform Gejje Puje in the Sri Anjaneyaswami temple there, the Amildar refused to accord the permission asked for. The Assistant Commissioner in divisional charge was of opinion that the caste disputes of the dancing girls should not prevent the Gejje Puje, which was only a ceremony initiating the girl to the art of singing and dancing from being performed in the temple in accordance with the petitioner's vow. The Deputy Commissioner has now sought the instructions of Government, as the temple in question is a Muzrai institution.

2. The Government observe that whatever may be the euphemism by which the true nature of the ceremony is concealed, Gejje Puje has an intimate connection with dedication to the profession of a prostitute dancing girl. They are not prepared to allow the performance of such a ceremony in a Muzrai temple; and are satisfied from the depositions and the opinion of the Muzrai Agamik on record that no hardship will be caused by the prohibition of the performance of such ceremonies in temples. They accordingly prohibit the performance of Gejje Puje or any similar ceremony within the precincts of any temple under the control of Government in the Muzrai Department. This will, of course, not prevent women of this class from resorting to temples with offerings for the purposes of performing puja to the same extent as they have hitherto been by usage allowed.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioner, Kolar District, returning enclosures.
The Deputy Commissioners of other Districts for information and guidance.

PART II.

REVENUE

SECTION 1—LAND REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR JANUARY 1910.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	R 4466—L R 27-09-10 ..	4	Rev. Commissioner ...	Sanctioning the acquisition of 2 acres of land out of occupied Survey No. ½ in the Kuppanapalya village, Mulbagal Taluk, required for extending the village.
2	R 4467—L R 27-09-11 ...	4	Compiler, *Mysore Gazette*	Notifying the declaration statement in respect of the above.
3	R 4468—L R 67-09-34 ...	4	Comptroller ...	Sanctioning a potgi bill of the Manjarabad Taluk, for Rs. 13-13-6 for the year 1905-06, in favor of patels Doddegowda and Eregowda.
4	R 4472—L R 4-09-38 ...	4	Dyave Gowda of Mullukatte, Nagamangala Tk.	Informing him that the orders already passed in the matter of his appeal petition praying for the grant of Survey No. 1 of Nelkundi kaval for pasture land are final, as a liberal compensation of Rs. 374-4-9 has been sanctioned to him on account of his lands which were submerged by the waste-weir of the Dasankere tank having been raised.
5	R 4479—L R 8-09-20 ...	5	C. N. Krishnappa, Contr., and others holding lands under the Krishnambudhi tank, Hiriyur Tk.	Informing them that it has been decided to sell by auction the lands forming the bed of the Krishnambudhi tank and to deal with the applications from the local raiyats on their merits.
6	R 4483—L R 369-08-9 ...	5	Ranganna and other Vrittidars of Mallekoppa village, Sorab Tk.	Informing them that khalsat has been levied on their inam lands under the rules in force and that the orders of the Inam Superintendent in the matter are correct.
7	R 4485—L R 80-09-2 ...	5	Rev. Commissioner ...	Declining to restore to the Ahobala Matt at Trivallur the village of Chikkannana Hosahalli, formerly a jodi village, in the Devanhalli Taluk, which was resumed to Government more than a quarter of a century ago for continued default in the payment of the jodi due thereon.
8	R 4486—L R 212-09-2 ...	5	Compiler, *Mysore Gazette*	Notifying the grant of three months' privilege leave to Mr. T. Ramachandra Rao, Amildar of Shimoga, with effect from the date he may avail himself of it, the appointment of A. Raja Rao, Acting Deputy Amildar of Kumsi, to act as Amildar and 3rd Class Magistrate of the Shimoga Taluk, and of C. B. Shama Rao, B.A., Acting Head Clerk, Shimoga Deputy Commissioner's office, to act as Deputy Amildar and 3rd Class Magistrate of the Kumsi Sub-Taluk.
9	R 4492—L R 222-09-2 ...	5	Do ...	Notifying the grant of privilege leave to Mr. M. A. Srinivasiengar, B.A., B.L., Amildar of Sira, from the 14th to 26th December 1909; the transfer, temporarily, of Mr. H. Basavaraj Urs, Amildar of Maddagiri, to Sira, *vice* Mr. M. A. Srinivasiengar, deceased, and the appointment of E. S. Venkataramana Iyer, Sub-Registrar, to act

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
				as Amildar and 3rd Class Magistrate of the Maddagiri Taluk.
10	R 4497—L R 236-09-1 ...	5	Compiler, *Mysore Gazette*	Notifying that Mr. N. Gopaliengar, B.A., Clerk, General and Revenue Secretariat, is appointed to act as Amildar and 3rd Class Magistrate and is posted to the Channapatna Taluk.
11	R 4500—L R 133-09-9 ...	5	Do ...	Notifying that Mr. C. S. Kuppuswami Iyengar, Assistant Commissioner, is posted temporarily to the Closepet Sub-Division with 1st Class Magisterial powers, *vice* Mr. B. Venkoba Rao, transferred to the Revenue Commissioner's office.
12	R 4508-9—L R 24-09-4 ...	6	Rev. Comr. and Dy. Comr., Tumkur	Declining to sanction owing to paucity of officers, the privilege leave for six weeks in continuation of X'mas holidays applied for by Mr. C. Venkat Rao, Assistant Commissioner.
13	R 4512—L R 206-09-2 ...	6	Mr. E. C. Foster, Saklespur	Informing him that he may resign the coffee lands in the Mudgere Taluk, if he is not disposed to pay the assessment fixed on them and that as for remission of arrears he may move the Deputy Commissioner to make the necessary recommendation to Government.
14	R 4519-20—L R 109-09-4	6	Rev. Comr., and Dy. Comr., Hassan	Recording the Revenue Commissioner's letter stating that attempts are being made to transfer T. Subba Rao, Taluk Sheristadar of Arsikere, to an appointment for which his present qualifications would suffice and that H. Ramanna, Head clerk of the Saklespur Sub-Division office, has been granted an extension of service up to the end of the current official year, with the remark that Government regret the great waste of public time in correspondence and the hardship caused to individual officials by the standing orders in regard to the qualifications of incumbents of particular offices, being disregarded, and that of the officials in question, those who are not yet fully qualified and who will not qualify themselves by 30th June next should be removed altogether or transferred to other appointments for which the qualifications in question are not prescribed.
15	R 4521—L R 144-09-2 ...	6	Revenue Commissioner.	Sanctioning the grant to Mahomed Nasiruddin Khan of Mysore of 39 guntas of land, which is in excess of the 12 acres sanctioned to him out of the Karle Amrut Mahal kaval, Hassan Taluk, as it is represented that no useful purpose will be served by reserving that small piece of land which forms a portion of Survey No. 22 of the kaval.
16	R 4523—L R 27-09-13 ...	6	Do ...	Sanctioning the aquisition of Survey No. 52, measuring 1 acre and 22 guntas in the Alambadi village, Malur Taluk, required for extending the village site.
17	R 4524—L R 27-09-14 ...	6	Compiler, *Mysore Gazette*	Notifying the declaration statement in respect of the above.
18	R 4525-6—L R 17-09-40...	6	Rev. Comr. and Comptr.	Sanctioning the claim of E. S. Venkataramana Iyer, Sub-Registrar of Maddagiri, for an allowance of Rs. 4-5-8 for having been in charge of the taluk for nine days from the 14th October 1909 during the Amildar's absence on leave.
19	R 4527 ...	6	Abdul Rahiman, Fruit Contractor, Chikmagalur	Informing him that there are no grounds to interfere with the Deputy Commissioner's order declining to remit half the contract amount for 1908-09 due by him to Government on account of mango fruits.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
20	R 4537—L R 138-09-7 ...	6	Compiler, *Mysore Gazette*	Notifying the transfers of Amildars Messrs. G. Narayan Rao from the Mandya to the Chamrajnagar Taluk and S. Venkataramana Srouti from the Chamrajnagar to the T.-Narsipur Taluk, and the appointment of Mr. C. B. Lakshman Rao, B.A.,B.L., clerk, General and Revenue Secretariat,to act as Amildar and 3rd Class Magistrate of the Mandya Taluk.
21	R 4544-5—L R 235-09-2...	6	Rev. Comr. and Dy. Comr., Kolar	Recording the Kolar Deputy Commissioner's letter submitting a copy of the Maramat Administration Report of his district for the year 1908-09.
22	R 4634—R M 69-08-14 ...	7	Chief Engineer ...	Directing that the bund of the Lingapur tank in the Manjarabad Taluk, an estimate for the repair of which has been sent to the Deputy Commissioner, Hassan, for countersignature, may be got repaired by the Public Works Department, the necessary funds being provided for by the Revenue Department.
23	R 4635—R M 69-08-14 ...	7	Dy. Comr., Hassan ...	Forwarding a copy of the above with instructions *re* the source from which the cost should be met.
24	R 4572—L R 171-09-4 ...	7	Rev. Commissioner ...	Permitting Mr. B. Kesar Singh, Amildar of Kunigal, to acquire by purchase Survey No. 50 of Gulur Amanikere, Kasaba hobli, Tumkur Taluk.
25	R 4574—L R 25-09-26 ...	7	Do ...	Recording the Revenue Commissioner's letter reporting the occurrence of an accidental fire on 18th November 1909, in the village of Donabaghatta, Shimoga Taluk, resulting in the destruction of seven Madigar houses with property worth Rs. 80 and also in the death of a child.
26	R 4576—L R 185-08-192	7	Do ...	Recording his letter reporting the occurrence of an accidental fire in the village of Chandankere, Shimoga Taluk, on 27th December 1908, which destroyed 14 houses with property worth Rs. 892.
27	R 4577—L R 185-08-194	7	Do ...	Recording his letter reporting that a fire broke out accidentally at Kodihalli in the Shimoga Taluk on 23rd February 1909, destroying 23 houses with property worth Rs. 1,513.
28	R 4579-80—L R 17-09-45	7	Rev. Comr., and Comptr.	Admitting the claim of C. Swami Rao, Judicial Head Munshi, Kadur District Office, to an allowance of Rs. 4 for having been in charge of the District Sheristadar's duties in addition to his own from the 1st to 12th November 1909.
29	R 4581—L R 25-09-25 ...	7	Rev. Commissioner ...	Recording his letter reporting that a fire which broke out accidentally at Chinniganathota in the Sagar Taluk on 31st May 1909, destroyed four houses with property worth Rs. 3,590.
30	R 4582—L R 154-09-2 ...	7	Do ...	Recording his letter submitting statements regarding cardamom cultivation during the year 1908-09 in the Hassan and Kadur Districts, with the observation that the quarterly statements in arrears should be obtained and submitted at an early date and the punctual submission of prescribed returns enforced.
31	R 4636—L R 133-09-11 ...	7	Compiler, *Mysore Gazette*	Notifying the transfer of Mr. Mahomed Obeidulla, Acting Assistant Commissioner, Malur Sub-Division, to the Kadur District for charge of the Kadur Sub-Division and the posting of Mr. T. E. Jayaram Iyer, B.A., B.L., Assistant Commissioner, to the Kolar District for charge of the Malur Sub-Division.
32	R 4640—L R 185-09-9...	7	Do ...	Notifying the grant of privilege leave for one month and eight days to Mr. C. Devaraj Urs, Assistant Commissioner, Channarayapatna

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
				Sub-Division, with effect from the 16th December 1909 and the appointment of Mr. S. N. Appanniengar, Amildar of the Hassan Taluk, to act as Assistant Commissioner, he being placed in charge of the Hassan District Treasury and Channarayapatna Sub-Division during the period.
..	R 4655-6—L R 220-09-2	7	Rev. Comr. and Comptr.	Sanctioning the appointment of K. C. Subbarayan, senior clerk in the Revenue Commissioner's office on Rs. 90, as head clerk of the same office on Rs. 100, with effect from the 12th October 1909.
34	R 4657—L R 108-09-2 ...	7	Rev. Commissioner ...	Rejecting the claim of Hotte Malla and two others to the produce of the Kerebande Service Inam lands in the Kudlur Sarvamanyam village, Channapatna Taluk, for 1900-01, as they are not entitled to it, since they failed to render the service for which the Inam was granted.
35	R 4726-7—L R 30-07 ...	8	Rev. Comr. and Comptr.	Sanctioning the transfer of Hyder Ali Khan, Revenue Probationer, from the Mysore to the Bangalore District and his posting to the Channapatna Taluk, to relieve the Amildar of a portion of his heavy work.
36	R 4728—L R 119-09-4 ...	8	Comptroller ...	Stating that the date of birth of Mr. T. Ramachandra Rao, Amildar of Shimoga, as accepted for the purposes of State Life Insurance, will be taken as the correct date of his birth.
37	R 4729-30—L R 228-09-2	8	Dy. Comr., Kadur, and Comptr.	Directing that the establishment at the Kotigehar toll-gate, Mudgere Taluk, which has continued uninterrupted for over 30 years and which has now to be disposed of consequent upon the discontinuance of the system of collecting tolls by Government agency, be treated as permanent and the members thereof retired on pension or gratuity under the pension rules.
38	R 4731-2—L R 214-09-2...	8	Rev. Comr. and Sur. Supt.	Sanctioning the grant of gomal Survey Nos. 110 and 122 measuring 46 acres and 37 guntas in all, of the Chikjajur village, Holalkere Taluk, to the Sri Ramakrishnaswami temple of the said village and the inclusion in lieu thereof of Survey Nos. 5 and 6 out of the Amrut Mahal kaval lands in the village gomal.
39	R 4733-5—L R 456-08-4...	8	Rev. Commissioner ...	Sanctioning the subdivision into a separate number of 3 acres and 2 guntas of land out of Survey No. 2 of Byatarayanapura village, Bangalore Taluk, and its treatment as Toti Service Inam in lieu of Survey No. 8 of the same village acquired for the construction of quarters for the Bangalore Central Distillery Staff.
40	R 4737—L R 190-09-2 ...	8	Rev. Commissioner ...	Sanctioning the payment of remuneration to certain gumastas of the Anekal Taluk for services rendered in the management of the estate of one Ramanna of Anekal, deceased, which was under Government management from February 1899 up to the end of March 1907, with a request that the authority or provision of law under which the estate was taken under Government management may be reported to Government.
41	R 4738-9—L R 17-09-41	8	Rev. Comr. and Comptr.	Authorizing the Amildar of Chikmagalur to draw the local allowance for the period of his privilege leave from the 21st to 28th June 1909 which has been retrenched by the Comptroller with the observation that local allowance is primarily intended to be drawn by the officer who actually performs the duties of the office to which it is attached whether exclusively or in addition to his own duties.

	Number	Date	To whom sent	
42	R 4740-1—L R 229-09-2	8	Rev. Comr. and Sur. Supt.	Sanctioning the alienation of Survey No. 2, measuring 23 guntas and assessed at Rs. 1-8-0 in the Bagalahalli village, Srinivaspur Taluk, required for being added on to the village site.
43	R 4748—L R 463-08 ...	8	Amina Bi, widow of Hyderkhan, late patel of Hanabe, Dodballapur Taluk	Informing her that her appeal *re* the appointment of one Budankhan as patel gumasta of Hanabe, has been struck off the file as requested by her.

Serial No	Proceedings: Number	Date	To whom sent	Subject and Order
4	R 4753-4— L R 231-09-2...	11	Rev. Comr and Comptr.	Sanctioning the entertainment of one C. Rama Rao, who is over twenty-five years of age as 4th Munshi on Rs. 20 in the Kadur District Office
5	R 4755-7—L R 216-05-7...	11	Dy. Comr., Mysore, and Supt. of Rev Survey	According sanction to write off the accounts a sum of Rs. 179-9-0 shown as outstanding in the accounts of Bachahalli village, Gundlupet Taluk, against Jagannathaiya and his brothers on account of charges for maintaining boundary marks and observing that the loss of records relating to the cases is deplorable and that it behoves the Deputy Commissioner and Revenue Commissioner to enquire into the matter and punish the culprits
6	R 4759-68—L R 41-09-9...	11	Rev Comr, Consvr of Forests and Dy Comrs.	Stating that there is no necessity for the preparation of a list of such of the lands comprised within the evergreen belt on the eastern slopes of the ghats as are not intended to be given out for cardamom cultivation without the previous sanction of Government and that it will be sufficient if the Deputy Commissioners concerned declare that no land lying to the west of a line drawn from Hanbal to Kotigehar, from Kotigehar to Kalasa and from Kalasa to Begar will be granted for cardamom cultivation without the previous sanction of Government
7	R 4769-70— L R 361-07-6	11	Rev. Comr, and Supt. of Rev Survey	Sanctioning the alienation of Survey Nos 185, 187 1, 187 2 and 190, measuring 8 acres and 12 guntas in all and bearing an assessment of Rs. 7-8-0, in the village of Chikanahalli in the Sira Taluk, for certain charitable purposes in connection with the chattram built by one Oograppa on the Bangalore-Bellary road, and the exemption of the market stalls built on Survey No 190 from the payment of shop tax as long as the income from the shops continues to be utilized for charitable purposes
8	R 4771—L R 15 09-9 .	11	Compiler, *Mysore Gazette*	Notifying the extension by seventeen days of the combined leave for eight months granted to Mr R Nanasami Rao, Assistant Commissioner, in Notification No R 3128—L R 15-09-7, dated 9th November 1909
9	R 4774-5—L R 67-08-6 ...	11	Rev. Comr, and Inam Supt	Sanctioning the reduction of the jodi from Rs 3-8 0 to Re 1 on the Kulavadi Service Inam of the Anche Muddanahalli village, Krishnarajpete Taluk.
10	R 4798-9—L R 193-08 ...	11	Rev Comr and Comptr	Sanctioning the payment of Rs. 150-2-10, due to one Shankari Siddaramanna Chetty of Hosdurga in full adjustment of his account amounting to Rs 518-15-3 for daftar cloths and other articles of country stationery supplied by him for the use of the Hosdurga Taluk Office, from October 1904 to June 1906, with the remark that the action of the Amildar in leaving the account so long unadjusted was reprehensible
	R 4800—L R 133-09-12 .	12	Compiler, *Mysore Gazette*	Notifying that Mr A Krishnaswamiengar, B.A, Assistant Commissioner, is posted to the Kolar District for the charge of the Malur Sub-Division
	R 4804—L R 230-09-2 ...	12	Rev. Commissioner ...	Issuing a commission conferring on Mr M. D Narainengar, Inamdar of Sarvamanya Kundur village, Malvalli Taluk, the powers specified in clauses (*b*), (*d*), (*e*) and (*f*) of Section 99 of the Land Revenue Code, to facilitate the recovery of the arrears of kandayam due to him by the ryots of his Inam village

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
3	R 4808-9—L R 313-08-6...	12	Rev. Comr. and Survey Supt.	Sanctioning the removal of Survey No. 79 of Karinanjanapura, Chamrajnagar Taluk, from the list of camping grounds and its being made available for cultivation, and the proposal to set apart 4 acres out of Survey No. 7 in the same village as camping ground in lieu of it.
54	R 4811—L R 446-07-4 ...	12	Rev. Commissioner ...	Recording his letter reporting that the transaction relating to the sale to one Bhojappa and his brother of the land held by the Mysore Government in the Kodikonda village, Hindupur Taluk, was completed in July 1909; and also sanctioning the remission of assessment amounting to Rs. 11-10-2 due by them on the land in question for the years Plavanga and Keelaka.
55	Pol 565—L R 446-07-5 ...	12	First Asst. to the Hon'ble the Resident	Stating that the Durbar have transferred their full proprietory rights over the fields in the Kodikonda village, Hindupur Taluk, held by them as tax-free Inam to Bhojappa and his brother and that the latter will be liable, in future, to pay, if necessary, to the Madras Government water rate or Fasal Jasti Kandayam.
56	R 4812-14—L R 276-08-4...	13	Rev. Comr., Inam Supt. and Comptr.	Sanctioning the payment to shanbhog Puttanna of Mutkur village, Bangalore Taluk, of the sum of Rs. 906-4-0, being the estimated value of the kandayam lands belonging to him and his son, which are proposed to be assigned as Inam in lieu of his service Inam land taken up for public purposes and also the payment to him of interest at the Government Savings Bank current rate on the awarded amount kept in deposit, from the date on which he was dispossessed of the land to the date of this order and also the refund to him of the assessment on the land for 1906-07, if it has already been recovered from him.
57	R 4821-24—R M 405-03...	13	Rev. Comr., Dy. Comrs., Bangalore and Mysore, and Comptr.	Rejecting the claim of Yele Siddalinga Setty to the refund of Rs. 489-12-0, paid by his deceased brother Yele Marisiddappa in excess of the contribution due towards the repairs executed by Government to Yele Mallappa Setty's tank near Veeranahalli forming part of Kumbhena Agrahar Inam in the Hoskote Taluk, as the amount has been credited towards the arrears of revenue due to Government by Puttusawmy Setty his late undivided cousin and which therefore he and his deceased brother were also liable to pay.
58	R 4830-1—L R 17-09-43...	13	Rev. Comr. and Comptr.	Sanctioning a charge allowance bill for Rs. 9-10-10 on behalf of B. Garudachar, Deputy Amildar of Haribar, for having been in charge of the Davangere Taluk from the 20th July to 8th August 1909.
59	R 4852-55—L R 209-09-2	13	Rev. Comr., Sur. Supt., Inam Supt., and Chairman of the Mysore City Improvement Trust Board	Sanctioning the grant of 6 acres and 36 guntas of land out of Survey No. 302 (dry) in the Mysore Kasaba village, purchased from one Bettamma, as Chakra Service Inam, subject to the payment of the usual jodi in lieu of the original Inam land Survey No. 367 acquired by the Mysore City Improvement Trust Board.
60	R 4856—L R 251-08-6 ...	14	M. Tirunarayana Iyengar, Chamrajpete, Bangalore	Informing him that his claim to Survey No. 117 in the bed of the Bukankatte tank in the Hadya Hanta of the Yedatore Taluk is untenable, as when it was resumed and treated as kharab, his father was granted on darkhast certain other lands in the Hadya Hanta as compensation for the resumed land.

82	R 5107-8—L R 25-09-34...	27	Rev. Comr., and Consvr. of Forests	Recording the Revenue Commissioner's letter reporting that an accidental fire occurred on 12th November 1909, in the village of Kadadakatte, in the Honnali Taluk, which resulted in the destruction of thirteen houses with property valued at Rs. 1,212 and that the necessary relief has been afforded to the sufferers.
83	R 5112-3—L R 299-08-12	27	Rev. Comr. and Comptr.	Approving with certain observations the list of appointments and promotions on salaries exceeding Rs. 40 sanctioned by the Revenue Commissioner during the half-year ending the 30th June 1909.
84	R 5117-8—L R 201-09-2...	27	Do ...	Sanctioning the disbursement of half pay to Khader Sha Mea, Shekdar of Kerehalli hobli, Nagar Taluk, from the date of his suspension, *i.e.*, 12th March 1907, to the date of the Revenue Commissioner's order directing his reinstatement, *i.e.*, 10th November 1909, and also his retirement from service on superannuation pension.
85	R 5119-20—L R 17-09-48	27	Do ...	Sanctioning a charge and local allowance bill for Rs. 13-4-11, on behalf of H. Koneri Rao, Sheristadar of the Tarikere Taluk, for having been in charge of the taluk from the 14th to 25th July 1909.
86	R 5140—L R 67-09-37 ...	27	Revenue Commissioner.	Stating that he may return to the Deputy Commissioner, the bill for arrears of potgi amounting to Rs. 19-9-0, claimed by Patel Subrayabhatta of Aralapura village, Tirthahalli Taluk, as he is not in favor of admitting the claim.
87	R 5144—L R 79-09-4 ...	27	Do ...	Directing that higher tree rent in respect of the date trees in the Inam villages of Dalasigere and Bothur in the Hoskote Taluk, now under Government management, need not, under the circumstances represented, be levied during the current official year, but that it may be levied from the ensuing year in giving effect to the directions contained in Government Order No. R. 164—L. R. 79-09-2, dated 14th August 1909.
88	R 5148-9—L R 128-09-4...	27	Rev. Comr., and Comptr.	Sanctioning five months' leave without allowances to Hyder Ali Khan, Revenue Probationer, attached to the Mysore District, with effect from the 4th January 1910.
89	R 5164-5—L R 77-09-35...	28	Do ...	Sanctioning the purchase of a new record-stand, at a cost of Rs. 75, for the use of the Tumkur Taluk office.
90	R 5166-7—L R 150-09-2...	28	Do ...	Stating that the appointment of Anantha Rama Iyengar, an unpassed candidate, as Deputy Gumasta of the Kankanhalli Taluk office cannot be confirmed and that the Deputy Commissioner should make suitable arrangements.
91	R 5169—L R 88-09-4 ...	28	Rev. Commissioner ...	Rejecting the appeal of Ranganna, the minor barawardar Shanbhog of Arejalva firka in the Kunigal Taluk, by his guardian Lakshamma, against the Revenue Commissioner's order declining to remove one Krishnappa from the Shanbhog gumastaship of the village, with the direction that the minor, who is fast coming of age, should be afforded all facilities to learn work.
92	R 5170—L R 88-09 ...	28	Ranganna, by guardian Lakshamma	Informing him of the above order.
93	R 5195—L R 156-09-7-6...	29	Compiler, *Mysore Gazette*	Notifying the extension by thirteen days of the privilege leave for two months and fifteen days granted to Mr. M. S. Ramachandra Rao, B.A., Amildar of the Kadur Taluk, and the grant

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
				in continuation thereof of extraordinary leave for three months and two days
94	R 5201—L R 100-09-6 ...	29	Rev. Commissioner ...	Recording his letter stating that Mr. H. S. Venkatachar, Amildar of the Krishnarajpete Taluk, is not entitled to any furlough and that he does not also seem to be in need of any leave for the present.
95	R 5206—L R 234-09-4 ...	29	Do	Recording the tour statements of the Deputy Commissioners of districts for the quarter which ended with the 30th September 1909, and his review thereon.
96	R 5229-30—L R 125-09-6	29	Survey Supt, and Rev Comr.	Stating that Government are not in favor of changing Rule 73 of the Land Revenue Rules so as to give a general permission to the Superintendent of Revenue Survey to make sub-divisions of occupied survey numbers at times other than revision of survey without their previous sanction, as it is the policy of Government to restrict the sub-division of survey numbers once formed, which are under occupation, except in special cases, and that there are not also sufficient reasons for allowing the sub division of occupied Survey No 3 of Korahalli village, Hassan Taluk, as the holder, if he is unable to cultivate the whole land himself, may either alienate a portion to some one else or give up the whole land and take up one of a smaller extent
97	R 5245-7—L R 251-09-2 ..	31	Rev. Comr, Inam Supt, and Supt. of Survey	Sanctioning the grant as Toti Service Inam of 1 acre and 2 guntas of land out of Survey No 159 in the occupancy of one Musalappa in the Kandavara Amanikere village, Chikballapur Taluk, in exchange for the present Toti Service Inam in the same village proposed to be granted to Musalappa on full assessment for opening a cart-track to the well constructed by him in his khata land Survey No 142, which is very useful to the public, and also to construct a mantapam for the use of the travellers.
98	R 5259—L R 25-09-36 ...	31	Rev. Commissioner ...	Recording his letter reporting that in consequence of the fire that broke out on 18th November 1909, in the Donabaghatta village, Shimoga Taluk, seven houses with property worth Rs. 235 were destroyed and a child was burnt to death.
99	R 5276—L R 82-09-4 ...	31	Chennegowda, patel of Belur, Gubbi Tk.	Informing him that there are no grounds for a reconsideration of the Government order rejecting his claim to the Pateli Office of Somlapur village in the same taluk
00	R 5280-81 —L R 266-09-2	31	Rev. Comr., and Survey Supt.	Sanctioning the appropriation of 8 acres of land out of assessed unoccupied Survey No. 3 of Bhramapura, a bechirak village in the Holalkere Taluk, for a new village site.

GENERAL AND REVENUE SECRETARIAT.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR JANUARY 1910.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	R 4444-54—Agri 64-09-2...	3	Rev. Comr., Comptr., Ch. Engr. and Dy. Comrs.	Sanctioning an additional allotment of Rs. 25,000 exclusive of the unspent balance amounting to Rs 11,474 of the previous year allowed to be utilized, for distribution to the several districts for meeting the cost of earth-work and other repairs to be executed to Major and Minor restored tanks during the current year, recoverable as revenue demand from the defaulting raiyats and also requesting the Revenue Commissioner to arrange for the timely submission in future of estimates to enable Government to make necessary provision for the requisite repairs being carried out promptly to restored tanks.
2	R 4455-7—Agri 142-08-9...	3	Rev. Comr., Comptr. and Dy. Comr., Mysore	Sanctioning the grant of an allowance of Rs. 15 per mensem to Hyder Ali Khan, Revenue Probationer, for the period during which he was employed in the Nagamangala Taluk on duty connected with distress.
3	R 4458-9—Agri 22-09-9 ...	4	Mycologist and Entomologist and Comptr.	According sanction to get a teakwood almirah prepared at a cost of Rs. 85 for the office of the Mycologist and Entomologist.
4	R 4460-1—Agri 29-09-12	4	Officer in charge of the Agri. Chemist's office and Comptr.	Sanctioning the purchase of certain apparatus for the laboratory of the Agricultural Chemist at a cost of £79-3-1.
5	R 4462-3—Agri 29-09-13	4	Do ...	Sanctioning the purchase of an almirah at a cost of Rs. 50 for the office of the Agricultural Chemist.
6	R 4476-7—Agri 29-09-14	5	Comptr. and Officer in charge of the Agri. Chemist's office.	Sanctioning the purchase of a clock at a cost of Rs. 12 for the office of the Agricultural Chemist.
7	R 4489—Agri 17-09-3 ...	5	Gopalaiya and other shanbhogs of Devanhalli Taluk.	Informing them that they cannot be exempted from payment of the jodi due on their service inams for the year Keelaka in accordance with the principles laid down in para 9 of the Government Order of 30th May 1909.
8	R 4505—Agri 43-09-4 ...	5	Rev. Commissioner ...	Recording his memo intimating the allotments made by him to the various districts out of the sum of Rs. 1,75,000 (inclusive of the unspent balance of last year) sanctioned for granting Takavi advances and loans under the Land Improvement Loans Regulation during the current year, with the observation that the arrangements made to obtain information as to the amounts utilized is noted.
9	R 4546-7—Agri 22-09-10	6	Mycologist and Entomologist and Comptr.	Sanctioning the purchase of apparatus costing 621'85 marks for the Laboratory of the Mycologist and Entomologist.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
10	R 4583-6—Agri 54-08-20	7	Ch. Engr., Comptr., Rev. Comr., Dy. Comr. and Presdt. of the Dt. Board, Chitaldrug	Approving of the proposed adjustment of Rs. 1,896, being a portion of the sum of Rs. 4,408 spent out of the special grant of Rs. 5,000 sanctioned in February 1909 for the collection of metal and gravel on certain Provincial and District Fund roads in the Chitaldrug District, from the maintenance estimate of the roads concerned for 1909-10, and the balance of Rs. 2,512 within the next four years, so that it may not interfere with the proper maintenance of the roads.
11	R 4644-54—Agri 70-09-4	7	Rev. Comr., Comptr., Ch. Engr. and Dy. Comrs. of Dts.	Stating that, in view of the large amount of unspent balance, *viz.*, Rs. 50,811, available out of the last year's allotment for granting advances for earthwork to unrestored minor tanks, it seems unnecessary to make any fresh allotments for the purpose and therefore authorizing the Revenue Commissioner to transfer the unspent balance at the disposal of one district and apparently reserved for fresh works in that district to another district when it is required for expenditure on incomplete works the redistribution being reported to Government for sanction.

FINANCIAL SECRETARIAT.
Bangalore, 31st January 1910.

J. S. CHAKRAVARTI,
Financial Secretary.

SECTION 2—SEPARATE REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR JANUARY 1910.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 3105-6—S R 113-09-2	4	Ex. Comr. and Comptr.	With reference to the local allowance claimed by Mr N Madhava Rao, Probationary Assistant Commissioner, for the period he was in charge of the District Excise Office, Tumkur, during the absence of Mr C Krishnama Naidu on privilege leave observing that the allowance sanctioned in Government Order No Fl 9243—54, dated 15th June 1907, is intended to be an additional remuneration to an officer of lower status than that of an Assistant Commissioner entrusted with the duties of a District Excise Officer and that accordingly the claim of Mr N Madhava Rao to the allowance in question is untenable
2	Fl 3133-4—S R 74-09-2 .	5	Compta. and Comr of Stamps	Sanctioning the entertainment of a temporary establishment at a cost of Rs 34 per mensem for a period of three months for counting the latest consignment of the new three pie paper and of the water marked paper required for the manufacture of general stamps
3	Fl 3135-6—S R 95 09-2	5	Ex Comr. and Compta	Directing the writing off the accounts the irrecoverable arrears of Rs 28 9 6 due from Kenchappa, purchaser of the Nulenur toddy shop in the Holalkere Taluk for the year 1905-06
4	Fl 3138-9—S R 82-06-2	5	Do	Directing the writing off the accounts the irrecoverable arrears of Rs 5 outstanding against one Chinkia, licensee of the bagani toddy shop of Virupapura, Tirthahalli Taluk, for the year 1902-03
5	Fl 3140-1—S R 83-09-2 .	8	Do	Directing the writing off the account the irrecoverable arrears of Rs 18 due from Rasmiah, licensee of bagani and other toddy shops in the Gundlupet Taluk for the year 1901 02

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
6	Fl 3353—S R 139-09-2 ...	13	Compiler, *Mysore Gazette*	Notifying that, under Article 177 of the Mysore Service Regulations, Mr. A. K. Syed Taj Peeran, District Excise Officer, Kolar, is granted privilege leave of absence for fourteen days in continuation of the Christmas holidays, the Treasury Assistant Commissioner of the District being in charge of his duties during the period.
7	Pol 567 ...	13	First Asst. to the Hon'ble the Resdt.	Stating that the Durbar intend altering Rule X of Foreign Liquor Rules in the hope that it would remove the present complaint of the Wine Merchants of Madras against the restrictions imposed in the Mysore State with reference to the foreign liquors of a strength weaker than 15° under-proof.
8	Fl 3385-6—S R 97-09-2	13	Ex. Comr., and Comptr.	Directing for reasons explained the writing off the accounts the sum of Rs. 183 and odd outstanding against Obe Gowda, licensee of certain toddy shops in the Kadur Taluk, for the year 1901-02.
9	Fl 3387-8—S R 119-09-2	15	Do ...	Sanctioning the writing off the accounts the arrears of shop rent, *viz.*, Rs. 52-8-0 due by one Siddaiya, purchaser of certain toddy shops in the Holalkere Taluk for the year 1904-05, with the observation that it was highly irregular and objectionable to have given the lease of the shops to one who was a defaulter in the previous year.
10	Fl 3389 90 - S R 132-09-2	15	Do ...	Sanctioning the remission of Rs. 319-14-2 and Rs. 547-8-10 due by Vaikunta and Sindha Venkata, purchasers of the toddy shops of Darasaguppe and Paschimavahini, respectively, in the Seringapatam Taluk for 1892-93.
11	Fl 3391-2—S R 96-09-2 ...	15	Do ...	Sanctioning the remission of Rs. 364 and odd being the irrecoverable arrears of rental of toddy shop at Gummanahalli in the Seringapatam Taluk for the year 1892-93.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
12	Fl 3425—S R 138-09-5	19	Compiler, *Mysore Gazette*	Notifying that under Article 206 of the Mysore Service Regulations, Mr. C Krishnama Naidu, District Excise Officer, Tumkur, was granted leave on medical certificate for fifteen days with effect from the 11th December 1909.
13	Fl 3428-9—S R 59-09-2	19	Ex. Comr. and Compr.	Sanctioning the following proposals made by the Excise Commissioner in connection with filling up the vacancy caused by the confirmation of Mr. J. E. Rozario, Excise Inspector, 1st class, on Rs. 150+25, as District Excise Officer:— (1) Mr. J. A. Cullis, the Senior Inspector of the 2nd class on Rs. 100+20 to be Inspector, 1st class. (2) B. Subba Rao, Inspector to be 2nd class of Inspectors on Rs. 100+20, *vice* Mr J. A. Cullis, and stating that these promotions will have effect from the 1st July 1909.
14	Fl 3460—S R 135-09-2	21	Excise Commissioner ...	Recording his letter No. 4669, dated 29th November 1909, forwarding copy of the report on the working of the Excise Training School, Bangalore, during the first session and expressing his opinion that it was satisfactory.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
15	Fl 3487—S. R. 257-08-6	24	Excise Commissioner ...	Informing him that there are no reasons to reconsider Government Order No. Fl. 7944, dated 14th June 1909 declining to sanction the grant of an allowance of Rs. 50 to his Office Assistant, as none was intended for Mr. Rozario and none was mentioned in the Excise Commissioner's proposal to place his Office Assistant in charge of the Training School which is opened as a temporary measure for two years and that as the school has an Excise Inspector and a Drill Instructor to conduct the actual teaching, the additional duty devolving on the Office Assistant is not sufficient to justify the grant of the allowance.
16	Fl 3508—S. R. 73-09-21	25	Do ...	Informing him that no case has been made out for sanctioning a bill for Rs. 86-6-6, on account of extra expenditure said to have been incurred by the arrack carrying contractors in transporting arrack to Bowringpet Bonded Depot when the railway traffic was interrupted lately owing to the strike of the drivers.
17	Fl 3520-1—S. R. 140-09-2	26	Ex. Comr. and Comptr.	Sanctioning the purchase of 80 cwt. of black paint from Sir W. A. Rose & Co., London, for marking toddy trees during 1910-11.
18	Fl 3524-5—S. R. 133-09-2	26	Do ...	Sanctioning the refund of Rs. 1-4-0 being the excess amount recovered from Abdul Rahim, Marker, Seringapatam Range, for replacing a trial glass broken by him.
19	Fl 3538—S. R. 7-09-18	26	Nuruddin Ali Khan, retired Excise Inspector, Maldarpet, Bangalore City	Informing him that his petition praying for the appointment of an Excise Assistant Inspector for his son who is already a Volunteer in the Excise Department, is forwarded to the Excise Commissioner for disposal.
20	Fl 3539—S. R. 7-09-18	26	Excise Commissioner ...	Forwarding copy of the above with the petition.
21	Fl 3553—S. R. 146-09-2	27	Do ...	Forwarding for disposal a petition received from M. Krishnaswamiengar, Madras, praying for the appointment of a Sub-Inspector in the Excise Department.
22	Fl 3608-9—S. R. 111-09-2	29	Ex. Comr., and Comptr.	Sanctioning the recommendation of the Excise Commissioner that Excise Inspectors and Assistant Inspectors who are deputed for training in the Excise Training School, Bangalore, may be permitted to draw their horse allowances during such period.
23	Pol 618 ...	29	First Asst. to the Hon'ble the Resident	Suggesting for reasons given certain amendments to the rules framed by the Board of Revenue, Madras, for the transport of intoxicating liquors and drugs prepared from the hemp plant from one portion of a Native State to another through intervening British Territory, enquiring if these changes are acceptable to the Madras Government, forwarding a copy of the rules on the subject proposed to be issued under the authority of the Durbar and stating that such drugs are so transported, (1) On the Naganaikanahalli high road to Anekal from Bangalore. (2) On the Madaksira road to Pavagada from Maddagiri.
24	Pol 620 ..	29	Do ...	Requesting that to give full effect to the arrangement arrived at re supply of stamps intended for use in the Civil and Military Station, of Bangalore, the Collector of that place may be directed to receive application, for stamping

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
				cheques only in cases where they are meant to be drawn within the limits of the Civil and Military Station, Bangalore.
25	Fl 3611—S R 144-06 ...	29	Commissioner of Stamps	Directing that stamps impressed on cheques, Court-fee labels, and other adhesive stamps intended for the Civil and Military Station of Bangalore, shall hereafter have the words "Civil and Military Station" over-printed before they are supplied to the Hon'ble the Resident's Treasury at Bangalore.
26	Pol 621 ...	29	First Asst. to the Hon'ble the Resident.	Stating with regard to the question of the reduction of strength of arrack sold in the State from 20° U.P. to 25° U.P. that any change in the strength of arrack would lead to the fall of excise revenues of the State and to the increased consumption of foreign liquors and that the reduction proposed will be acceptable to the Mysore Durbar if the conditions imposed by the Excise Commissioner are agreed to by the British Government.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR JANUARY 1910.

Proceedings			Subject and Order
Number	Date	To whom sent	
Pol 547 ..	5	First Asst. to the Hon'ble the Resdt.	With reference to his enquiry if the 10th March 1911 would be suitable in respect of the Mysore State for taking the next decenial census, stating that there is no insuperable objection to that date being selected if that be finally resolved upon by the Government of India, inviting attention to the fact that the date happens to be an Ekadasi or fasting day with several Hindu sects, that the enumerators of those sects would be at a disadvantage in working up the first totals and that in view also of the advantage of a moonlight night, it would be better if the date be much nearer the 13th February or the 15th March than those proposed (17th February or 10th March).

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
2	Fl 3577—Cen 1-09-1 ...	27	Compiler, *Mysore Gazette*	Notifying the appointment of Mr. V. R. Thyagaraja Iyer, M.A., Senior Assistant Commissioner as Census Superintendent in Mysore for the Census of 1911.

	Number	Date	To whom sent	
				offered to him at Re. 1 per square yard, he did not avail himself of it; and states that Government can do nothing further in the matter.
9	5761—Ml 132-09-4 ...	8	Chairman, Mysore City Improvements Trust Board	Forwards copy of the above.
10	5763-5—Ml 373-09-3 ...	8	Chairman, Mysore City Improvements Trust Board, Dy. Comr., Mysore, and Presdt., Mysore City Munl. Council	Informs that Government are not prepared to transfer to the Board the land proposed to be given to Mr. A. Ramanna; and directs that this land acquired by Government at an enormous outlay had better be kept open in the interest of the houses which already exist in that crowded and insanitary locality.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
11	5790—Ml 80-09-12 ...	10	Presdt., Bangalore City Munl. Council	Records his report, that the Superintendent of Police, Bangalore, has been requested to arrange to prosecute criminally all the three persons reported upon by the Comptroller as having misappropriated municipal collections, that they have been placed under suspension, and that the amounts alleged to have been misappropriated by them have been duly recovered from two of them ; and directs that the progress of the cases should be reported to Government from time to time.
12	5792-3—Ml 84-09-6 ...	10	Dy. Comr., Chitaldrug, and Comptr.	Sanctions the travelling allowance bill of Khader Mohadeen, acting fitter, Chitaldrug Municipality, for Rs. 17-0-9, on account of the journey performed by him between Chitaldrug and Shimoga in March 1909 to bring a hand-pump from the latter place.
13	5817-8—Ml 85-08-22 ...	11	Presdt. of Munls., Shimoga, and Comptr.	Approves of the Municipal Council's proposal to reduce the loan, to be advanced to the Shimoga Municipality according to Government Proceedings No. 354-61—P. W. 2275-82, dated 24th March 1909 to Rs. 27,000, and directs that the income from tolls and water-tax should be set apart for meeting the annual recurring charges on account of water-supply to the town.
14	5830-1—Ml 284-09-3 ...	12	Dy. Comr., Kolar, and Comptr.	Sanctions an additional grant of Rs. 2,700 to the Kolar Town Municipality, for the current year to make payments on account of certain works already executed in the town, and to put in hand certain other urgent works.
15	5898-9—Ml 362-09-4 ...	13	Chairman, Mysore City Impt. Trust Bd., and Chief Engineer	States that Government are unwilling to pass any orders, at its present stage, on the application of Mr. Marker, praying that the period of his services under the Trust Board from the 31st January 1905 to the 29th May 1909, may be allowed to count for pension.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
16	5929—Ml 211-09-2 ...	18	Dy. Comr, Shimoga ..	Sanctions the free grant of a strip of land adjoining the site near the Police Station in Tuthahalli, for the construction of a building on that site, which Mr Javali Vasudeva Rao intends to do in memory of his deceased mother at his own cost and which he has bound himself to hand over to Government for being used as a girls school
17	5930 1—Ml 88-09-2 .	18	Presdt of Munls, Shimoga, and Comptr	Records the President's letter reporting that the amount of Rs 757 11-3, recoverable from D Vaz, late Municipal Overseer of Shimoga, on account of embezzlement of Municipal collections made by him, has been recovered in full and credited to Municipal Funds
18	5932 3—Ml 84 09-10	18	Dy Comr, Chitaldrug, and Comptr	Extends by another year, with certain observations, the time for repayment by the Chitaldrug Municipality of the advance of Rs 600 sanctioned from State Funds in Government Order No 12074-5—Ml 342 08 9, dated 1st May 1909, for meeting the cost of pumping water from the reservoir
19	5934-5—Ml 84-09-9	18	Do	Sanctions an additional charge of Rs. 7-1-7, incurred on account of entertaining an additional fitter at Chitaldrug from the 10th to the 21st March 1909, the same being met from the provision for 'Public Works' in the current year's budget of the Chitaldrug Municipality
20	5936-8—Ml 78 09 23	18	Chief Engr, Presdt, Mysore City Munl Council, and Comptr	Directs the Chief Engineer to raise the Municipal Fund part of the Public Works Department budget for the current year by Rs 53, the charge being debited to the Municipal Funds of the Mysore City Municipality, to meet the cost of water connection to be given to the charity fountain in front of the Fort South Gate in the City
21	5939—Ml 350-09-6	18	Compiler, *Mysore Gazette*	Sanctions three months' privilege leave to Mr J B A D Cruz, Executive Engineer, Mysore City Improvements Division, from the date from which he may avail himself of it, and appoints Mr. T. S Sesha Iyengar, Assistant Engineer, to act in the place of Mr D'Cruz during his absence or until further orders
22	5940—Ml 350 09 6	18	Chairman, Mysore City Impt Trust Bd	Forwards copy of the above with the direction that at least a week's previous intimation of the date of availment of the leave by Mr D Cruz should be given to the Chief Engineer to enable him to relieve Mr Sesha Iyengar for duty in the Mysore City
23	5941—Ml 350-09 6	18	Chief Engineer	Forwards copy of the above.
24	5994 5—Ml 381 09-3	20	Comptr and Presdt of Dt and Munl Bds, Tumkur	Authorizes the Comptroller to investigate the claim under Article 5, clause C, of the Civil Account Code, in respect of five bills aggregating to Rs 110 on account of arrears of pay due to D. Bhimasena Rao, Work Inspector of the Tiptur Taluk for five months from July to November 1906, and makes certain observations upon the many irregularities of the case
25	5998-9—Ml 232-05-9 .	19	Dy Comr, Kadur, and Ch. Engr.	Records the Deputy Commissioner's letter stating that the Municipal Board have resolved to sink a trial well in a suitable locality in connection with the question of water-supply to Kadur Town, and that when the results of sinking it are known the question of sinking more wells will be considered
5 A	6010—Ml 54-09-18 ..	19	Compiler, *Mysore Gazette*	Notifies the names of the Municipal Councillors, elected or appointed of the Chamrajnagar Town Municipal Council.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
25B	6011—Ml 54-09-18 ...	19	Dy. Comr., Mysore ...	Forwards copy of the preceding
26	6034—Ml 513-08-5 ...	20	Presdt., Bangalore City Munl. Council	With reference to his recommendation for a remission of Rs. 1,000 in favor of M. Hyder Khan and Ahmed Sheriff, toll-gate contractors of the City, observes that neither the exemption of arrack carts from payment of tolls allowable under the rules nor the prevalence of distress is a sufficient ground to grant remission, and directs him to recover early the arrears due from the contractors.
27	6036-7—Ml 175-08-20 ...	20	Presdt., Bangalore City Munl. Council, and Comptr.	Sanctions the appointment of Munibyrappa as Acting Overseer on Rs. 65+20 during the period the appointment of Municipal Engineer, Bangalore City, was vacant since the retirement of Mr. Chengalvaraya Naidu, and the grant of an acting allowance of Rs. 10 to Sub-Overseer Sivarama Iyer for a like period.
28	6041-3—Ml 179-08-9 ...	20	Dy. Comr., Bangalore Dt., and Presdt., Bangalore City Munl. Council, and Comptr.	Directs with certain observations the discontinuance of three separate returns regarding the arrears of the value of sites sold in the Basavangudi and Malleswaram extensions, and the submission in their stead, of a consolidated monthly statement in a prescribed form.
29	6065—Ml 85-08-24 ...	21	Dy. Comr., Shimoga ...	With reference to his letter requesting that the Assistant Commissioner in charge of the Shimoga District Treasury may be authorized to acquire the properties referred to in Government Notification No. 12797, dated 19th June 1909, for the drainage and town improvement of Shimoga, states that the notification already issued cannot be altered and observes that land acquisition cases are in a Deputy Commissioner's 'days' work.'
29A	6097—Ml 106-09-3 ...	21	Srinivas Sitaram Kulkarni, Harihar	Informs with reference to his petition dated 30th June 1909, that Government have directed that the shanbhogs in Municipal towns be granted a sadilwar allowance of Rs. 3 per annum as a tentative measure where the collection of mohatarfa and other taxes is entrusted to the village officials on commission.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
30	6194--Ml 409-08-5 ...	24	Presdt., Mysore City Munl. Council	Records with an observation, the correspondence ending with his letter No. 125, dated 13th September 1909, deciding to defer the consideration of the question of discontinuing the system of paying a monthly grant-in-aid to the pial schools in the Mysore City and of introducing the result-grant-system, pending the settlement of the question of the secondary Education classes being taken over by Government.
31	6195-7—Ml 256-09-11 ...	24	Presdt., Bangalore City Munl. Counl. and Dy. Comr., Bangalore and Comptr.	Approves of the President's proposal to acquire a vacant land for extending the conservancy lane behind house No. 24, Arcot Srinivasacharlu street, 3rd Division, Bangalore City.
32	6198—Ml 256-09-12 ...	24	Compiler, *Mysore Gazette*	Notifies the declaration in respect of the above acquisition.
33	6199-200—Ml 87-09 ...	24	Presdt., Bangalore City Munl. Council, and Comptr.	Observes that the expenditure incurred in paying grain compensation allowance to the servants of the Municipality should legitimately be met out of Municipal funds, authorizes the Comptroller to admit in the accounts of the Municipal Council for the year 1908-09, the expenditure incurred for the purpose in that year, and requests the President to state what amount has been spent for the purpose during the current year and to point out the source in the current year's budget from which the expenditure can be met.
34	6201-3—Ml 209-09-2 ...	24	Presdt. of Munls., Bangalore, Presdt. of Dt. Bd., Bangalore and Comptr.	Directs that the Kankanhalli Municipality be relieved for two years from the 1st July 1909 of the payment of the quota on account of dispensary charges, the same being met from District Funds.
35	6205-6—Ml 166-08-8 ...	24	Presdt. of Munls., Tumkur, and Comptr.	Sanctions an additional grant of Rs. 2,105 from the closing balance in favour of the Kunigal Municipality during 1909-10, to meet the cost of sinking two drinking-water wells in the town.
36	6207—Ml 281-09-5 ...	24	Dy. Comr., Chitaldrug...	With reference to his letter requesting that the Assistant Commissioner in charge of the Davangere Sub-division, may be authorized to take order for the acquisition of certain properties to open out a conservancy lane in Davangere, states that Government do not consider it necessary to modify the notification already issued in the matter, and observes that land acquisition cases are in a Deputy Commissioner's 'day's work.'
37	6280-9—Ml 271-08-46 ...	25	Presdts. of Munls., Shimoga, President's of Munls. in the other Dists., and Presdts. of Bangalore and Mysore City Munl. Councils	Directs with certain observations that in future Municipal clerks should not be permitted to receive collections or to grant receipts, and that such duties should be performed by the Municipal Collector or the Vice-President or any other official specially charged with the duty under the express orders of the Municipal Council.
38	6290-1--Ml 70-09-6 ...	25	Dy. Comr., Kadur and Comptr.	Sanctions the writing off the accounts of several items of arrears aggregating to Rs. 928-3-8 in the statement of arrears of Municipal taxes in the Chikmagalur Municipality.
39	6294-5—Ml 215-09-2 ...	25	Dy. Comr., Mysore and Comptr.	Sanctions with certain observations the institution in a competent civil court of a suit against one Narasimiah of Malvalli, to recover with interest the amount of Rs. 100 which was granted to him as a loan with 12 per cent interest in September 1897.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
40	6339—Ml 392-09-2 ...	26	Compiler, *Mysore Gazette*	Notifies the grant of one month's privilege leave from the 3rd January 1910, to Dr. A. K Pani who was relieved of his duties as acting Chemical Examiner and Government Bacteriologist on the forenoon of the 2nd January 1910.
41	6340—Ml 392-09-2 ...	26	Comptroller ...	Forwards copy of the above with the intimation that the allowance due to Dr. Pani for the period of his privilege leave should be debited to the State Funds.
42	6341-2—Ml 392-09-2 ...	26	Presdt., Bangalore City Munl. Council and Sr. Surgn.	Forwards copies of the above.
43	6391—Ml 89-09-2 ...	27	Chairman, Mysore City Impts. Trust Board.	Records his letter No. 926, dated 21st December 1909, submitting statements showing the projects already sanctioned and the amount spent on them up to end of 1908-09 as also the projects to be sanctioned hereafter and stating that the entire operations of the Board are expected to be completed by the end of 1913-14.
44	6395-6—Ml 261-08-10 ...	27	Dy. Comr., Kolar, and Comptr.	Approves of the acquisition, at a cost of Rs. 4,335 of certain lands in the Vabasandra village, Chikballapur Municipality and of the site being handed over to the London Mission for building the Wardlaw Thompson Memorial Hospital, and directs that the price of the site should be recovered from the Mission before the end of the current official year.
45	6398—Ml 15-09-11 ...	27	Presdt. of Munls., Hassan	With reference to his letter No. 296, dated 18th December 1909, stating that the 'octroi' and 'cattle pounds' collections made on 30th April 1909 were not included in the accounts of April 1909, etc., states that the amount collected during a month should be included in the accounts of that month irrespective of the date on which the amount was remitted to the Treasury, and that it is not necessary to repeat the plus and minus memorandum in the monthly 'Municipal Cash Accounts.'
46	6431-2—Ml 182-09-4 ...	28	Dy. Comr, Kolar and Comptr.	Directs with an observation the suspension of the levy of Octroi on jaggory, sugar, oil-seeds and ghee in the Sidlaghatta Municipality, till the end of the current official year.
